**The Success of the War**

The Russian War Office has established a reputation for the accuracy of the official news it has given out during the past seven months. Much news of a sensational character, exaggerated and unreliable, has come from Petrograd, but these reports are to be distinguished from official news. They are stories gathered on the streets and in the clubs and cafes of Petrograd by newspaper correspondents. For once in a way even the latter, instead of sending an exaggerated report of the number of men who capitulated at Przemyśl, sent a number which was not half that which is now officially reported by the War Office at Petrograd. This circumstance is probably unique in the history of the war correspondence of the past six months. It serves however to bring out in clearer relief the importance of the Russian achievement. Reckoning officers and men, nearly 120,000 men surrendered, including 9 generals. To isolate a fortress and garrison of such magnitude as is indicated by these figures, which are given out as emanating from a source which has so far proved reliable, and to hold it by siege for six months, must require the presence of even a greater army, for the besieging army had not only to hold in the garrison, and that was no easy task, as is realized by the desperate sorties of last week, but to drive off all attempts from the outside to relieve the besieged garrison. It is surely, therefore, very conservative to estimate the Russian army engaged in these tasks at from 150,000 to 200,000 men, and it is this great army which has now been set free to engage in other tasks on the eastern front. Such a force of tried soldiers, buoyed up by the greatest victory of the war, will have to be seriously reckoned with by our enemies.

**To-Day's Big Nickel.**

A splendid programme has been arranged for the Nickel Theatre to-day. There are two two-reel films each of which is worth the admission fee. "A Diamond in the Rough" is a delightful film which will afford the greatest pleasure to all. The other two-reel film is "Romantic Jostle" a very clever story. There will be a Mutual Weekly and a Keystone comedy. Attend to-day and help on the good cause.

POSTPONED.—Owing to the unexpected illness of Mr. Gordon Christian, L.R.A.M., the Sacred Concert which was to be held to-night at the College Hall, under his direction, has been postponed. Persons holding tickets are respectfully asked to retain them. Particulars as to date of Concert will be announced later. J. S. TAYLOR, Secretary.—mar24,11

**Man Missing.**

The whereabouts of a man named Joseph Johnston are now being sought by the police and others. He left his home on Monday last and has not since been heard of. The missing man is married, middle-aged and living in a central section of the city. About two months ago he was released from the Lunatic Asylum but was not noticed to be acting strangely up to the time he disappeared, though the belief is that his mind is unsound.

**Reids Boats.**

The Bruce, Glencoe and Home are still at Trepasser.  
The Ethel left Marytown at 7.30 p.m. yesterday, going west.  
The Kyle arrived at Loughsbur at 9.30 p.m. yesterday and sails from there again to-day.  
The Megie arrived at Pushthrough at 7.15 p.m. yesterday, going west.  
The Sagona left Loughsbur at daylight this morning and is due at Port aux Basques this evening.

**The Food of Fighting Men.**

A lecture on "The Food Factor in War" was delivered at the Institute of Hygiene in London, by Dr. Gastneau Earle, recently.

Dr. Gastneau Earle said that the soldier's diet must contain the requisite amount of energy-producing and body-building material, and must be varied, fresh, based on national habit, and easy of transport. The basis of the British ration was fresh meat, 1 1/4 lb. and bread, 1 1/4 lb. To these were added:—Sugar, 2 1/2 oz.; oatmeal, 2 oz.; jam, 4 oz.; bacon, 2 oz.; cheese, 2 oz.; vegetables, 2 oz.; tea and salt. This ration, compared with that of other armies, contained more of practically everything but bread, and it was especially rich in fat and sugar. Each man carried a reserve ration sufficient for three days, made up of concentrated foods, biscuits, 8 oz.; sugar, 3 oz.; bacon, 4 oz.; chocolate, 3 oz.; cheese, 4 oz.; and tea. This ration was used when the men were cut off from usual supplies. An emergency ration was also carried, consisting of Plasmon and chocolate.

**Many Diseases Cured by Use of Radium.**

Splendid Results are Obtained at The London Institute.

London, March 17.—Out of 749 cases treated at the radium institute during the past year 19 are described as cured, 50 are apparently cured and 328 improved. As to the rest, the results were not apparent at the time the report was prepared. The diseases treated ranged from cancer, in which the results were varying, to spruing catarrh, of which even the severest cases were cured. Superficial growths such as birthmarks of the "port wine stain" type were rendered unnoticeable. One of those to get rid of facial birthmarks was a hotel porter who had been kept out of work because of his disfigurement. Warts that defied acids quickly melted away under the influence of radium. The radium institute is maintained by public subscriptions and its work is carefully watched by scientists.

**General Leman.**

Defender of Liege, Refuses Parole.—If Released He Would Offer Services to Belgium and King.

Paris, March 17.—General Leman, Belgian defender of Liege, now a prisoner in Germany, has refused to accept his liberty under a parole which the Germans have offered him, according to a letter received by one of his friends, a major in a Belgian engineer corps.

General Leman replied to the offer of a parole, he writes his friend, that his first act on obtaining freedom would be to offer his services to Belgium and his king. He added that the wound in his foot, which had troubled him so long, had at last healed.

**Cape Report**

The schooner reported yesterday was sighted this morning about 15 miles E.S.E. still in ice; a barquentine reported to be the Dunne is about 5 miles south in clear water outside of ice; she will probably get clear to-night under present conditions. Bar. 28.42; ther. 28.

**5,000 AUTO TRUCKS ARE CAPTURED BY THE ALLIES AT SEA.**

Paris, March 18.—An important capture of American goods, consigned to Germany, is reported by Le Matin. Before the outbreak of war Germany ordered 8,000 automobile wagons, fitted up for the carrying of twenty soldiers each, from American manufacturers, paying a large sum as an initial instalment. The consignment, however, was recently captured by the Allies at sea, and the autos could be used to rush 160,000 troops at a critical moment at the greatest speed to any desired point.

THE SAR LECTURE.—A very pleasing feature in connection with the lecture to be given by Fr. Cox in the Star Hall, is the free gift of the Theatre by the genial proprietor Jack Rossley; the free gift of the full brass band of the T. A. Society; the voluntary services of the entire Rossley troupe, and the ushers, while the popularity of the lecturer is shown by the fact that the plan which was opened at 8.30 this morning was almost sold out as we go to press.

**The Royal Stores, Ltd.****Big Opening Day at Rossley's.**

Mr. Jack Rossley is to be complimented on the wonderful transformation he has made at his East End Theatre. Every part of the interior has been gone over. The alteration to the front of the stage has been most remarkable. The rich drop curtain is greatly admired. But what is lighted all on St. Patrick's Day was the new and latest thing in opera chairs, perfectly smooth, no upholstery or covering that can hold germs or dirt; upholstered seating in the land of films. The new opera chair is of smooth rosewood finish that can be dusted freely every day, made so a person is in perfect comfort while seated. The new performers left Liverpool on March 19th by the s.s. Scandinavian direct from Liverpool to Halifax, and should arrive here during Holy Week. Mr. Rossley has also got some of the finest pictures ever seen here; masterpieces of the land of films. The beautiful orchestra selections by Mr. A. Crocker, are simply delightful.

Emerson in Winter Avenue and each of which is worth the admission fee. "A Diamond in the Rough" is a delightful film which will afford the greatest pleasure to all. The other two-reel film is "Romantic Jostle" a very clever story. There will be a Mutual Weekly and a Keystone comedy. Attend to-day and help on the good cause.

STAR LECTURE.—"Sketches of Early Fishing Days" will be the subject of a lecture to be given by Mr. H. F. Shortis at the Star of the Sea Club Rooms to-morrow night. The topic is an interesting one, and in the hands of Mr. Shortis, who has always been a close student of the development of our industries, will no doubt prove interesting.

VOCAL RECITAL.—Many of our music-loving citizens who were favourably impressed with Mr. Astle's singing, when he appeared here with the Royal Welsh Singers are urging him to give a Recital. We understand that he has decided to give a Recital of popular songs at the Methodist College Hall on Easter Monday night.

**Stan. Lumsden Reported Wounded.**

Word has been received in the city that Lance-Corporal Stan Lumsden of the Princess Pats, was wounded at the night attack on Neuve Chapelle, March 11th, and has been taken to the hospital base for treatment. Mr. A. K. Lumsden, father of the wounded soldier, is now in London, and was informed of his son's injury by telegraph from Rouen, France. Upon receiving the message, which was confirmed by the London War Office, Mr. Lumsden cabled his son Frank, who works at Bishop & Sons office, this city. As far as is known the injuries are not of a serious nature.

**Curliana.**

On Friday evening next the Curliana Association will hold a card tournament in their rooms. Special prizes have been provided and the games will start at 8 p.m. sharp. We understand that the Curliana Smoker will take place on Wednesday next, and that Mr. F. Chessman has a splendid programme arranged for the occasion.

NEXT FOREIGN MAIL.—The next foreign mail by express, is not due in the city until Thursday morning.

ROMANIANS SEIZE SHELLS.—Paris, March 18.—A message to the Balkan Agency from Bucharest says that the Roumanian Government has seized a large quantity of shells in transit from Germany for Turkey. The contents of the cases containing those shells are said to have been disguised by false marks.

At the rooms of the Church of England Institute last evening the first St. John's Troop of Boy Scouts held a meeting, which proved interesting and profitable as a result of the different matters discussed. The Boy Scouts abroad are well represented in great war and Newfoundland should not be backward in fostering the movement.
