## RAND SUBMARINE ROCK DRILLS

Rand Submarine Rock Drills are large powerful modifications of the company's standard types of drills, enlarged and improved for the heavy duty service of handling long heavy steels under extraordinarily hard conditions.

Working conditions demand a variety of mountings for submarine drills, therefore, mountings are furnished to suit individual conditions.

**Materials**—The most carefully selected materials are used in the manufacture of Rand Submarine Drills. Vital cast parts are made of high-grade open-hearth steel castings and steel parts are made of finest selected steels.

**Workmanship**—Rand Submarine Drills are manufactured by mechanics who are experts in their line, with years of experience and every facility and incentive for the best work in a shop devoted to the exclusive manufacture of rock drills.

## Pedlar Perfect Culvert

is made in all sizes up to 72 inch, from non-corrosive galvanized metal. Extra wide and extra deep corrugations give tremendous strength. Write Specifications for Railway Embankment, Municipal or County Work or Industrial Work of any kind requiring pressure and frost resisting construction. Pedlar's Perfect Culvert will meet the needs specified.

**Nesting Style  
Telescopic Style**

For extra heavy construction, Pedlar Culvert is made in built-up sections, requiring minimum field work to place in position. For smaller work, nesting sections are supplied and assembled at the field. Sizes up to 72 inch. Furnished in car lengths, or taken down.
