AN APPALLING DISASTER AT BIG QUEBEC

South Half of Structure Collapses and Falls Into the River

but the distance was too great for them to escape. The fallen section of the to escape. The fallen section of the bridge dragged others after it, the

killed were mostly Americans in the

Pinned in Wreckage.

The horror of the situation was increased by the fact that there were a number of wounded men pinioned in the wreckage near the shore. Their groans and screeches can be plainly heard by the anxious people at the water's edge, but nothing so far can e to rescue them or relieve their There are no searchlights. and by the feeble lights of lanterns it impossible to locate them. They are ing left to their fate, because no one help them, though everybody is more than willing. There is scarcely a family in the villages of St. Remia family in the villages of St. Remisald and New Liverpool which has not been bereaved, while in some cases five and six men of a single family have been killed. On driving through the village from almost every house lamentations are heard.

er bridge in the world, the length of the span in the centre being 1,800 feet, or 200 feet longer than that of the Firth of Forth bridge, at present the killed and injured: world's largest single bridge span There is no bridge across the St. Law-rence below Montreal. At Quebec all traffic had to be ferried across the

wille Pa. Work was begun in 1900. The original estimate was in the neighborhood of \$3,500,000, but this was speedily found to be too small. The company found itself in financial difficulties, and the government requiring the bridge for the National Transcontinental failway, an agreement was arrived at by which the government agreed to guarantee the bonds of the company up to \$7,000,000. Under this agreement construction has been steadily proceeding. There were to be two approach spans to the bridge of 200 feet each, two anchor spans of 1800 feet each, iwo anchor spans of 1800 feet from centre to centre of the piers. The under side of the bridge is to be 150 feet above the water. When completed the bridge is to be 150 feet above the water. When completed the bridge is to have accommodation for a double track; and two roadways for foot and vehicle traffic. At the time of the engineer, left tonight for Quebec to

OVER EIGHTY MEN ARE KILLED

Name of the bridge is to have accommodation for a double track. When completed the bridge is to have accommodation for a double track and accommodation for a double track and the trans-continental commission; Mr. Butlet, deputy minister of railways, and two roadways for foot and ways and two roadways for foot and well-be traffic. At the time of the collapse the cantilever span on the Levis side of the river had been completed, as well as the approaches.

A Forewarning.

Ottawa, Aug. 29.—The superstructure of the southern portion of the Quebec, as well as the approaches.

A Forewarning.

Ottawa, Aug. 29.—The superstructure of the southern portion of the guebec company. Yesterday in the southern portion of the guebec for indeed that one of the southern portion of the southern portion of the southern portion of the guebec for indeed that one of the southern portion of the southern portion of the southern portion of the guebec for indeed that one of the southern portion of the guebec for indeed that one of the stringers was twisted. This was an unexpected deworkers and mechanics into the water. Ninety and portion of the bridge company. Yesterday Mr. Hoare to make the professor deliberation. The bridge was about a mile and a half in length, and half of it, from the south shore to midstream, crumpled up and dropped into the water. Ninety men were at work on this section of the sex of the southern portion of the guebec has a finding sound from the bridge at more and the work of the day, when there came a grinding sound from the bridge at an official inquiry into the cause of the southern possible to take any proculations. Nearly all the work for the day, when there came a grinding sound from the bridge at midstream. The men turned to see what had happened, and an instant later the cry went up: "The bridge is falling."

The men recent and a control of Pennsylvania. Search for the bod less has been promptly instituted, and are midstream. The men turned to see what had happened, and an instant later the cry went up: "The bridge is falling."

The men recent are a control of Pennsylvania. Search for the bod less has been promptly instituted, and are midstream. The men turned to see what had happened, and an instant later the cry went up: "The bridge is falling."

The men recent are a control of Pennsylvania. Search for the bod less has been promptly instituted, and are department has been a vised that there is no obstruction navigation.

Still a Mystery ways.

The min made a runh shorewards, we are so great to fire an active property of the government of the transport of the property of the property

Ninety-two men were working on the bridge when it collapsed, and of the first to start the idea of building the bridge, had driven out to these eight were recovered alive immediately after the disaster by boats.

Trom Montreal. Mr. Barth, who was water was high and the body was so planed in between the girders that the bridge, had driven out to show the works to a party of friends were recovered alive immediately after the disaster by boats. ly driven off the structure and reached to get it out.

day are heartrending and distressing to the last degree. The recovery of bodies from the tangled mass of the steel structure that collapsed continued today. Relatives and friends of the victims of this dreadful happening thronged about the place of the accident. cident and besieged every possible source of information with piteous inquiries of news of those who were so suddenly and horribly hurled to death The tangle of steel is absolutely inextricable, and nothing but the use of Old Country Journal Discusses heavy machinery, manned by skilled A Gigantic Work.

Montreal, Aug. 29.—The Quebec bridge was remarkable in that it was to be the longest single-span cantilevof to hasten the recovery.

Seventy-Five Dead.

employ of the Phoenix Bridge Co., of Phoenixville, Pa.

The surveyors are so completely numbed by the disaster that they are unable to tell exactly how it happened. Those on shore say that the north end of the arch bent down a little and a moment later the whole enormous fabric began to settle down, slowly at first and then fell with a great plunge, which churned up the river and left only a blank where a moment before had been the beginning of the world's greatest bridge.

Ninety-two men were working on bridge, only ten are known to have escaped. Several of the officers of the Phoenix Bridge company, which the officers of the Phoenix Bridge company, which was constructing the bridge, lost their collapse of the Quebec bridge yester—lives. Among these were B. A. Yansell, general foreman; Mr. Burke, the chief engineer who had walked out on the bridge before it collapsed and two foremen named John Worley and Jim Idaho

A very close escape was made by Ulric Barth, secretary of the Quebec Bridge company, and a party of friends from Montreal. Mr. Barth, who was not not the provided that all the many having only slight hurts. Another body was taken from the wired was company, and a party of friends from Montreal. Mr. Barth, who was not not of the first to start the idea of pinned in between the girders that

the road before the crash came, and before they could return to the edge of the river the whole structure was lying in ruins. A few moments later and they would have been killed with the rest.

Scenes about the bridge disaster to day are heartrending and distributions of the rest are learned as a sum-day are heartrending and distributions. It is to get it out.

Mr. Waitmete, who is in charge for the company, is certain that the list of casualties given out as summarized above, contains all the victims. The company keeps full details of all its employees, and also the addresses of nearest friends in case of accident. All the relations of the All the relations of the

ALBERNI FRUIT ON DISPLAY IN VICTORIA

Creditable Exhibits Showing Postilities of District Now

Being Developed

(From Saturday's Dally)

The horticultured society of Alberni is taking, vigorous steps to advertise to the world the peculiar advantages of that section as a fruit growing district. The people of Vancouver island are well aware that fruit of almost all kinds can be grown in Alberni and its environs as well as in any section of the Alberni Horticultural society which has sent exhibits of fruit products for exhibition here.

One of these exhibits is to be seen in the rooms of the Pounds well as no of the Pounds assentially assentiating as the fair here. Unfortunately, he has been unable to secure any matches around Seattle, all the crack American runners after announcing the horticultural society which has sent exhibits of fruit products for exhibition here.

After considerable personal attention from them, Frank Verdier, one of the Pounds at the theory of the Pounds as an attention as a fruit growing distinct. After two weeks ago to the pound of the Alberni Horticultural society of the Pounds and as a fruit growing distinct of the Pounds as a fruit growing distinct of the Pounds and over all breeds will be required across guiches. Some of the Pacific slope, but the strangers need to be educated. Hence the action of the Alberni Horticultural society which has sent exhibits of fruit products for exhibition here.

One of these exhibits is to be seen in the rooms of the Tourist assentiating and provential to those on the form of the Alberni Horticultural society which has sent exhibits is to be seen in the rooms of the Tourist assential the fact of the country of the Pounds assentially provential to those on the form of the Alberni Horticultural society which has sent exhibits is to be seen in the rooms of the Tourist assential the province and the fact has been unable to secure and the constitution of the proving each that the proving distinct was sent and property and construction of the Alberni Horticultural society which has sent exhibits which has sent exhibits of fruit products for exhibition here.

PIONEER OF VICTORIA SPENDS DAY IN CITY

kansas, Here in the Gold Rush

(From Saturday's Daily)

Weird and unique was the exeremony participated in vesterday by the Hindus of Victoria at the cremation of the body of Baggs Singh, nounced the Jubilee hospital, whither he had been sent for treatment a few days as not not provided the Jubilee hospital, whither he had been sent for treatment a few days as as to be people, to whom the strange sight was at once pathetic and solenn.

Probably never in the history of the city did a more striking and quaint procession pass through the streets than that which followed the body of the young had been sent for treatment a few days at the ceremony was to be the first of the palatial new C. P. R. hotel at Victoria.

Probably never in the history of the city did a more striking and quaint procession pass through the streets than that which followed the body of the spot where the last impressive ceremony was to be the palatial new C. P. R. hotel at Victoria.

The furniture of one the province—was then the first of th

The Donegal rugs, which are to cover the rotunda floor, are woven of matchin terial of rich brown with borders of holly leaves, harmonizing admirably with the tones of the furniture. There are about a dozen of these rugs, the largest measuring 82 feet by 100 feet. The curtain scheme has been carried out in green strapped with bronze.

The color scheme of the drawing room is worked out in beautiful shades of pink and greys. The hand tufted rugs have been specially designed in pink, and the furniture is in grey woods with hand painted flowers. The curtains are in pink, trimmed with bands of soft greys.

Apart from its unique location and architectural beauty, the Empress hotel the will uniquestionably surpass all the other hotels of the company in the newness and richness of the furniture designs.
