**Mercantile Summary.**

It is announced in the *Canada Gazette* that the ten per cent duty authorized at last session of Parliament to be levied on all tea and coffee imported from the United States, will be exacted on and after the 1st January inst.

THE LAKE marine of the United States shows 1548 vessels of about 260,000 tons; this is only about equal to the tonnage owned by a single city of the Dominion viz., St. John, N.B. We believe St. John owns more ships than any other city in North America.

A NEW line of ocean steamers to run between Montreal and Quebec and ports in France and in the Mediterranean, will commence to run in the spring. Two steamers of 1,000 tons each are being specially built for this trade to be named the "Montreal" and the "Toronto." This would be a great benefit to the trade now existing between the ports named.

A COMPANY has been organized in London Eng., to run a line of steamers between that port the Straits and China, and between New York, the Straits and China via the Suez Canal. The boats for this line are now building on the Clyde, and will, it is expected, be ready next March or April. The China tea trade appears to be deserting the California route for that via Suez.
