THE McEWEN
**THE MOST SATISFACTORY
HIGH SPEED ENGINE IN THE WORLD.**

FOR ANY SERVICE

where severe and rapid fluctuations in load are found, such as generators for electric lighting and railway service, mine haulage, electric crane work, etc. — no high speed engine ever designed will meet such severe requirements as the McEWEN. We show our confidence in its regulation by giving the following guarantee:

"The engine shall not run one revolution slower when fully loaded than when running empty and a reduction of boiler pressure from the greatest to that necessary to do the work will not reduce the speed of the engine one revolution."

"Any engine failing to meet this guarantee becomes the property of the purchaser upon the payment of One Dollar."

No McEwen Engine has ever failed to meet this guarantee.

Let us send you the McEwen Catalogue.
