## New Canadian Eight Cent Stamp

OTTAWA, Oct. 1.—A new Canadian stamp, of the eight cent denomination will go into use tomorrow, following a decision reached at the recent international postal conference, held at Stockholm, to the effect that the postal rate on letters between countries of the union, should be reduced from 10 cents to 8 cents.

This stamp is of the same design as the other Canadian postage stamps, having on its face a portrait of His Majesty the King, and according to the regulations of the conference...

The postoffice department is also about to issue the first of a series of Canadian historical stamps. The new issue will be three in number, one containing the portrait of Baldwin and Lafontaine, a second containing the portrait of Thomas D'Arcy McGee, and a third containing the portraits of Sir Wilfrid Laurier and Sir John A. Macdonald. These stamps will be intended for domestic use only, but will be valid for payment of postage to other countries as well.

In addition to their educational value, from a Canadian standpoint, they are also likely to be widely sought and highly valued by stamp collectors in different parts of the world.

## Women's Handicaps

### Headaches and Backaches Often Make Life Miserable

A woman's health handicaps her almost always. She has pains and disabilities which do not afflict men. Nature does not give her a fair chance. Her blood is more often thin and poor than a man's and she often neglects the first beginnings of ill-health. Many women who seemed destined to a life of frequent suffering have been freed entirely from their suffering through the wonderful blood-making qualities of Dr. Williams' Pink Pills. Many a woman toils all day with a pain in her back and side, a burning headache, and a sense of having no spine left.

What a pity women will not listen to their friends whom Dr. Williams' Pink Pills have saved from their misery. Whenever a woman suffers they will help her—in youth, middle age and afterlife. Mrs. John Mitchell, of Middleville, Ont., gives her experience for the benefit of other women sufferers. She says:—"Some years ago I was so badly run down I could hardly walk around the house. I tried to do a few chores but was able to do very little. My boys and husband had to do the rest. If I started up stairs I had to go very slow or I would fall, and I was just played out when I got at the top of the stairs. My head ached terribly, and my heart would beat violently. In this deplorable condition I began taking Dr. Williams' Pink Pills. When I had finished six boxes I felt much better. Then I got a further supply, and by the time I had taken these I could walk anywhere without being exhausted, the headaches had disappeared and I am now perfectly well. Any woman who is run down should not hesitate to begin Dr. Williams' Pink Pills at once, as I am sure from my own experience they will build her up."

You can get these Pills from any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## BOOTLEGGING IN KENT COUNTY

Stories are reaching the city of a plethora of smuggled liquor in and around Buctouche and it is said that residents of the vicinity indulging in the trade of "bootlegging" are doing a rushing business.

Contraband liquors of the best quality may be had "for a song" owing to the fact that the supply is much larger than the demand, and the best whiskeys are being quoted at \$2.25 per bottle.

In the matter of sales, one general store is said to eclipse all others and the proprietor has his system regulated to a degree of unusual fineness. A tourist drives up to the store, parks his car outside and enters. "I would like some whiskey, please?" "Yes sir, how much?" "Oh, about two cases." Certainly sir, money please." Whereupon the proprietor presses a small button behind the counter, the tourist leaves the store and discovers the two cases of liquor in his car. The button signalled a clerk in the cellar, who placed the booze in the car. In this way the storekeeper is protected, because if the tourist is caught by the inspectors, which happens very seldom, he cannot swear that he obtained the liquor from the storekeeper, as he did not accept it, nor did he see it taken from the store, and placed in the car.

It is said that many American tourists coming to St. John do not stay here but proceed to Moncton beyond, in order that they may obtain the liquor at reasonable prices. On the return trip, the tourists manage to arrive here about 9 or 10 o'clock in the evening and passing through the city reach Houlton, Me. in the small hours of the morning, while it is still dark. At this hour the International Bridge is deserted, so the motorist has no trouble in entering Maine. He proceeds for a short distance and caches the prized liquor. Returning to Houlton, he enjoys a nap as it is necessary for him to report to the immigration and customs inspectors, and this he does by daylight. Nothing untoward is discovered in his car, and he is allowed to proceed unmolested. He gathers up the hidden liquor on the way, and goes to his home, laughing up his sleeve at the ease in which the desirable beverage is obtained. Owing to this abundance of liquor
