CAPTURE CHILDREN FOR CHRIST IS PLEA

Rev. W. C. Poole Says That Solution of Present Day Problems.

The capture of childhood for Christ, constitutes, in the opinion of Rev. W. C. Poole, Ph.D., London, England, who spoke in St. Andrew's hall last night, the solution of all the problems that are engrossing the nations

"The heart of a little child is the highway to international understanding," declared Dr. Poole, who is president of the World's Sunday School association, "and the church has no greater task than to claim life at its beginning, instead of trying to reclaim it at the end. The strategy of the hour is the capture of childhood for the kingdom of God.

to despair," said Dr. Poole, in beginning his address, entitled, "Learn or about which you were strangely Perish." and that ordered government is idealism wedded to faith. The logic of events has given Christion education a new strategic importance. The alternatives that confront us are anarchy, or a world mind motivated by Christian ideals.

"Bolshevism is nothing more or less than the relentless shadow of reckless materialism." affirmed the speaker emphatically, "and the collapse of civilization can be specifically charged to the evasion of the spiritual as the controlling factor of life. The fundamental apostasy of our day is not honest reservation regarding some religious creedal statements, but rather the mode of life that human nature is human nature and cannot be changed.

Education Stressed. "Education is coming to mean the introduction of control into conduct. ontinued Dr. Poole, "and Christian education the introduction of control that would make a world mind pos-

HEATER BURNING

Toronto, April 10. - The chance visit of a friend to his home this morning saved the lives of seven persons who were overcome by illuminating gas fumes in a house on Hamilton street, in the east end of the city.

Yesterday James Graham, aged 38, his wife and eleven-months-old baby girl, Mrs. Mary Sandford and her two daughters, Helen Sandford and Jetta Sandford, age 18 years and 17 years respectively, and Kathleen Mc-Dougall, aged 21 years, moved into the house and this morning a friend, Mrs. J. Wilson, visited them, but was unable to gain admission to the house. She summoned the police, who forced the door and found the seven persons in an unconscious condition Williams Declares from the effects of gas fumes, which were escaping from a water heater in the kitchen

The heater had been left burning when the occupants of the house retired and as it was not equipped with the usual connections to the chimney the fumes spread over the house while they slept. They were given first aid treatment and rushed to the General hospital, where five of them are still confined, Mr. Graham and Miss Mc-Dougall being able to go home after
