Gas When Cooking.

One of the simplest means of effecting a saving of gas is to plan to cook at the same time a number of dishes that require a long, slow fire, such as baked beans, brown bread or rice pudding.

There are on the market sectional steamers, and if the housewife possesses one of these several things can be cooked over one burner.

Golfing Faults.

There are three main causes for golfing faults that I have noted in my experience with the game. The first is "looking up," or moving

the head. The second is swaying or shifting the body in advance of the arms, there by spoiling the timing of the swing. The third is loss of confidence in making a shot, especially upon the putting

green. The first of these is a combination of the physical and the mental. More bad shots are made from "looking up"not looking at the ball-than any other one factor .- Jerome D. Travers in American Magazine.

Carved by the Sea.

The great English channel is be lieved to be the product of sea erosion. Formerly the British isles were firmly connected with the continent, but changes of level led to the formation of the southern part of the North sea, and then, as the geological writer has said the North sea waves battered the chalky neck lying between what is now, England and Europe, while simultane ously the Atlantic assailed it from the other side until the channel was "bored through," leaving the cliffs of Dover on one side and those of the French coast on the other. But on both shores the assault is still going on, and 'the channel is slowly widening .- New York

Meep the Children Well

Dear Mr. Editor :---

Thanks for the privilege of appeal-Ing through your columns on behalf of the Hospital for Sick Children. The Hospital takes care of sick and de-formed children, not only in Toronto, but in the Province, outside of the city. This coming year, of all the years in the Hospital's history, has a more erious outlook, as regards funds for

maintenance, than any year that has passed its calendar. So many calls are being made on the purses of the generous people of To-ronto and Ontario, to help the soldiers

of the Empire, that as I make my daily rounds through the wards of the Hospital, and see the suffering children in our cots and beds, the thought strikes me as to whether the people will as of old, with all the demands made upon them, answer our appeal and help to maintain the institution that is fighting in the never-ending battle with disease and death, in its endeavor to save the stricken little ones in the child-life of Ontario.

Last year there were 394 in-patients from 210 places outside of Toronto, have been 7,000 from places in the Province other than Toronto.

Province other than Toronto. It costs us \$2.34 per patient per day for maintenance. The municipalities pay for patients \$1 per patient per day; the Government allows 20 cents day; the Government allows 20 cents per patient per day; so, deducting §1.20 from \$2.34, it leaves the Hospital with \$1.14 to pay out of subscriptions it receives from the people of Toronto and the Province. The shortage last year ran to \$18,000. Since 1880 about 1,000 cases of club feet, bow legs and knock knees have been treated, and of these 900 had perfect correction. Nearly all these were from different parts of the Pro-vince outside of the city of Toronto. Remember that every year is a war year with the "Scenital; every day is a day of battle; every minute the

a day of battle; every minute the Hospital needs money, not for its own sake, but for the children's sake. The Hospital is the battle-ground where the Armies of Life have grappled with the Hosts of Death, and the life or death of thousands of little children is the issue that is settled in that war. Will you let the Hospital be driven from the field of its battle to save the lives

ATTRACTIVE VELVET MODEL.

favor, a pink ostrich band being used effectively to trim a large black velvet picture hat. This plumage is also disguised, one might say, by being glycerined and burned, after which fancy stickups and novelty effects are de veloped.

Among the novelties introduced this eason metallic ornaments of colored jet fill an important place. These are in the shape of birds, bands and innumerable fancy effects. Gold and silver braid, as well as flowers of gold and silver cloth, are immensely popular. Flowers are shown in infinite variety, a novelty of the season being a pink rose sprayed with white marabou and having silver foliage. Large popples in white and pink, of velvet or linen, are used. Sometimes a small turban is entirely covered with them an especially pretty one being made up of dark blue velvet entirely covered

with large flat delicate pink flowers, This season also shows a tiny bouquet or single flower pinned high on the left shoulder of either the gown or tailleur costume. Wreaths which combine fruit and flowers are also in favor and trim the various shapes ef

fectively. Coque, hackle, vulture and peacock form countless fancy feathers, which are used either in low or flat effect. Wings and quills are in demand, especially for tailored models.

A charming small hat of velvet is illustrated here. The narrow turned up brim terminates in points in front and on these are adjusted feather fancies.

Versatile Children.

Some people complain that children nowadays are taught too many things -that they get a smattering of ever so many subjects and learn none of them properly-that they are made jacks of all trades and masters of none.

To get on well in the world one must learn one thing and learn it thoroughly, but grubbing up money is not everything. One wants to make the most of life as one goes through it, and the way to do that is to have as many wide and varied interests as possible.

It is well to teach children something of books and pictures, music, nature, handicrafts and as many different things as possible. In after years they. Journal.

Ireland's Stirring Song.

The origin of the unofficial anthem of Ireland, "St. Patrick's Day In the Morning." is most obscure. The earliest known copy appears in Rutherford's "Country Dances," published in 1749, but it is said to have been played by the Irish pipers at the battle of Fonteroy in 1745 and was probably current for some time before this. The tune is found attached to various rollicking old English songs. The Cumberland song of faithless Barbary Bell, whose lover vows to wear a red coat for her sake, is sung to a version of "St. Patrick's Day," the words "Bar bary Bell's my darling" being substi-tuted in the chorus for "Patrick's day in the morning."-London Tatler.

LIFE'S PATH OF DUTY.

The true, plain path is well doing-not brilliant doing, but well doing the work of life with a willing mind, a loving heart, with both hands, earnestly-diligence in getting good, being good, doing good. In this world all the grand prizes go to a few brilliant people. But what a blessing it is to us, the dim million, to know that God recognizes patient merit and that the grandest prizes of all are not kept for the brilliant, but for the faithful I -W. L. Watkinson.
