**Imperilling
Bait Protection.**

On Tuesday we spoke strongly, but not as strongly as the situation warranted, of the action of the Government in taking the S. S. Fiona from her work at this season of the year of preventing our bait being run to St. Pierre and foreign bankers in order to convert her into a yacht for the convenience and pleasure of His Excellency the Governor. In view of the fact that Newfoundland this year will have to face the competition of an extraordinary large Norwegian fishery, fifty per cent above the average, it was imperative for the Government to do their part, and do it well. In seeing that we had not to face in the markets fish caught by foreigners on Newfoundland bait, it is absolutely essential this year that the Bait Protection Service should be strict and stringent.

The Bait Protection Service should have had the first claim on the service of the S. S. Fiona. Another steamer should have been hired for this use of the Governor and his suite. If it was not possible to hire a suitable steamer for the use of His Excellency then the S. S. Fiona should have been kept on bait service until a suitable steamer could have actually been placed on the bait protection service. Some such course as this would have been recommended to any party but one obsessed with picnicking. We repeat No party but a Picnic Party would have taken the S. S. Fiona on bait protection without providing a suitable substitute to take her place before she left the bait grounds, and not until then would she have been released from that service. Instead of following such a course, the Picnic Party Government takes the Fiona away, and she is kept in St. John's undergoing repairs and renovations to take the Governor around on a trip and the bait grounds are left without a steamer to protect them for quite a long time. Then an unsuitable steamer is hired from Halifax, which has to be kept quite a lengthy time at Placentia in order to fit her up for the service, and all the time the bait grounds are left unprotected.

A week ago the s.s. Baleine could have been put on the service, but no attempt was made to charter her or any other suitable steamer, but for some inscrutable reason a tug boat fifty years old was hired in Halifax. No wonder that the Board of Trade should have protested against the unprotected state of the bait grounds. No wonder that the Board of Trade should have officially objected to an unsuitable steamer being hired for the work. What is the reason, at present so inscrutable, for the reckless course pursued by the Picnic Party Government in these matters? There must be some reasons. What are they? So indefensible is their outrageous indifference to the interests of the country that they have been forced by the outcry to change their policy, and the s.s. Baleine was hired and despatched yesterday for the West Coast. Why was she not put on the service immediately the Government decided to place the s.s. Fiona at the disposal of the Governor. If they had determined that His Excellency must have the use of our bait protection cruiser? They have had to hire her at last, forced by the complaints of the West Coast, the Board of Trade and the Press. But why was it not done before irreparable damage had been done to our fishery interests? Time will tell.

DRY DOCKED.—The Nascope and Bishops' yacht Amazon, were dry docked yesterday for repairs.

**Are Exempt
From Dues.**

The following members of the T. A. & B. Society who have been over 40 years in continuous membership are now exempt from all dues except doctor's fees:—Mr. Dunn, W. Kenny, L. Daly, M. Hickey, J. J. Bates, T. Grace (now residing in Newark, N. J., but still a member of the body), D. Clatney, Philip Hanley, P. J. Walsh, Martin Walsh, Philip Murphy, John Channing, James Clancy, Frank Walsh, Patrick Walsh and Terence McNamara.

Visited School.

His Grace Archbishop Howley, His Lordship Bishop Power, Rev. Dr. Greene and Mr. V. P. Burns on Tuesday visited the school of Domestic Economy, on Harvey Road. Miss Wright's pupils and the Presentation Convent and Convent of Mercy gave practical illustration of the training they are receiving, preparing some tempting viands of which the visitors partook. They were highly pleased at the manner in which the pupils acquitted themselves.

Yet Unsold.

The Army and Navy Depot, the well known building on Duckworth Street, and which is occupied by Mrs. Kearney, was up for sale to-day at noon. Mr. P. C. O'Driscoll was auctioneer, but there was no bidding done. This same structure was up for sale last year.

The barque Clutha has been loaded with 6,700 packages fish by Bishop & Sons the past three days but has not yet gone to sea, nor is it known when she can go. This arises from the fact that competent sailors cannot be had in the city, though every inducement has been held out to them. The cause assigned for this state of affairs is that steamer going abroad are taking all the good seamen, and none are left in port to man sailing ships.

CABLE NEWS.

Special to Evening Telegram.
TORONTO, Ont., To-Day. After hearing the charges against Dr. Neill of signing false returns, he was committed for trial.

Special to Evening Telegram:
CHICAGO, To-Day. Last night the long expected crash in the Republican ranks came. The Roosevelt forces began to lay plans for independent action at the National Republican Convention. As a forerunner of a more drastic action expected at the Convention on Friday, the Roosevelt members of the Committee withdrew from that body last night.

Coastal Boats.

REID'S STEAMERS.
The Argyle left Balne Hr. at 7.55 p.m. yesterday.
The Bruce left Port aux Basques at 10.20 p.m. yesterday.
The Clyde arrived at Lewisport at 9 p.m. yesterday.
The Dundee arrived at Port Blandford at 4.10 p.m. yesterday.
The Ethie arrived at Clarendville at 6.30 p.m. yesterday.
The Home left Flower's Cove at 4.06 p.m. yesterday, inward.
The Solway left Lewisport at 9.45 a.m. yesterday.

Good Fishing.

The schr. D. M. Hilton arrived here this morning, fish laden, from Nipsey's Harbor, and reports that traps there are doing fine. The two Nobles, cousins, have each 600 qts. ashore, and the general average is 200 qts. per trap under sail to date. The same applies to Round Harbor and Shoe Cove. At La Scie traps are also doing well, and on the 13th Joseph Morgan hauled 72 barrels. Nothing for hook and line. The captain of the Hilton was speaking to Capt. E. Norris of the schr. Packet at Twillingate, Tuesday. He reported plenty of cod on the French Shore and he came to Twillingate for a new supply of sail for the people. There is also excellent trap fishing in White Bay. A gale damaged many traps on Friday and Saturday last at La Scie.

The Dredge.

People are beginning to wonder when the dredge is going to be cleared for Newfoundland. The captain and officers were sent from this port early in May to bring her out. It will be remembered that Minister Piccott insisted on taking a trip to the other side to get her, and that he purchased a dredge instead of having a new one built. She should have left for this port about three weeks ago. Why has she not sailed yet? How is this? When does the Fishery Department expect to hear that she has been cleared by the British Board of Trade for her trip across the Atlantic? What has caused the delay?

Ayre's Troutng Competition.

Prizes won at Ayre's Grand Trout Competition for holiday, June 19:

Prize 2—For heaviest half dozen, won by F. Lukins, weight 5 lbs., 1 oz.
Prize 3—For heaviest 1/2 dozen local mud, won by A. Brewer, weight, 2 lbs., 1/2 oz.
PREPARING ADDRESS.—His Grace Archbishop Howley will proceed to Bell Island the latter part of the month to bless the bells and altar presented by the church by the Syrian people of the place. A beautifully worded address will be presented His Grace by these people.
The R. M. S. Carthaginian is due here to-morrow from Philadelphia.

**Abandoned in
Mid-Ocean.**

Our local marine fleet of sailing vessels are continually dwindling away, and to-day we heard of another merchantman—the "George Parker"—gone to "Dave Jones locker," while on her way from Grand Bank to Oporto. In relation to this the Board of Trade had a message stating that the George Parker, bound from Grand Bank to Oporto with 3,496 quintals of fish had been abandoned in mid-ocean; crew landed at Avenmouth, England.
It is pleasing to note, however, that the crew are safe. The cargo of fish was shipped by Mr. Samuel Harris, of Grand Bank.

Here and There.

TROUT CATCHES.—Fine collections of trout were on exhibition to-day in the windows of Ayre & Sons and Martin Hardware Co.
GOOD BANKING VOYAGE.—Mr. E. Lake's schooner, a new vessel purchased last spring, arrived at Port on Monday with 700 qts. for her spring trip.
DIED YESTERDAY.—We learn by the express to-day that Mr. Huxess, the keeper of the Bungalow at Grand Lake, died yesterday. He had been operated on for appendicitis, when pneumonia set in and proved fatal.

KILLED WILD GESE.

Two boys named Hackett were outting at Placentia Junction yesterday. They came across six young wild geese while trouting at Tickle Harbor Barrens and found them old in care. The boys swam out in the pond, drove the little ones ashore, killed them all as well as the mother and brought them to town.

FISHERY RECOVERING.

At Carbonear to-day there a good sign of fish and traps averaged 5 qts. At Port George after a blank week some of the traps 10 qts. On the South Shore on herring bait boats did very well to-day. At Melrose, T. B. Hsok and line men did well on Tuesday. Capt. have struck in at Bonaventure Head.

OBITUARY.

We regret to note the demise of Mr. Andrew Walsh, which occurred yesterday after a brief illness. Deceased was an employee of Bowring Bros., and was well known in the city. He was a son of the late Thomas Walsh. He leaves to mourn him an aged mother and two brothers. Thomas, master cooper at Bowring's north side premises, and Michael, painter, to whom together with other relatives and friends sincere sympathy is expressed.

Train Notes.

The west bound express arrived at Port aux Basques on time yesterday. The incoming express and local combined arrived at noon to-day with over 100 passengers, including many troutmen. Hon. Sir Robert Bond, R. Watson and Secretary Fitzherbert.

A BROKEN-DOWN SYSTEM.

This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—a break-down, and it is the vital force that sustains the system. No matter what may be its cause (for they are almost numberless), its symptoms are much the same: the more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is **VITAL STRENGTH & ENERGY** to throw off these morbid feelings, and experience proves that this can be accomplished by the use of the celebrated life-reviving tonic.
