Dec. 17, 1884—5m

What is this Disease that is Coming Upon Us?

Like a thief at night it steals in upon us unawares. Many persons have pains about the chest and sides, and sometimes in the back. They feel dull and sleepy the morning after, and are generally in a state of debility. A sort of sickly nervousness affects about the middle of the chest. There is a feeling like a heavy load on the stomach; sometimes a slight oppression at the pit of the stomach which food does not relieve. The patient becomes nervous, irritable and nervous, and sometimes has a feeling of heat in the head when rising up suddenly. There is a globulosa, a sort of whitening of the tongue, and the skin is dry and scaly. The bowels become constipated, and the patient is generally in a state of debility. The patient is generally in a state of debility. The patient is generally in a state of debility.

After a time he becomes nervous, irritable and nervous, and sometimes has a feeling of heat in the head when rising up suddenly. There is a globulosa, a sort of whitening of the tongue, and the skin is dry and scaly. The bowels become constipated, and the patient is generally in a state of debility. The patient is generally in a state of debility. The patient is generally in a state of debility.
