Small Price Recessions Made Are REGULAR DIVIDENDS When Real Selling Enters Market

Cobalt Stocks Register Small Losses Under Realizing Sales-Technical Position of Market is Good.

World Office,
Friday Evening, Sept. 9.
More real selling came into the mining markets to-day and in nearly every instance lower prices were recorded by most of the cheaper issues.
There was no decided change in market tendency and no aggressive backward movement developed, but it was apparent that when real liquidation entered the market, there were not sufficient buying orders to take care of what stock was offering.
At the opening of the exchanges a generally firm undertone was in evidence, but as soon as it was noted that real stock was coming out, support-

real stock was coming out, support-ing interests stood from under the market and only picked up offerings at recessions.

Lower prices were recorded by such issues as Beaver, which dropped back to \$0; Timiskaming, which touched 79,

The bottom prices were reached during the morning, and on the afternoon board values stiffened to a certain extent, tho the full loss for the day was not regained.

The technical position of the market has been greatly improved by the reactionary tendency of the past three days. The upward movement was a very rapid one, and that a retreating attitude should develop was only natural on this account.

TEAMING OUT ORE

Gates' Property, Gowganda.

COBALT. Sept. 9.—It is stated on excellent authority that a carload of ore is being teamed out from the Gates property at Gowganda, which will run between \$40,000 and \$50,000, as it consists of high grade.

The only previous shipment from the Gates property which Mr. M. J. O'Brien owns, was made some time ago. It consisted of eight tons and was more in the nature of a trial shipment than anything else.

Now there is a thirty-ton car on the road, being teamed out to the steamers at Elk Lake. It will be brought down the Montreal River to brought down the Montreal River to Latchford and should be at the smel-ter in about a week's time. The Gates has had good ore for a year

now and has all the appearance of adding materially to the output from the Gowganda district. PETERSON LAKE AFFAIRS

bales.

COTTON GOSSIP.

Erickson Perkins & Co. had the following at the close:

Cotton prices, after some decline early, crept up slowly and closed firm at net gains of 15 to 18 points. Local traders were inclined to even up short contracts over the week-end, especially in view of the approaching Gulf storm. Firmness also was imparted to our market by the strength at some of the southern spot markets, where prices were quoted 12 higher. Spinners' takings, only 128,000 bales for the week, as against 171,000 a year ago. Generally speaking, trade reports were a shade more favorable, but not enough so to warrant any marked advance in options at this time, and we are inclined to advise sales for a turn on any further advance.

Rose Companies have been notified of meetings to be held Sept. 19, when

Chas. Head & Co. (R. R. Bongard) re-

Copper exports from New York for week ending Sept. 8 were 4277 tons. This makes the total since Sept. 1 5813 tons, against 4667 tons for the corresponding period last year.

OPPORTUNITIES OFFERED

The decline in the Cobalt market offers good buying opportunities. Some profit-taking, together with short sales, has temporarily influenced prices, but we think the advance will be renewed in a few days.

Beaver is in a position to be worth much more money. Rochester and Peterson Lake are cheap.

Buy now, when others are selling.

A. J. BARR @ CO. 43 Scott Street, Toronto
