

THE MITRE.

UNIVERSITY OF BISHOP'S COLLEGE,
* * * MONTREAL. * * *
FACULTY OF MEDICINE,
SESSION OF 1894-95.

107.

THE TWENTY-FOURTH WINTER SESSION of this Faculty opens on Monday, the first day of October 1894. The Faculty of Medicine of Bishop's College aims at imparting a thoroughly practical medical education, and its facilities for doing so are in many respects unequalled in Canada. In addition to the regular courses of didactic lectures, Students have the advantage of extensive and varied hospital privileges. Its Diploma is recognized by the Royal College of Physicians, Edinburgh, Royal College of Surgeons, Edinburgh, the Royal College of Surgeons, England, the Royal College of Physicians, London, the Faculty of Physicians and Surgeons, Glasgow, and the University of London. The Faculty admits Lady Students, who have provided for them well arranged separate dissecting rooms, cloak rooms, etc., and enjoy all the privileges and opportunities of male students.

TWO GOLD MEDALS, ("The Wood" and the "Robert Nelson" Gold Medals), the "David Silver Medal," the "Chancellor's Prize," the "The Junior and Senior Dissertor's Prizes," and the "Botany Prize," are competed for annually. FEES about the same as at the other Medical Schools in Canada, but a Student who pays the cost of the entire course on the commencement of his studies can effect considerable reduction.
