WATEROUS BRANTFORD
CANADA.

Re-Saws for Large Mills.

A Band Re-Saw converts a Cull Deal into say a one-inch Thin Cut
a two-inch Clear. Re-saws Thick Slabs and is largely used to increase
Capacity of Mill 25 to 35%.

CIRCULAR RE-SAW

Re-Saws Slabs Equally as Well as Lumber.

It will convert your Slabs and other Mill Refuse into Lumber at a Small Cost. The
cut from slabs is usually of upper grades, much being clear; the amount that
be taken from a cord of ordinary slabs is from 400 to 700 feet surface meas-
according to the thickness. Instantly changed to cut from 7 1/2 to 2" thick.
single band or circular mill the daily saving, customers report, is 7,000 to 9,000
of 1/2 box lumber.

A THOROUGHLY REBUILT . . . NO. 5 1/2 EGAN BAND RE-SAW

FOR SALE CHEAP—60" Wheels; takes 4 1/2"
Saw; Re-saws 30" wide and 12" thick.
