GLADSTONE is yet sojourning on the continent and is now in the enjoyment of vigorous health, having entirely recovered from the effects of the attack of influenza from which he suffered in England. THE rise in the price of beef and mutton, caused by the new tariff, has led to an enormous demand for horseflesh in Paris Over one third of the whole quantity of meat consumed consists of slaughtered horses asses and mules. FOR some time past letters and papers, many of the former containing money, mailed at and passing through the Amherst post-office have never reached their destination. An investigation into the matter has resulted in the arrest of a young man named Edward Handwright, aged 18, who carried the mail between the office and station, and who confessed having at different times abstracted letters from the bags.

No foreign mail was received Wednesday last, the Stanley being unable to leave Georgstown owing to the snow storm. Mails were regularly received the following day and Friday; but on Saturday another deadlock occurred and no mails have since been received. Possibly there will be one this evening. THE Ottawa Journal calls attention to the fact that when Mr. Barron, who was a great lawn tennis player, went home at the close of last session he took with him the nets, rackets, etc, of the lawn tennis club formed by members of Parliament and the press last summer, saying he would bring them back "next year," and advises Sam Hughes to call and bring the set with him. Sam is more likely to start a lacrosse club than to dally with lawn tennis.

MR. GILLIS, of Indian River, delivered his most interesting lecture on Canada before a very large audience in the Catholic Institute at Rustico on Wednesday evening last. His discourse, which lasted an hour and a half, was replete with interest and information After fully impressing his hearers with the great capabilities of this Canada of ours, he gave to the young men in the audience this practical advice, that if necessity should ever require them to emigrate from the Island, they should be sure to settle in this great Dominion, where great advantages are offered them and where they will not lose their nationality. Two things necessary for success in those emigrating to the North-West or elsewhere he strongly urged, viz: a good education and temperate habits. Several clergymen and other gentlemen made witty and eloquent addresses at the close of the lecture.

The steamer St. Francis, from New York, arrived at Liverpool, Monday, with the crew of the schr. Petrel on board. The schooner was found abandoned off Mispehead and towed to Queenstown. Her crew was supposed to have been drowned.

STRUGGLE FOR LIFE AT SEA.

New York, 16th.—The British steamer Africa arrived here to-day from Hamburg and reports an exciting scene at sea, when fire raged in the cargo of rags. The Africa left Hamburg on January 23th and on February 8th fire was discovered in her hold. A dense smoke came up through the hatches. The first officer and a couple of seamen wrapped wet towels about their heads and descended into the hold to locate the fire and if possible fight it. With much difficulty they were got out alive as the bales of rags blazed up. A tackle was rigged up with a grappling hook. Bale after bale of the burning rags was hauled up and cast overboard. After six hours of hard work the fire was extinguished.

Fifty nine Conservatives, 13 Unionists, 18 Gladstonians and 7 Irish members of the House of Commons have intimated that they will not again run for Parliament.

The Irish Education Bill was introduced in the Commons, Monday night It proposes the compulsory attendance at school of children between the ages of 6 and fourteen years, and prohibits the employment of children under 11 years.

While the English mail train from Halifax was running along the foot of a cliff skirting the Metapedia river, between Kennedy's platform and Assonitigungan, Sunday night, an avalanche of snow a d ice fell from a height of several hundred feet, and struck the locomotive. The engine was smashed to pieces and hurled into the river. The driver was slightly injured as was also the fireman although thrown a distance of fifty feet.

The report of the Baie des Chaleurs commission is now before the public. Judge Jette whitewashes not only Mercier, but Charles Langelier and the entire gang of boodlers. He maintains, however, that the transactions between Pacaud and Armstrong cannot be defended. The president of the commission has proved himself a thorough partizan, and his usefulness as judge is gone. Judge Baby and Davidson's majority report is a most elaborate document, and reaffirms the position which was taken in their interim report to the lieutenant governor.

Headache

Usually results from a deranged stomach or a sluggish liver. In either case, an aperient is needed. Ayer's Pills, the mildest and most reliable cathartic in use, correct all irregularities of the stomach, liver, and bowels, and, in a brief time, relieve the most distressing headache. These pills are highly recommended by the profession, and the demand for them is universal.

"I have been afflicted, for years, with headache and indigestion, and though I spent nearly a fortune in medicines, I never found any relief until I began to take Ayer's Pills. Six bottles of these Pills completely cured me."—Benjamin Harper, Plymouth, Montserrat, W. I.

"A long sufferer from headache, I was

CURED BY

two boxes of Ayer's Pills."—Emma Keyes, Hubbardstown, Mass.

"For the cure of headache, Ayer's Cathartic Pills are the most efficient medicine I ever used."—Robert K. James, Dorchester, Mass.

"For years I was subject to constipation and nervous headache, caused by derangement of the liver. After taking various remedies, I have become convinced that Ayer's Pills are the best. They never fail to relieve my bilious attacks in a short time; and I am sure my system retains its tone longer after the use of these Pills, than has been the case with any other medicine I have tried."—H. S. Sledge, Welmar, Texas.

Free Farms

—IN THE—

Canadian Northwest.

Manitoba, Assiniboia, Alberta, Saskatchewan.

THE Government give one quarter section (160 acres) free to every bona fide settler. A second quarter section can be pre-empted by different payments.

The Canadian Pacific Railway Company has a large quantity of the best farming lands for sale at $3.00 PER ACRE, with easy terms of payment.

The Canada Northwest has the most productive soil in the world. Its wheat fetches the highest price; its live cattle are admitted to the English markets, while United States cattle are not. There is a market for the farmer at every station; and there are schools and Churches wherever there are settlers. It is not subject to drought nor floods, to grasshoppers or to cyclones or tornadoes Ask any Canadian Pacific Railway agent for books and maps concerning it; ask for "Farming and Ranching in Western Canada," or the "Free Farms" map, or "Actual Experience," and read the testimony of men who have gone there from Eastern Canada. Young women are in great demand; they find occupation as domestics directly they arrive, and readily get married to prosperous young farmers. Young men or young women can start life there almost without money. They make the money there; an independence is gained in a very few years by the thrifty.

The old settlers of Prince Edward Island should use their influence with the young men who intend emigrating to keep them within the Dominion, where they are offered better advantages than in the United States and do not lose their nationality.
