We own and operate several mills in Washington and British Columbia, being on both sides of the "Imaginary Line" known as the International Line, and it keeps our opponents in the trade guessing how to meet us on account of the good quality of our manufactured stock, which has been so carefully planned that even the selection of our timber lands in years past has something to do with the present.

We find our competing salesmen's story to the customers has now got to be a "song pure and simple," which they have learned from necessity to sing loudly and lustily, and is as follows: "JUST AS GOOD AS HASTINGS," "JUST AS GOOD AS HASTINGS."

While we appreciate their holding our goods as models of perfection, which the high standard certainly merits, still looking at the matter from the customer's and the consumer's standpoint we cannot see any advantage to you in buying an imitation when the real article can be had through our representatives, viz:—
