

## LOOK TO OTTAWA TO ASSIST RADIALS

Hydro-Electric Railway Association Is Organizing at Toronto.

C. M. R. GRAHAM, OFFICER

Province To Be Organized in District—Sir Adam Urges Fight for Subsidy.

(Special to the Advertiser.)  
TORONTO, Feb. 24.—As a result of the convention of representatives of the hydro-radial association, held in the city hall today, the Hydro-Electric Railway Association was organized. The officers are: Hon. president, Sir Adam Beck; vice-presidents, Hon. C. B. Lucas and W. K. McNaught, C.M.S.; president, J. W. Lyon, Guelph; first vice-president, Mayor Church, Toronto; second vice-president, C. M. R. Graham, London; third vice-president, A. F. Wilson, Markham; fourth vice-president, J. Buller, Peterboro.

**The Radial Platform.**  
The objects of the association are set out in the constitution to be developed and plan a system of railways in the province, owned by the municipalities, constructed and operated for them by the hydro-electric power commission, to secure such legislation, Government aid and assistance as may be found desirable to assist municipalities in carrying the necessary by-laws; to encourage support for these railways from the public; to initiate railway lines; to prevent by "all lawful and expedient methods" the removal of charters for electric railways from the public; or the granting of new charters.

**Divided Into Zones.**  
An important feature of the organization is the dividing of the province into electric railway zones with a vice-president in charge of each. There are eleven of these as follows: St. Lawrence district, Kingston and Ontario district, Ontario district, Toronto East district, Toronto City district, Niagara West district, Hamilton district, Niagara district, Guelph district, Erie East district, comprising Norfolk, Elgin, Brant and Oxford; Erie West district, comprising Kent and Essex; London and Huron district, comprising Middlesex and Lambton; Stratford and Huron district, comprising Perth, Huron and Bruce.

**Circularize Members.**  
A resolution passed calling for an immediate answer from the Dominion Government to the request for a federal subsidy and it was ordered that all members of Parliament be circularized in the interests of the scheme.  
Sir Adam Beck was loudly cheered, when he arose to speak.  
"I have simply been a servant of the people," he said, in reply to the praise that had been bestowed on him by previous speakers. The hydro-electric scheme was now divided into two branches—power and radial. In regard to power all opponents had been defeated.

**Not a Debt.**  
Instead of the \$12,000,000 critics said it would cost, the municipalities were now involved in five different systems—at a cost of \$2,500,000. He repudiated the statement that the \$1,000,000 advanced by the province last year was a debt. It was safe as it was in the Bank of England. The money was on hand now to meet all the sinking funds.

Dealing with the railway situation he said:  
"There are railways, which have received subsidies amounting to the exact cost of their construction, and the promoters issued stock and pocketed the profits."

**Guarantee Own Bonds.**  
"Assert yourselves, and declare that subsidies to private individuals must cease. We have sufficient transcontinental railways. Let us be earnest. Tell those men you have sent to Ottawa and Toronto that they have been elected to serve you and not private interests. Call a halt to subsidies. Call a halt to land grants. Call a halt to all bonuses. If we must guarantee bonds, let us guarantee our own. As soon as the frost is out of the ground we will proceed with the construction of 25 miles of radial lines to the north-east of Toronto. The whole of Canada is interested in this scheme, because it means so much, then let us get some assistance from Canada."

**The Vice-Presidents.**  
The district vice-presidents for Western Ontario are: Guelph, T. R. Ryan; Erie East, W. B. Johnston, St. Thomas; Erie West, Mayor Clay Windsor, London and Huron, Peter Rae, East Flamborough; Stratford and Huron, D. A. McLaughlin.

## GENERAL HUGHES HAS WHIP HAND

Minister Will Go to France and Take Portfolio With Him.

OBJECTS TO ELECTION

Once Removed, Hon. Robert Rogers Will Start to Wave Flag.

(By ARTHUR HANNAY.)  
OTTAWA, Feb. 24.—That Major General Hughes in crossing the Atlantic to join the Canadians on active service will go not only as a member of the Canadian Parliament but as minister of militia is the most recent report in the lobby of the House.  
It is understood that General Hughes has shown no inclination to yield to the pressure which has been applied by friendly ministers and members to get him out of the Government.  
He showed his teeth at the recent Conservative caucus where he was not only attacked by Mr. E. Bennett, M.P., Mr. W. F. Nickel, M. P., Mr. Claude MacDonnell, M.P., and others, and has ever since maintained an attitude of hostile defiance.

**Takes It With Him.**  
He has shown no disposition to part with his portfolio under pressure. The proposal that he take it with him across the Atlantic to active service, while not altogether pleasing to Hon. Robert Rogers and others who have been hung General Hughes for some months, is said to be entirely satisfactory to the minister of militia. Apparently it only remains to adjust the matter of command with the war office authorities. Though influences against General Hughes have been applied in that quarter it is believed that the matter of command can be satisfactorily arranged and that he will be authorized to take a Canadian division to the front.

**Premier to Take Post.**  
In his absence in Europe the affairs of the militia department will be looked after by the premier, Sir Robert Borden.  
The attitude of General Hughes toward matters of military patronage and appointment are said to have developed the ill feeling which undoubtedly exists at present in many quarters. Ministers and members who have not had their way in handling appointments and the naming of officers have carried their grievances to the prime minister. There has been a good deal of frank talk by General Hughes on the one hand and by ministers and members on the other.

**Opposes Election.**  
General Hughes is opposed to any election being held until after the war ends on the ground that it would interfere with recruiting and with the training of forces now gathered in Canada and under training for service at the front.  
On the other hand the Hon. Robert Rogers is determined to hold an election as soon as possible and appeal to the people in a flag campaign hoping that in spite of the shortcomings of the Government the people will, by their votes, decide that it will not be well to change horses in mid-stream. With General Hughes at the front a swing election in Canada would be a certainty.

**HOLLAND WANTS MORE SOLDIERS**

Still Waiting Germany's Reply, Her Preparedness Is Extended.

(Canadian Press.)  
THE HAGUE, Feb. 24.—(Via London, Feb. 25.)—2:30 a.m.—The Netherlands Government is watching closely the outcome of the exchange of notes between Germany and the United States regarding Germany's proclamation of a sea war zone. The Government is still awaiting an answer to its own protest to Germany.

**Call More Recruits.**  
Despite the movement in certain quarters in Holland in favor of demobilization, because of the fact that industries are being dislocated by the absence of the men with the colors, and the added fact that the keeping of them and the wearing of hats and handkerchiefs, the Government is considering calling to the colors the recruits who are due in 1915, as well as further classes of the landsturm. At the same time the number of volunteers is increasing steadily.

**Soldiers Lined.**  
Extreme activity is being displayed by the military on all sides, especially along the west and eastern borders of the kingdom. The popularity of the army is extraordinary. As the rail stations march through the streets on their way to the training fields the populace greets them with cheering and the waving of hats and handkerchiefs. Food prices are rising steadily, and the number of unemployed is growing rapidly. The building trades are all at a standstill, which makes it difficult for the municipalities to provide relief.

**BRUSSELS MILLINERS ARE LATEST VICTIMS OF GERMAN'S WRATH**

Craze For Belgian Soldiers' Caps By Ladies Put Down.

(Canadian Press.)

BERLIN, Feb. 24 (via London, 11:45 p.m.).—A special dispatch received by the Times from Brussels says:  
"The latest craze in millinery—Belgian soldiers' caps—attained such great popularity that the German authorities have had to issue the new style of headgear from hundreds of women and to forbid their further use for the time being. The soldiers' wives and sweethearts had discarded the flags and other national color adornments they formerly wore and adopted the hats of cavaliers and carabineers, which they tilted at a rakish angle. The fad threatened to create a public nuisance, as the wearing of the hats by the women caused outbreaks of patriotic enthusiasm at every turn. The women took the confiscation good-naturedly, the milliners being the only ones to grive."

Take No Captives Said Order Found on German Leader

Possible of Two Constructions, Hatred Suggesting Natural One.

(Canadian Press.)

LONDON, Feb. 24.—7:05 p.m.—The military observers attached to the British headquarters in the field states in a report given out by the official information bureau here, that a diary found on a German officer captured at Caluchy, France, contained an order stating that no prisoners were to be taken by the front line when making an attack.

"The phrase was ambiguous and did not necessarily mean anything more than that the attacking line was not to stop to make prisoners," the report continues. "But it allows another interpretation which, in view of efforts made to inflame soldiers against the English, might easily have been adopted by the men of the particular regiment mentioned. Suspicion is aroused by the fact that some time ago the colonel gave orders that no English prisoners were wanted."

**TORPEDO KILLED THREE CHINAMEN ON SHIP**

**A SURE WAY TO END DANDRUFF**

Stop Falling Hair and Itching Scalp—At Once.

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it. To do this, get about four ounces of plain, common household arvon from any drug store (this is all you need), and it will get rid of your dandruff, get enough to moisten the scalp and rub it in gently with the fingers.

By morning wash, if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and itching of the scalp will stop instantly and your hair will be shiny, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you value your hair, you should get rid of dandruff at once, for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, brittle and lifeless, and everybody notices it.
