Grain Markets WINNIPEG Winnipeg, Dec. 23.-A 28,000,000-

bushel reduction in the United States crop, as estimated by the government, making the total wheat yield of that country 669,000,000 bushels, was the main bullish factor in the markets here today, and both wheat and coarse grains scored sharp advances. With a wave of excellent buying by exporters and "shorts," wheat touched a high mark of about 6c above the previous close, while flax and rye were from 3c to 6c up and oats and barley from 1c to 2c higher. At the close wheat was 4%c to 5%c higher.

to the market was very strong, and with the United States government re-port putting that country on a domestic basis, exporters freely predicted heavy sales from now on, and no difficulty is foreseen in disposing of Canada's 200,-000,000-bushel surplus. 000,000-bushel surplus.

Though the coarse grain markets and cash commodities displayed a firmer tone, only an ordinary demand existed, and trade volume was light. The gains
