'PHE past week has been a quiet one in every respect, and no change whatever has taken place in prices. Some few orders have come in, but the mails are so much behind hand, that many more may be in the way without the possibility of their being immediately received. No goods whatever are going it, as the railway is unable to take them.

Correr -Is inactive and without change.

## MONTPEAL PRODUCE MARKET

Akin & Kirkp tri. 1. Dance Brettered C.

Helmi, Thou As, & Co.

THERE is little change to note in any department since the date of our last. The state of the railways, owing to the prevailing snew storms, greatly impedes traffic, and receipts have been small and irregular. Flour has met a limited consumptive demand, at about last week's prices. Little grain of any kind has changed hands, the few cars of wheat sold have gone at gradualy receding prices. Provisions of all kinds have been inactive, little beyond casual sales of Mess Pork to note. In Ashes there is little to report, arrivals being trilling and demand practically nominal.

FLOUR—There is little movement to report in the

higher grades, and quotations of Extra and Fancy relate for the most part to broken lots for city retail. A slight decline from extreme rates for Strong Supers has taken place, the most favorable brands selling at \$4.55, ordinary ranging down to \$4.59. No. 2 has become scarce and commands \$4.25 to \$4.30. Fine is also held firmly at about \$4, which, being relatively high, restricts sales to pressing wants. Little Midlings or Pollards in market, and for these quoted rates would be paid. Bags are steady at \$2.55 for good samples, ranging down to \$2.20 and under for Ordinary.

WHEAT .- Little has arrived, and transactions have consisted of a few cars for milling use; latest rate \$1.08 from store, and tendency still downwards.

Pras.-Nothing doing, either on the spot or for delivery, rates therefore nominal.

Conx-Is unchanged in demand or value, sale being restricted to retail parcels for consumptive use. OATS .- Engage little attention, the local demand as hitherto being alone for consumption.

BARLEY .- Continues as last noted, only enant sales taking place.

POBE.-A sms out steady consumptive demand is maintained for Mess, sales being about as at date of our last.

CUT MEATS .- Nothing doing except by retail, rates being var o. s according quality.

Hoos-Meet a clow and increasingly precarious

sale, the season being practically over. Land.-Continues unchanged in value, demand

being restricted to city consumption.

BUTTER-Has been without wholesale enquiry, and beyond single packages of selected for city retail. little has changed hands. Forced sales have in one or two instances been made at considerably below current rates.

Asm's.-So little have come ferward that rates have been practically nominal. Pols may be quotes from \$5.59 to \$5.55 for first sorts; and Pearls about Si.50.
