

Sick Headache

It is a complaint from which many suffer and few are entirely free. Its cause is indigestion and a sluggish liver, the cure for which is readily found in the use of Ayer's Pills.

"I have found that for sick headache, caused by a disordered condition of the stomach, Ayer's Pills are the most reliable remedy."—Samuel C. Bradburn, Worthington, Mass.

"After the use of Ayer's Pills for many years, in my practice and family, I am justified in saying that they are an excellent cathartic and liver medicine—sustaining all the claims made for them."—W. A. Westfall, M. D., V. P. Austin & N. W. Railway Co., Burnet, Texas.

"Ayer's Pills are the best medicine known to me for regulating the bowels, and for all diseases caused by a disordered stomach and liver. I suffered for over three years from headache, indigestion, and constipation. I had no appetite and was weak and nervous most of the time. By using three boxes of Ayer's Pills, and at the same time dieting myself, I was completely cured."—Philip Lockwood, Topeka, Kansas.

"I was troubled for years with indigestion, constipation, and headache. A few boxes of Ayer's Pills, used in small daily doses, restored me to health. They are prompt and effective."—W. H. Strout, Meadville, Pa.

TERMS:
\$3.00 up to \$16.00. Prizes awarded at the quarter
examinations. References kindly permitted to pre-
vious pupils.
Mus. Rooms and Studio at their Residence
Ontario Street, Watford

NOTES AND COMMENTS.

Wm. J. O'Connor, the Canadian carman, was defeated by Stansbury the Australian, in the race which took place on Monday on the Paramatta River.

A convention has been signed between the Postmaster-General of Canada and the Postmaster-General of Japan for the establishment of a direct parcel post service between Canada and Japan, commencing on Oct. 1st next. Vancouver will be the Canadian point of distribution.

The chances are that the cholera epidemic which has broken out in Spain will not cross the Atlantic, but it would be criminal for the sanitary authorities of this country to neglect any reasonable precaution against the introduction of the disease into the Dominion. Cholera travels by the dirtiest routes, other conditions being equal.

Last Friday was a Black Friday in Canada; two men having been executed that day. Peter Davis was hanged at Belleville for the murder of Wm. Emory. He died protesting his innocence. At Quebec Annapolis Dubois was executed for the murder of his wife, mother-in-law and two children. Dubois confessed his crime, which was of the most revolting nature.

Lord Salisbury's government had a very narrow escape. Its Licensing Bill, which contains clauses giving compensation to publicans whose licenses are abolished, is meeting with great opposition throughout the country, and in the House. The first division on the measure was only carried by a majority of four. It would not have been carried at all if Mr. Parnell's followers had been on hand at the right moment to vote.

Itch, Mange and Scratches of every kind, on human or animals, cured in 30 minutes by Woolford's Sanitary Lotion. This never fails. Sold by T. B. Taylor, druggist, Watford.

Toronto property holders are protesting against the practice of arresting drunken people, which they say is only done to run up expenses and make costs. In a meeting assembled, the property owners passed a resolution, calling upon the authorities to allow ordinary peaceable drunks to go their way unmolested. It seems that 5,451 drunks were arrested in that city last year, and the property owners think the city would save money by leaving such alone in future.

An Ottawa despatch says that the Minister of Customs has granted the privilege of allowing American horses to enter Canada in bond, for feeding purposes. It appears that better grazing can be obtained in the Niagara peninsula than in northern New York, and for this reason a number of Buffaloniais desire to send their horses into Canada for summer grazing. The concession made by Hon. Mr. Bowell will be of considerable advantage to the farmers of Welland, Lincoln and adjacent counties.

DYSPEPSIA in its worst forms will yield to the use of Carter's Little Nerve Pills, aided by Carter's Little Liver Pills. They not only relieve present distress but strengthen the stomach and digestive apparatus.

Lambton county legislators may be slow at times, but they want to be sure. The impression appears to be abroad that the most economical and satisfactory means for keeping the indigent members of the population are found in the House of Industry system, as carried on in Middlesex, Elgin, Waterloo, Norfolk and other carefully managed counties. But for various reasons the councillors who have the matter in hand make haste slowly. At the recent meeting of the County Council, the reform got a setback, and the whole matter will now likely be submitted to a vote of the taxpayers at the coming municipal election. The question should be simply whether or not the people favor the establishment of a House of Industry. Middlesex would not return to the old haphazard system for a good deal.—Advertiser.

In consequence of insufficient or no drainage it would be safe to put down the loss in crops this season at thousands of dollars in almost every county in the Province of Ontario. In many quarters just as the crops were beginning to make a vigorous growth, came a succession of heavy rains. On clayey soils not drained whole fields or portions of them were drowned out. A few beated farmers who had not finished seeding found themselves thrown a week or more further behind. A great deal of corn was put in too late, some not at all, the fields being too water-soaked to work. Thus the whole season's operations are delayed, involving loss in many ways and weeds get an unprecedented start. In the whole range of the farming industry there is perhaps no more hopeless case than the short-sighted man who begrudges a few dollars and a little labor to put down tile drains. No invested money brings a more certain or speedier return. It not only increases crops but reduces the difficulties of working the land and facilitates the year's operations all round. It saves wear and tear on man, beast and

implements, and incidentally prevents a lot of worry to the farmer, which is a point worthy of more consideration than it often gets.

Until the blood is cleansed of impurities, it is useless to attempt the cure of any disease. Rheumatism, which is traceable to an acid in the blood, has been cured, in numerous cases, by the use of Ayer's Sarsaparilla, external treatment being of no avail.

The Presbyterian Church of Canada has proved that union is strength. Since the several branches of the great mother Church in the old land were consolidated in 1875, Presbyterianism has progressed as it had never done before. The statistical report for last year, which has just been presented to the General Assembly, cannot fail to be satisfactory to the numerous adherents of Presbyterianism throughout the Dominion.

In the past year 83 new churches were opened, making a total of 1,920, with seating accommodation for 454,207 persons. The total number of families in the church is 88,100, and the members in full communion number 157,990. In 1888, there were 119,985 attending Sunday school and Bible class, and in 1889 there were 124,310, an increase of 4,325. The total amount of ministers' stipends was \$777,199, an increase of 39,000. For all purposes there was raised \$2,055,951, of which \$1,640,814 was devoted to all congregational purposes, and \$288,117 to the salaries of the Church. This is an increase of \$112,228 since last year.

Messrs Northrop & Lyman are the proprietors of Dr. Thomas Electric Oil, which is now being sold in immense quantities throughout the Dominion. It is welcomed by the suffering invalid everywhere with emotions of delight, because it banishes pain and gives instant relief. This valuable specific for almost every ill that flesh is heir to, is valued by the sufferer as more precious than gold. It is the elixir of life to many a wasted frame. If you have not purchased a bottle, do so at once, and keep it ready for an emergency. Its cheapness, 25 cents per bottle, places it within the reach of all. To the farmer it is indispensable, and it should be in every house.

Sir Fred and the Furs.

An Ottawa despatch to the Empire has the following:—"Then the General was shown a paragraph from a North-west paper and which has been going the rounds of the papers here, to the effect that Sir Adolphe Caron had ordered him to pay for the Bremer furs or resign his position and much more of the same tenor. Said the General: 'The whole thing is untrue. No officers of the militia have declined to be inspected by me at their brigade camps. I have received no advice on that subject from the British war office nor has Sir Adolphe Caron attempted to force my resignation. In fact I am and always have been on the best of terms with the Minister of Militia. I have not been ordered to pay this money or resign, consequently I have not refused to do either.'"

WHAT SAY THEY?—In popularity increasing in reliability the standard. In merit the first. In value the best remedy for all summer complaints, diarrhoea, dysentery, cramps, colic, cholera infantum, etc., is Dr. Fowler's Extract of Wild Strawberry. All medicine dealers sell it.

Stop that CHRONIC COUGH NOW!

For if you do not it may become consumptive. For Consumption, Scrophula, General Debility and Wasting Diseases, there is nothing like

SCOTT'S EMULSION

Of Pure Cod Liver Oil and
HYPOPHOSPHITES
Of Lime and Soda.

It is almost as palatable as milk. Far better than other so-called Emulsions. A wonderful flesh producer.
