Statement on U. S. Immigration Law

Because of the wide spread misunderstanding among Canadians both in the United States and Canada; regarding the present United States Immigration Laws relating to Canada; the Canadian Club of Boston through its President A. N. Johnson has issued the following statement in an endeavor to make the essential points of these laws as clear as possible.

The privilege granted to Canadians under the United States Immigration Laws of 1917 whereby Canadians have been permitted to come to the United States on a visit for a period of six months without the payment of head tax; is continued under the present United States Immigration Act which became effective July 1, 1924.

Unfortunately, this privilege has been taken advantage of. The law has been violated—often times unwittingly; sometimes deliberately—by a large number of persons in that they agree to return to Canada within six months but did not do so. It is apparent that such persons do not realize the penalties they must inevitably incur for violating this temporary stay privilege. Under the present laws persons who come to the United States under this six months temporary stay privilege, paying neither head tax or visa; and who do not return to Canada within six months as they agreed; are liable to severe penalties. They are as follows:

(1) After the expiration of their six months' stay they are liable to arrest and deportation to Canada and persons so deported are prohibited from re-entering the United States for one year.

(2) The head tax of \$8 and visa of \$10 cannot be paid in the United States; but such persons must return to Canada and appear before the United States Consul of the district in which they reside and obtain a visa. They must also pay a head tax at the recognized point of exit in Canada. In the Maritime Provinces there are three—Yarmouth; Nova Scotia; Halifax; Nova Scotia and St. John; New Brunswick.

(3) No person may become a citizen of the United States or take out first papers who in entering the United States has not complied with the United States Immigration Laws. If this has not been done one must return to Canada; pay the visa and

head tax and thus legally re-enter the United States before making application for citizenship.

When persons are not absolutely sure of returning to Canada within the six months period it is strongly advisable to obtain visa and pay the head tax before leaving Canada. This will save a possible trip back to Canada.

Further, it cannot be overemphasized that the temporary stay privilege is a special concession to Canadians; which is not enjoyed by the people of any other country. That its continuance may not be endangered the laws covering it should be honestly complied with. Canada also enjoys another unusual concession in that its citizens are not placed under a quota. Were the continued violation of present laws to bring about a quota upon Canada; such as now exists with all other countries; it would be indeed very unfortunate. Only a limited number of Canadians would then be permitted to enter the United States each year. This might tend to impair the cordial intercourse between these two great countries.

Because of the number of times which the Canadian Club of Boston is called upon for information on this important question affecting so many of our own people; the Club feels that there is need for greater publicity on this matter. It seeks in a friendly way to help Canadians; whose reputation for complying with the Law is firmly established; and also the United States Immigration authorities who are anxious to have the fundamental features of this Law generally understood. To this end a special Immigration Committee has been appointed. All of its efforts conform with the vital purpose of this Club, which lies in promoting friendly relations; based upon mutual understanding between all English speaking peoples.

Spring Impurities Due to Poor Blood

A Tonic Medicine a Necessity at This Season.

Dr. Williams' Pink Pills are an all-year-round tonic for the blood and nerves. But they are especially valuable in the spring when the system is loaded with impurities as a result of the indoor life of the winter months. There is no other season when the blood is so much in need of purifying and enriching, and every dose of these pills helps to enrich the blood. In the spring one feels weak and tired—Dr. Williams' Pink Pills give strength. In the spring the appetite is often poor—Dr. Williams' Pink Pills develop the appetite, tone the stomach and aid weak digestion. It is in the spring that persons in the blood find an outlet in disfiguring pimples, eruptions and boils. Dr. Williams' Pink Pills clear the skin because they go to the root of the trouble in the blood. In the spring anaemia, rheumatism, indigestion, neuralgia and many other troubles are most persistent because of poor, weak blood, and it is at this time when all nature takes on new life that the blood most seriously needs attention. Some people dose themselves with purgatives, but these only further weaken themselves. A purgative merely gallops through the system, emptying the bowels but does not help the blood. On the other hand, Dr. Williams' Pink Pills enrich the blood which reaches every organ in the body, bringing new strength and vigor to weak, easily tired men, women, and children. Try Dr. Williams' Pink Pills this spring—they will not disappoint you.

Among those who have proved the value of Dr. Williams' Pink Pills is Mr. Austin Wile, Hemford N. S., who says:—"I have reason to be deeply grateful for what Dr. Williams' Pink Pills have done for me. An abscess developed in my head, and the doctor who was called in said my whole system was poisoned. My appetite completely failed and I grew so weak I was unable to do any work. The doctor's medicine did not help me so I decided to try Dr. Williams' Pink Pills. At this stage I was reduced almost to a skeleton, and my friends did not look for my recovery. I soon found, however that the pills were helping me and after taking them for about two months I was fully restored to health. My case was known to all my neighbors and my recovery looked upon as almost a miracle."

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co. Brockville, Ont.

Forbidden To Sell German Securities

Utilities Board Notifies Newcastle Police Chief to Stop Vendor

Telephone message from the Newcastle chief of police was received last Friday by the Board of Utilities, stating that a Nova Scotian, J. R. Beck, was selling German bonds in that town and asking for instructions as to what steps to take.

E. S. Carter, clerk of the board, informed the chief that Mr. Beck was not licensed either as a broker or agent to sell securities of any kind in the Province of New Brunswick, and pointed out that under section 23 of the Act any person selling securities without a license was liable to a penalty of not more than \$500 or to imprisonment of not more than six months.

Organized Effort

It is said there is an organized effort being made by United States foreign brokers to sell a tremendous amount of German, so-called, securities in Canada and huge sums have been spent in glaring advertisements to entice the public to buy.

J. M. Trueman, chairman of the board after consultation with Attorney-General Rand, has announced his intention to stop the sale as far as possible in this province and asks for the co-operation of all police and municipal officials in this effort.

NO PROVINCIAL GASOLINE TAX

Government Favors Tax, but is Not Ready

Premier Veniot, in an interview touching the question of gasoline tax on autos said: "The government has given this matter serious consideration and approved of the policy of a gasoline tax, but before putting same in force the Minister of Public Works must work out a scheme by which gasoline used by fishermen, etc., in their motor boats and by farmers for engines, tractors, etc. may be exempt from this tax."

"The system of refunding the tax paid for gasoline used for other than autos has been suggested. Another system mentioned is an exemption given by means of an affidavit setting forth purpose for which gasoline is to be used at time of purchase."

The Premier expressed the view that as soon as this point would be settled the gasoline tax should come into effect, but was convinced that it could not be done this year.

Asked if the imposition of a gasoline tax would necessarily mean a lowering in the rate now charged for a license the Premier replied that he thought such would be the result.
