AFTER ALL IS SAID AND DONE

what is the true purpose of the study of agriculture as regards the dairyman? Is it not to better educate the individual as to the vast opportunities that exist in the Dairy Industry, whereby better milk and milk products can be produced, thereby, elevating the Dairy Industry to the high level which it justly deserves. Numerous factors enter into the application of scientific dairying, most important of which are choice of brood for individuality, feeds and feeding for production, handling and marketing for quality and profits.

Without the latter, the two former factors would be of little value, because the income upon which your business exists is dependent upon profit.

You have heard, or possibly you already know what the slightest unsanitary condition throughout your dairy signifies. It means the possibility of inferior quality, waste and low price.

Is not
