

HENRY'S CARBOLIC SALVE!

The wonderful celerity with which this combination of "carbolic acid" with other soothing and curative emollients **HEALS THE MOST VIRULENT SORES AND ULCERS**, is something akin to the marvelous. It is with pride that the proprietors call attention to the gratifying fact, that Physicians give it the highest meed of praise, and use and prescribe it in their practice.

POINTS TO BE BORNE IN MIND.

CARBOLIC SALVE positively cures the worst sores. CARBOLIC SALVE instantly allays the pains of burns. CARBOLIC SALVE cures all cutaneous eruptions. CARBOLIC SALVE removes pimples and blotches. CARBOLIC SALVE will cure cuts and bruises. CARBOLIC SALVE ranks at the head of all salves, ointments, or other healing compounds, and has ACHIEVED A GREATER REPUTATION, AND HAS A LARGER SALE, than any other similar preparation of contemporaneous invention.

CARBOLIC ACID, the basis of this already-celebrated preparation, is comparatively a new chemical agent, and has only recently been introduced into the *materia medica*. It was discovered by Runge, the famous German Chemist, in 1834, while making a series of experiments on *Coal Tar*, of which it is the active principle. It is a colorless oily substance, considerably heavier than water, and is unquestionably the most powerful preventive of decomposition, and antidote to putrescence at present known. Hence, it is extensively used in embalming. So powerful are its purifying properties, that rotten fish, when soaked in it, immediately become inodorous, and are not again subject to putrefaction. Within the last few years many compounds of great value in the arts have been prepared from it, and it is extensively employed for coloring purposes and as a disinfectant. It was used as a disinfectant during the progress of the great cattle plague, and is said in many instances to have stayed its ravages. The acid itself, however, in an unmodified condition, is too pungent and biting to be applied with safety to the diseased or wounded skin or flesh. In HENRY'S CARBOLIC SALVE its caustic principle is tempered and qualified by the presence of soothing emollients, which neutralize its acrid properties, while leaving its wonderful and almost miraculous healing attributes unimpaired. Perhaps it is not too much to say of this invaluable compound that as an external curative it stands alone, without a rival or competitor. *Proud flesh cannot form* in a sore with which it is in contact; and if this species of dead matter already exists in any ulcer, the CARBOLIC SALVE will expel it, and recover the diseased part to a sound and natural state. On purulent eruptions it acts like a charm, subduing the inflammation, drying up the suppuration, and curing the disorder, without leaving any scar or discoloration behind. In short, it is the antithesis of all corruption, and no bodily impurity can resist its antiseptic influence. This is, indeed, a sweeping assertion; but we guarantee that the operation of the salve in the worst cases of Scrofulous Ulceration, will bear us out in it.

READ THE FOLLOWING TESTIMONIALS.

JOHN F. HENRY, Esq.

Your CARBOLIC SALVE proves an excellent article, and I thank you for it. of the great value of the discovery of Carbolic Acid.

New York, Dec. 22, 1864.
This is another evidence
Yours truly, GEO. B. LINCOLN,
Pres't Board of Health.

JOHN F. HENRY.

I had on a forefinger of my right hand one of those pleasant pets, a "run-round." The finger became inflamed to a degree unbearable, and swollen to nearly twice its natural size. A friend dressed it with CARBOLIC SALVE, and in twenty minutes the pain had so much subsided as to give me a fair night's rest, which I had not had before for a week. The inflammation left the finger in a day. I consider it a most valuable article for the household.

D. R. LOCKE, (Petroleum V. Nasby.)

JOHN F. HENRY.

Sir—I have used CARBOLIC SALVE on a very bad running sore on my leg. It is superior to any other made.

BOONEVILLE, N. Y., June 19, 1871.
DR. JOHN B. NOLD, (Late Surgeon N. Y. Vet.)

JOHN F. HENRY.

Dear Sir—I applied the CARBOLIC SALVE in one case to a very bad burn, in which *Proud Flesh* had formed, and the wound was healed with astonishing rapidity.

New York, July 30, 1870.
Yours resp., COL. H. S. OLCOTT.

Price 25 Cents per Box. By Mail prepaid 30 Cents.

PERRY DAVIS & SON & LAWRENCE,
SOLE AGENTS FOR THE DOMINION.

The Columbian Journal, describing an Ohio physician, says: "As an honest man by profession, he earns his bread by the sweat of his jaw."

Little Alice was crying bitterly and on being questioned, confessed to have received a slap from one of her playfellows.
