# ENDED IN MURDER

Percy Martin Charged With Death of James Powless at Brantford

FIVE OTHERS HELD

-Counter Charges

Entered. special to The Toronto World. BRANTFORD, Aug. 11.—Percy Martin, an Indian resident of the reserve, was arraigned in the police court this morning charged with the murder of Jas. Powless, another Indian, who died in the Hospital here yesterday as the result of a blow on the head. Martin, who is a married man, bears up well under the charge against him and pleaded not guilty, electing to be represented by counsel. He was remanded for a week.

week.

From information gathered so far it seems that a fracas arose, involving a large number of men, altho it is now known that only five are concerned in the charge of murder. These five are all relatives of Martin, and it is alleged that they were armed with clubs. The accused states that he withdrew from the affray in the early stages before Powless had suffered any injury. A number of counter charges of assault have been laid by friends of the prisoner against men alleged to have been companions of Powless. An inquest and post mortem examination was held last night, after which the jury adjourned for a week until the case has been investigated further.

#### THOUSANDS OF SYRIANS DIE FROM STARVATION

Turks Remove Population and Food Supplies From Large Districts.

LONDON, Aug. 12, 1.35 a.m.—A cor-espondent of The Times, recently returned from Syrla, writes as follows concerning conditions there:
"The state of the people of Syria is past all belief. It is estimated that from 60,000 to 80,000 have died from starvation in northern Syria. The Turks are proceeding with great thoroness in removing large sections of the population, and in some vilayets there are no Arabic-speaking Christians left.

"The epidemic of typhus is gaining everywhere, and a great many Turkish army doctors have succumbed to the disease. Many civilian prisoners, mostly British, also have contracted typhus. One great difficulty in a systematic fight against the epidemic is the great scarcity of drugs and antiseptics. The Germans have taken very careful precautions, but the disease is gaining."

LIEUT. FLOODY WEDS.

LONDON, Aug. 12—It has been tawa, Montreal and Quebec. The sarned that the Duke of Westminster lieutenant will rejoin his regiment, at Valcartion and that he is now in a Paris hospital and Mrs. Floody will reside in Queber until the regiment goes overseas.

# \* WAR SUMMARY \*

### THE DAY'S EVENTS REVIEWED

(Continued From Page 1.)

been seen. If the Russians get beyond Halicz they will have fairly open country for their operations.

On the northern flank of the Austrian group of armies the Russians are exerting great pressure against the Sereth River lines and they have extended their territorial gains in preparation for their march on the Tarnopol-Lemberg railway. Their present object is evidently to seize as many railways and vantage points and to threaten as many others as they can before they put on full steam to administer the finishing stroke to the Austrians. The German official communication assumed a boastful tone yesterday, altho the great general staff has had nothing worth bragging about, for a rigid defensive on the Stokhod lines is surely not what the Germans would elect to maintain. Meanwhile it may be expected that the Russians are making a concentration of shells for the daunching of strong hammer blows in some other quarter of their lengthy

After their success at Gorizia, the Italians are not only advancing eastward, but they have widened the gap that they have made on the Isonzo front by capturing the Doberdo Plateau. They also pushed on to the east from Gorizia and captured Rubbia and San Martino. Their third army has driven the enemy from his strong defences between Vippacco and Monte Cosich and forced him to retire to the east of Vallone. It has been ascertained that east of Monfalcone and Gorizia the enemy is holding trenches on the line of the Monte San Gabriel and Monte San Marto. Italian troops have already reached the southern slopes, both of this new line and of the line of Vertobizza. A great many prisoners and much war material continue to be taken. It is unofficially estimated that the Austrian casualties sustained in the storming of Gorizia by the Italians amount to 90,000 to 100,000. At any rate it was a terrific blow

The loss of so many effectives and of such a great quantity of war materials, as shells, creates a new and a tremendous demand on the resources of the already perplexed Austrian general staff. Austria has become unable to replace casualties with news drafts of recruits. Germans are called upon to fill the vacant positions in the ranks. But Germany also is beginning to feel the pressure of coming exhaustion. With the 1918 class of recruits just coming in, the return of the rejected among the classes of 1916 and 1917 and the coming return of the wounded to their ranks, it is estimated that she has still a surplus of three-quarters of a million in man-power to fall back on. The losses of Austrians and Germans at the present stage of the operations probably reach 400,000

The reports of the beginning of a heavy action on the Saloniki front with heavy artillery engagements by Lake Doiran, with the occupation of the village and station of that name by the allies, may presage the opening of an offensive to beat down Bulgaria and to liberate Serbia. Altho a section of foreign-controlled financiers in London has endeavored to conclude a peace with Bulgaria, that plot appears to have failed and the allies will proceed with the punishment of that state for its treacherous behavior. Meanwhile the long waiting for the allied attack has been a severe strain on that loosely-organized country. It is said that Bulgarian soldiers are now mostly without shoes. If the allies start in with a crushing offensive against Bulgaria it will greatly alarm the young Turks at Constantinople and they will set up a strong demand for the recall of those troops lent to Austria and reported to be at Lemberg.

As to the situation in the Caucasus, where the Russians have witharawn before a heavy concentration of Turks, they have already relieved the situation by striking the foe from Persia and the southern shores of Lake Van and driving him back a distance of several miles. But in Persia they have what and the from Hamadan under Turkish pressure. The previous reports from Petrograd of decisive defeat of the Turks appear to have

# **KNIFE RADIALS**

What J. W. Lyon Says of the Members of Ontario Cabinets W

TIE UP PROPOSITION Declares Move is on Foot to Make Work Im-

possible.

GUELPH, Ont. Ang. 11.—A meeting of the Guelph members of the central executive of the Hydro-Radial Association was held in Guelph this morning. The purpose of the meeting was the drafting of a reply to a letter which had been sent by Premier Hearst in regard to the several memorials and petitions which have been sent to the government from time to time by the association asking that action should be taken in regard to the building of radials, or that at least right of way for the lines should be secured with the least possible delay.

The reply was drafted, but the officials stated that there was nothing for the press yet and would not be until the letter was sent out to all the members of the central executive for their conconsideration and approval, or otherwise. When this is done the letter will be made public, along with the letter from Premier Hearst, in reply to which the letter today is being formulated.

Tied Up With Corporations.

letter from Premier Hearst, in reply to which the letter today is being formulated.

Tied Up With Corporations.

J. W. Lyon, the president of the association, stated after the meeting that he believed the Ontario Government was sincere in regard to the power proposition, but not in regard to the building of the hydro radials. "I consider that the Ontario Government is as loyal to the power project as any government is to work that is being undertaken by the municipalities. The trouble is the that they are more or less tied up with the corporations. The people are in earnest in regard to the matter, and the whole scheme is a project of the people.

"But as far as the tadial railways are concerned," continued Mr. Lyon, "I believe the members of the Ontario Cabinet are determined to knife the proposition, and are out to see that they shall not be built. I am told on very good authority that there is not a member of the cabinet who is in favor of the building of these lines." Here Mr. Lyon produced a copy of the bill passed by the Ontario house in regard to the building of these lines and on which he based his opinion largely that the move now on is to tie up the hydro radial proposition so that it will be impossible to go on with the work.

WERE UNABLE TO RAISE NEW AGRICULTURAL HALL

Men of Markham Village Wil Make Another Attempt

The attempt to raise the big new agricultural hall in Markham Village yesterday by a large crowd of men proved ineffectual, and last night the plan as projected was abandoned and another effort will be made. It was thought by the contractor and carpenters on the job that by the aid of pike poles and stay ropes the twelve immense trusses could be raised into position, but this was proven to be too optimistic a view, and Mr. Miller of Unionville, the contractor, stated that heavy jelophone poles to stay the trusses, together with a sin post and steam traction power, would be utilized to raise the trusses in postion. The new hall which will be of another effort will be made. It was utilized to raise the trusses in posi-tion. The new hall which will be of modern design, will, once the frame-work is up, be rushed to completion in time for the Markham Fair, which pens this year at an earlier date than formerly. Splendid progress has been made by Mr Miller, the contractor, and Frank Frisby, the sub-

contractor on the masonry work. ANNUAL CHURCH PICNIC. Women of Central Methodist. Earls-court, Enjoy Outing at Island.

The fifth annual picnic of the same chapter gave \$50.00 to the Red

special steamer being chartered for the occasion. A very enjoyable program of events was arranged, comprising twenty races for women and eight for children. A number of valuable prizes were competed for, and refreshments were served by the ladies committee. Over 400 persons were prsent, including Rev. Pastor Bryce and Mrs. Bryce, and Rev. Archer Wallace, B.A., and Mrs. Wallace.

**OBJECT TO MACADAM** 

ON DAVENPORT ROAD Ossington-Oakwood Ratepayers Discuss Proposed Roadway.

A meeting of the Ossinston-Oakwood Ratepayers' Association was held last evening in McMurrich school with Presievening in McMurrich school with President L. L. Jervis in the chair.

The question of the proposed paving of Davenport road from Bathurst street to the C.P.R. tracks was the chief topic of discussion. C. E. Blackburn, J.P., spoke at length or the matter, pointing out that almost all the property owners interested were averse to the citys' proposal of a macadam road, and desired a bitulithic or an asphalt roadway.

Thomas Jones, on behalf of the residents, complained of a victous dog kept at a house on Arlington avenue, Wychwood, which had recently bitten several children, and was a nuisance to the neighborhood. It was decided to write the medical health officer, Dr. Hastings, reduction of the medical health officer, Dr. Hastings of the medical health officer, Dr. Hastin
