Mr. Allen appeared before the fire, water and light committee this afternoon and made his application, submitting a draft agreement covering the points of the scheme. He stated that the system he would instal would be that of the Independent Telephone Company, which was the competitor of the Bell Telephone Company all thruthe United States. Considerable Damage Among Fleet of Pleasure Craft at Foot of York St.

The strong southwest gale which prevailed last night played havoc along the waterfront, snapping the moorings of several pleasure craft. The wide lip just east of the Argonaut Rowing lub, where the bulk of the Q.C.Y.C. Club, where the bulk of the Q.C.Y.C. fleet were moored seems to have sufferer more than any other spot on the waterfront. Several gasoline launches and the yachts Tanui and Whirigust went to the bottom, while the clipper Nelda snapped her fastenings and drifted perllously near to disaster against the city dock. She was rescued in the nick of time b ya party of Queen City Yacht Club boys, who were also responsible for the safety of a great many other launches, which had dragged their moorings or broke away entirely. Among the rescue party were Fred Phalen, Fred C. Clarke, Lyle Bros., and George Couples, who all testify that the bay received a worse stirring up than it did last fall, when considerable damage was done in a similar way. The waves were rolling over the end of the docks.

Have you noticed the change in style in this fall's suits? Perhaps you are indifferent to style changes. If so the explanation of the cheapness of the best suits in this lot will be at once satisfactory and convincing. They were carried over by the makers from last fall.
