cepted in surgery and physiology. In the past the operation for ulcers arising from nervous indigestion was to by Dr. Royle and Dr. Hunter, both of one of the party. Australia, Dr. Devine found that the the stomach. The speed and nerve- cost of his weight. wracking tension of modern living, through these nerves, causes the stomach to become cramped and in this unnatural position, it ceases to function properly.

Chief Feature.

The simple discovery of Dr. Devin is that this trouble can be entirely the sympathetic nerves controlling area. When this has been acco ed, the stomach again is able t tion normally and the ulcers and

astric trouble will disappear.

It was pointed out that perhaps the reatest benefit of the discovery that was accepted by the surgeons as great improvement on existing methods, is that the operation, being simple and comparatively safe, is within the reach of rich and poor like and that the thousands who now suffer, will be able to find relief with out consulting experts and specialists

most destructive hitter the fighting ring possesses to-day or ever did pos sess. He does deadly work with hooks by both hands at close quarly beat the man with the punch who hits straight, and he seems to be able

to hit from any angle. His favourite opening is to get the ight home on the ribs just over the eart. It was this blow which first endered Jess Willard unsteady when lack won the championship from him at Toledo. Dempsey never bothers about the extreme height of his rivals. "Tall men come down to my height he said, "when I hit 'em on the body."

Bottle Sets Speed Record

The speed record for floating bot tles is said to have been broken by one that was thrown overboard from a U.S. Hydrographic Survey vessel and was picked up recently by a rench merchant. It had travele roximately 1500 miles in 328 days The bottle, sealed and stamped by the U.S. Navy, contained a parchmen giving the name of the vessel frewhich it was dispatched, the latitus and longitude, and a request to turn the message.
