

**ST. ALBERT DENIED
EXTENSION ASKED**

Private Bills Committee Refuses to Grant Application to Enlarge Boundaries of Town in Order to Increase Taxation Area to Bonus Edmonton Railway.

The committee on miscellaneous and private bills at the meeting in the legislative hall Tuesday considered the bill for the extension of the limits of the town of St. Albert. The committee expressed no sympathy with the powers asked for in the bill and decided that the bill be not reported.

Willard Garney appeared on behalf of the municipality setting forth the request of the city to extend the city limits from 640 to 2,400 acres. He said that the town was unable to cope with its increasing requirements and to be prepared to bonus a street railway line from Edmonton to St. Albert. The whole extension will not be bonus by St. Albert only but by Edmonton and the property holders to be benefited along the line.

It was pointed out in the committee that special legislation was made at the last session to enable the proprietors of the town to protect themselves. In view of this it was not thought wise that the city should be further crippled by being given an opportunity to plunge into more expenditures.

Mr. Garney was informed that it would be useless to expect the bill to go through unless the mayor of the town would come forward and make additional representations and unless some expression of opinion could be secured from those whose property would be brought under increased taxation. It was taken for granted that the latter would raise some serious objection to the passing of the bill.

The committee decided not to report the bill, which makes it a dead one as far as the present session is concerned.

"St. Albert will appear before the next session for the same thing," said Mr. Garney.

"Well, we will all try to be here then," said one of the committee.

Ranching and Packing Company. Joseph Bailey Powell, of Calgary, along with his solicitor, Wm. Short, K.C., appeared before the committee to attend the passage of the bill to incorporate the North-west Ranching and Packing Company.

Chairman Roswell read a communication from Harold W. Riley, deputy provincial secretary, in which it was pointed out that there was nothing in the nature of the bill to warrant it having special legislation. It should be incorporated under the Companies Act of the Northwest Territories.

Mr. Short said that the provisions of the Companies Ordinance were a hardship on companies seeking incorporation. He related a case in which a company was incorporated, saying that under the present conditions it means extraordinary liability on the part of those responsible for it.

Mr. Powell claimed that there are clauses in the Ordinance which are very objectionable to companies. He did not want to see a company made more liable than an individual would be. He represented that he had organized scores of companies and knew under what conditions capital could be attracted.

The committee was of the opinion that companies should be made to conform with the ordinance, as the Legislature has made no practice of granting special advantages to companies.

It was decided that the parties interested should appear before the committee to defend the bill, so that it will conform more with the law respecting private stock companies.

The four Roman Catholic charitable organizations which are seeking incorporation by the Legislature, also came up for consideration in the committee, but were held over, because they were held to be incomplete.

The bill to validate the school assessment on the town of Vermilion met with favor and will be reported to the house.

DEU TO VICTIM'S CARELESSNESS.

Statistics Before Railway Commissioners Concerning Level Crossing Accidents.

Ottawa, Ont., Feb. 15.—In connection with the investigation now in progress under the Railway Commission, with regard to the best means to adopt for the prevention of the level railway crossings in Canada, statistics have been prepared showing the number and character of the fatal accidents at these crossings during the past five years. Since the board was created in 1900 reports have been kept as to all railway fatalities in the Dominion and in nearly every case there is on file a report from one of the board's officials giving particulars as to the accident. During that period there have been altogether 270 fatalities at level crossings, but the striking fact is not the number of the fatalities, but the fact that in nearly 90 per cent. of them have been due to carelessness or recklessness of the victims themselves, rather than to the fact that the crossings were unprotected. In Prince Edward Island there has not been a single level crossing fatality in five years, and on the Intercolonial Railway there have been only thirteen in that period.

Two New States Added.

Washington, D.C., February 15.—By a unanimous vote the House of Representatives today conferred the crown of statehood on Arizona and New Mexico. The pledge of both Democratic and Republican National platforms was met in the act.

**WATERS-PIERCE CO. PAY FINE.
Subsidiary Company to Standard Oil Suits to Court's Judgment.**

Jefferson City, Mo., Feb. 15.—Henry Clay Pierce came to Jefferson City, Mo., his private car today and paid into court a certified check on the National Bank of Commerce, of St. Louis, for \$50,000, the share of his company, in the fine assessed against the Standard Oil Co. and its subsidiaries for violating the Missouri anti-trust laws. Mr. Pierce did not actually appear in court, but stayed in his car at the Missouri Pacific Hotel, while his attorney, H. H. Priest, went in a cab to the office of the clerk of the supreme court. At the time of presenting the check Judge Priest filed a copy of the minutes of the last meeting of the board of directors of the Waters-Pierce Oil Co. authorizing the following declaration on the part of the company:

"Come, now the Waters-Pierce Oil Co. in the above entitled cause pursuant to the order and judgment rendered by the court, and also herewith is filed a certified copy of a resolution of its board of directors passed Feb. 13th, 1909, wherein said board has agreed to accept and does accept, the condition of the aforesaid decree, and agrees to abide by the same. The board respectfully submit itself to the further orders, judgments and decrees of the court, and also herewith is filed a copy of the minutes of the last meeting of the board of directors of the Waters-Pierce Oil Co. deposited here a certified check in the sum of \$50,000 to pay the fine imposed upon this defendant by virtue of said judgment and decree."

GUARDED SECRET FOR YEARS.

Parents Kept Two Sons, Who Had Leprosy, Prisoners in Their Home.

Galveston, Texas, Feb. 14.—A pitiful story of parental devotion and self-sacrifice has been brought to light by the discovery of two cases of leprosy in this city. The cases are brothers, one man and one woman, and they are the sons of Mr. and Mrs. James Younger, who for nearly twenty years have kept them prisoners in their home. The mother, Mrs. Younger, is well known to the family well to do, when the eldest contracted the loathsome disease and became a prisoner in the home. The parents cared for him and secretly guarded his secret. Five years ago the other son, who was also afflicted with the disease, was brought to the home and declared to be beyond cure and are dying by inches.

The expense of caring for the two lepers was a constant drain upon the resources of the family and their last piece of property, the homestead, is about to be sold for taxes. With the discovery of the leprosy by the authorities, the father, who is now in the hospital, is willing to have them sent to any institution for treatment, but the mother, who is now in the hospital, is willing to have them sent to any institution for treatment, but the mother, who is now in the hospital, is willing to have them sent to any institution for treatment.

Mr. Powell claimed that there are clauses in the Ordinance which are very objectionable to companies. He did not want to see a company made more liable than an individual would be. He represented that he had organized scores of companies and knew under what conditions capital could be attracted.

The committee was of the opinion that companies should be made to conform with the ordinance, as the Legislature has made no practice of granting special advantages to companies.

It was decided that the parties interested should appear before the committee to defend the bill, so that it will conform more with the law respecting private stock companies.

The four Roman Catholic charitable organizations which are seeking incorporation by the Legislature, also came up for consideration in the committee, but were held over, because they were held to be incomplete.

**KING PERSONALLY
OPENS PARLIAMENT**

Brilliant Gathering at the State Opening of the House of Commons—Their Majesties Enthusiastically Greeted by Members—Canada Occupies Prominent Place in Speech From Throne.

Canadian Associated Press.

London, February 16.—His Majesty the King personally opened Parliament today, the Commons being summoned to the Lords, where was an unusually brilliant gathering. The speech from the throne dealt with the satisfactory progress which has been made in the negotiations of outstanding questions with the United States. A treaty had been arranged to equalize the use of the waterways adjacent to the international boundary between Canada and the United States, and this question, being one of special Canadian interest, was given prominence in the speech.

My ambassador in Washington, the speech continued, "has also negotiated, with the co-operation of the ministers of justice of Canada and Newfoundland, an agreement of reference to arbitration of the North American fisheries question. I trust that the settlement will be the means of effecting a final friendly settlement of matters which have long been under discussion between this country and the United States."

Crowd Unusually Large.

A greater crowd than usual gathered at Westminster today for the state opening of parliament by King Edward, accompanied by Queen Alexandra, the Prince and Princess of Wales and other members of the Royal Family. The weather was perfect. It was the first public appearance of the King and Queen since their return from Berlin. This was largely responsible for the crush along the route of the royal party. WAS FROZEN TO DEATH.

Mother of Five Small Children Wanders From the Road and Falls Exhausted.

Lockwood, Sask., Feb. 15.—Mrs. Andrew Evanson, aged 34, wife of a Swedish homesteader, living about 12 miles east of here, was frozen to death Saturday night, three miles east of the village. The family, consisting of the deceased, her husband and five small children, the oldest of whom is only about six years, was in straightened circumstances and she had been working at the hotel here. Mrs. Evanson had purchased about fifty pounds of provisions for the Saturday evening to walk against a cold wind and evidently wandered from the road.

On her failure to arrive home Saturday night her husband sent word with a passing team, as he could not find the house. A search party was organized and tracked her about five miles, the footprints showing where she had passed her house within three hundred yards. She was finally found about 100 yards from N. Phillips house, where her remains were identified by the fragments of her clothing. The body was nearly all burned off and the body was found in a posture of agony on hands and knees. The clothes were nearly all burned off and the body was found in a posture of agony on hands and knees. The clothes were nearly all burned off and the body was found in a posture of agony on hands and knees.

**BRILLIANT OPENING OF
ONTARIO LEGISLATURE**

His Honorable Lieutenant-Governor Gibson Officially Opens the Third Session of the Legislature—Speech From the Throne Deals With Power.

Toronto, Feb. 16.—The first session of the twelfth legislature opened this afternoon with the usual ceremonies. Hon. J. M. Gibson, lieutenant-governor, for the first time as the new lieutenant-governor, presided over the opening of the session. The galleries and floor of the house were crowded and the function was a brilliant one socially. Before the speech from the throne was read Hon. T. C. Crawford, of West Toronto, was elected speaker. Law reform is to be the legislative feature of the session. The speech from the throne having alluded to the lieutenant-governor's former association as a member of the legislature, gives thanks for the good harvest and general prosperity. Congratulations are expressed on the raising of the loan and the fact that Ontario has been relieved of liability to the Algoma Central and the Northern Railway and the Associated So. Industries. The successful completion of the government railway transcontinental is mentioned, and the fact that railway returns are largely in excess of the expenses. The further development of the mining industry in Northern Ontario is regarded as satisfactory. In view of the activity of Hon. Mr. Gibson, before his appointment, as president of the Ontario Power Co., the following paragraph in the speech attracted attention: "Contracts have been entered into providing for the construction of the St. Lawrence power and transmission line, 250 miles in length, all or the greater part of which is expected to be completed by the end of the year. Within the last two months upwards of thirty-five municipalities have voted in favor of procuring power from the hydro-electric commission."

On her failure to arrive home Saturday night her husband sent word with a passing team, as he could not find the house. A search party was organized and tracked her about five miles, the footprints showing where she had passed her house within three hundred yards. She was finally found about 100 yards from N. Phillips house, where her remains were identified by the fragments of her clothing. The body was nearly all burned off and the body was found in a posture of agony on hands and knees.
