### Is a Crisis Imminent?

The House of Assembly adjourned yesterday afternoon, on motion of the Premier, until Wednesday next. What is the reason for this lengthy interval between sessions? Apart from the business done on Monday, the subsequent sessions of the Assembly have not lasted for more than seventy minutes—Tuesday and yesterday—for there was no session on Wednesday. No legislation of any value has been passed; nothing has been accomplished in expediting the business of the country; questions of importance remain unanswered, and yet at the very time when the whole efforts of members should be devoted to a sincere endeavour to adjust all outstanding difficulties in the way, the Premier himself moves that the House stand adjourned for one week. No longer can Government papers accuse the Opposition for holding up the business of the House. That charge, ever barren, cannot again be used as an apology for the negligence of the Government in not having their programme prepared.

Was yesterday's adjournment prompted by the vivid display which adorned last evening's issue of the Daily Star? And does the Prime Minister wish for time to prepare an explanation? Everybody has doubtless read the "blue ruin" message featured by the Star, a message on the same basis, so far as "blue ruin" is concerned, as that other one of last winter, which caused our Trade Representative in New York to overflow in a similar manner. There are times when the truth is unpalatable, and there are times when it had better be concealed. Whether the present is a good time for hiding the condition of Newfoundland is debatable. If judged from a loan-raising standard then perhaps concealment is the better part, but—is it quite honorable? Money obtained under false pretences is a punishable act, and it is as criminal for a Government to present an inaccurate statement when seeking a loan, as it is for an accountant to "cook" his ledgers in order to cover up defalcations. There is no difference between the two.

What portion of the cabled article to the New York Tribune, caused such a flutter in the financial dovecotes of the cities of New York and Toronto? And also what portion of it was responsible for Mr. J. M. Devine's sloppy message? Is not the actual condition of affairs in Newfoundland as well known outside the country as they are in it? Is not everybody acquainted with the suicidal policy pursued by the Government of Premier Squires at the behest of Dictator Coaker, particularly in the imposition and operation of the infamous Fish Regulations? If the condition of this Colony to-day is as bad as it has been represented, who is primarily to blame? Is it not the Government? It can almost be imagined that Premier

Squires when in New York, painted a rosy picture of this Colony, for the purpose of being successful in negotiating the much-talked-of loan, which at first was to have been four million five hundred thousand dollars, and then for some inexplicable reason was afterwards increased to six million dollars. The mad frenzy into which the Government press has thrown itself, frothing at the mouth, and showing all the symptoms of political hydrophobia is merely playing to the gallery. Why not have told the truth, the whole truth and nothing but the truth? The country has not been handled half so badly by either the Opposition members or press as it has been injured by a venal Government, assisted by an equally venal Government press. Theirs is the fault, theirs the crime and they are on trial for their actions before the bar of public opinion. No real Newfoundland-lander will deliberately belittle his country, neither will he bear false testimony against it. The imputation that the Opposition is working overtime to kill the loan is as false as many other statements made from time to time by Government Ministers and Press to cover up political wrongdoing. If Newfoundland has been misrepresented to the financiers of New York and Toronto who are underwriting the loan, so much the worse for the men who did it, for "truth is mighty and will prevail."

### Government Meeting.

There was a full meeting of the Government held in the Prime Minister's office this morning. Though nothing of what transpired was made known, it is rumored that the meeting was for the purpose of settling some dissatisfaction over the matter of supplies, some of the members thinking that Placentia and St. Mary's districts had received too much consideration.

### Out for Exercise.

A deal of interest was manifested this morning when a detachment from H. M. S. Briton, headed by a drum and bugle band from the C. L. B. Cadets, marched down Water Street. Rumor had it that orders for the arrest of a prominent public man had been issued. The detachment went up Cochrane Street and along Military Road. It was learned that the men were only out for exercise and no prisoners were taken.

### Deserted His Wife.

A man was charged at the Police Court this morning with deserting his wife and leaving her destitute. He pleaded that he was out of work and consequently could not support her. The accused, who was 67 years of age, had been married when he was 35 years old. His Honor postponed the case for a week. Mr. R. H. Tait appeared for the wife and Mr. C. E. Hunt for the accused.

### Prospero Meets Ice.

The Minister of Shipping received a message this morning from the Fogo Station saying that last evening the s.s. Prospero had put back to West-leville, as ice was cutting Cape Freule. A later message intimated that the steamer had left West-leville early this morning proceeding North.

### Baseball League Holds Annual Meeting.

The annual meeting of the Newfoundland Baseball League was held last night at the Board of Trade Rooms and was attended by an enthusiastic if small number of those interested in the game. Mr. Fred V. Cheesman presided over the meeting. After the minutes of the last meeting had been read by the Secretary, Mr. Reg. Dowden, Mr. H. Power, the Treasurer, read his report. A short discussion followed the reading of the financial statement. Owing to the many philanthropic purposes to which the League had devoted a great deal of its income last year, it was found that the balance on hand was not as much as could be desired. The election of officers for the ensuing year was next held and resulted as follows:

President—R. G. Reid, re-elected.  
1st Vice-President—J. B. Orr, re-elected.  
2nd Vice-President—J. H. Higgins, re-elected.  
Secretary—H. Thomas, re-elected.  
Treasurer—H. Power, re-elected.  
Asst. Secy.—W. Cahill, elected.  
Umpire-in-Chief—F. V. Cheesman, re-elected.  
Asst. Umpires—Messrs T. V. Hartnett, P. J. Grace, J. H. Fulmore, H. Power, elected.

Scorers—Messrs Skinner and Merger, re-elected.  
Auditor (a new office) J. De Mers. Mr. J. O. Hawvermale, who may with reason be called the father of Newfoundland baseball, and through whose efforts the game has gained such a firm footing in the Colony, was unanimously elected as Honorary Vice-President, whilst the retiring Secretary, Mr. Reg. Dowden, was also made an Honorary Vice-President. Cup won by the Red Lions in 1920, was presented by Mr. J. B. Orr who in a brief speech congratulated the winners. Mr. C. Callaghan, who received the cup for the Lions, replied, thanking Mr. Orr on behalf of his team for his kind remarks. The Field caused a considerable amount of discussion and a committee was appointed to interview representatives from the football league on this matter. The committee is as follows: Messrs J. B. Orr, H. Power, H. Thomas and F. V. Cheesman. After votes of thanks had been passed to the retiring officers the meeting adjourned. At a further meeting to be held on June 2nd, the fixtures for the coming season will be drawn up.

### Grand Falls Strike.

The following messages have been received by the Prime Minister in reference to the strike at Grand Falls. From the High Commissioner:—

LONDON, May 18th, 1921.  
Prime Minister.  
St. John's, Newfoundland.  
London directors Anglo Company have communicated your message to Lord Rothermere who will telegraph his views on situation Grand Falls. Meantime they state employees Grand Falls went on strike 9th May following on refusal their Unions to accept new scale wages instituted by management. They claim that fall in cost of living and necessity for Grand Falls to compete with other countries in manufacture of paper rendered reduction wages imperative. Even at reduced wages cost of paper at Grand Falls will be greater than price at which it is selling delivered in London. Directors regret difficulties that have arisen but fear Grand Falls operatives must accept reduction wages which is less than proposed reduction in Canadian and United States Mills. Directors further state that A. E. Harris, acting General Manager at Grand Falls has complete confidence of Board of directors, and will be pleased to give you any further information desired.

### Dedicated

TO THE MEMORY OF FREDERICK CHISLETT,  
Who Died May 20th, 1920.  
(By B. M. Taylor.)

A year, one long relentless year,  
Without its soothing touch of time  
To ease our painful parting fears  
With Heaven yours, and sorrow mine.

How sweet, when mists of morn arise  
Heraldic of a Perfect Day,  
How strange, when tears bedim the eyes  
An angel face smiles down our way.

"The rainy day," whose drops must fall  
And to our lives some gloom impart  
But still behind the lowering cloud  
One hears the beating of God's heart.

Dear child, the bird is on the wing  
The flowers, books, all speak of thee,  
In plaintive silence thou art bringing  
Some sad sweet message back to me.

Often you linger by my side  
When all the world turns dark to me  
Again the little boy that died  
But robed in Immortality.

Fain would I touch thy spotless soul,  
Partaking of the Peace that's thine  
And leave this fretful life, to walk  
Forever with thy hand in mine.
