[Reported by Drummond & Goldingham.]

KEW YORK, Nov. 15.—It is plain enough to be seen that the New Jorsey Legislature will make the coal combination a heap of trouble this winter, and adverse legislation is positive. The Liverpool cotton masters are more combined. It is not expected the strike will continue long, and the operatives will probably surrender. Liverpool is up 4 to 45-54, and very strong. It looks like a bull market in rotton. It is rumored here that the Liverpool advance in cotton is caused by Neill's estimate, being 6,750,000 bales.

THE PEOPLE'S FORUM.

The Electric Railway Negotiations. To the Editor of the Adventisers:

It is a healthy sign to observe the public interest manifested by correspondence in the city press re electric street car service, as it brings points to the notice of citizens not obtainable from committee and council reports.

The peculiar course of this question since its inception has left many citizens in doubt as to its present position. Apparently the question now stands as if no previous action had been taken.

The existing street railway company made a proposition to the council last evening to extend their service within a year to the city limits, north, east and southwest, and to work the same by electric power, without promising any service to the residents of the southwestern portion of the city, embracing Wellington street and the Clark's bridge district.

Nothing impure or injurious contaminates the popular antidote to pain, throat and lung remedy and general corrective, Dr. Thomas Eclectric Oil. It may be used without the slightest apprehension of any other than salutary consequences. Coughs, rheumatism, earache, braises, cuts and sores succumb to its action.
