TORONTO JUNCTION. Toronto Junction, March 13.—The market today was somewhat steadier and trisker, although the cattle could not be called the best. The feeders in the country complain that prices are not high enough, and they cannot feed the cattle with enough wheat, owing to it being so dear, to bring the price of cattle up, and consequently some inferior cattle are comping in.

They must either surrender or starve to death, the country being denuded of provisions. The Japanese report that the stores of charcoal captured by them exceed the quantities in their possession before the battle of Mukden.

When the party got to the restaurant, they found it closed, and Miss Follette expressed keen disappointment. "Spike" said: "Well, we'll go to Rector's, anyway. There is another place in New York. We'll go there." The two men and the girl then hurried to the railroad station and just managed to catch the midnight train for New York. The father of young Brown heard of the episode and hur-

When the actress and her friends arrived in this city they lost no time in going to the Longacre Square lobster palaces, and engaged a table for the evening. One of the party stood guard over the table until time for the supper, so afraid were they that it might be taken. The supper was served at 10 clock. Miss Follette, who has been absent for several months, was greeted by all her friends, who were greatly

surprised to see her. About 11:30 the actress glanced toward the front door of the restaurant and shrieked. The cause of the young man's excitement was the arrival at the restaurant of Edna McClure, of the Colonial Music Hall, on the arm of L C.
