ADVERTISEMENTS, &c.

Days of Issue.—HEALTH AND HOME will be published once a month.

Forerun.—It will be devoted to the promotion of Sanitary Education in Homes and Schools, and the diffusion of Sanitary Knowledge to all classes; combining Sanitary Science and Health recreations with domestic usefulness. Its field covers all relating to health, plumbing, heating, ventilation, drainage, water and food supply, and is a work that will be of value to keep as a book of reference in every family.

Advertisers.—Terms for advertising for the first year will be at the rate of 10 cents a line of full column width for a single insertion; liberal reduction being made for increased space, or for payment in advance. No Advances will be given.

Address all communications:

F. N. BOXER, Publisher and Editor,
112, St. James St., Montreal.

PATENTS.

F. N. BOXER, C. E.

SOLICITOR OF PATENTS

late Editor of the Standard Canadian and Patriotic Service Record,

OFFICE: 7 ST. JAMES ST., MONTREAL.

F. N. BOXER, CIVIL & SANITARY ENGINEER

ROUTE 6, NO. 7 ST. JAMES STREET,
MONTREAL.

Designs, Estimates, and Specifications furnished for all work pertaining to Sewers, Drains, Heating and Ventilation of buildings. Professional advice afforded regarding the Draining and Ventilation of School and Public Buildings.

BOXER'S FLAME-PROOF SOLUTION

PATENTED 1882.

This valuable Flame-Proof Solution is equal to Asbestos for coating over interior woodwork.

In the construction of Sew-mills, Manufacturing and Public Buildings, or upon any woodwork near boiler and furnaces, a coating of this solution is preferable to a metal lining.

FLAME-PROOF PAPER.

This paper, which is saturated with the solution, valuable as a protection against fire, when placed under shingles or under clay boards.

OILY FLOORS.

Floors or wood on which much grease is spilled can be cleaned and rendered uninflammable by the application of the solution.

The following certificates will testify to its value as a protection against fire:

Montreal, 2nd March, 1883.

We, the undersigned representatives of Fire Insurance Companies, do hereby certify that we have examined the Boxer's Flame-Proof Solution, and find it to burn a hole through a board 1/2 in. thick, and through a paper and shaving 1/4 in. thick, in less than one minute, and that it will not catch fire when applied to wood, paper, or other combustible material, even when heated to a red heat, or when exposed to a flame.
