"PRISONER SLAVES" IN GERMAN HANDS NOW NUMBER TWO MILLION

Enter Into Calculation of Man-Power, Says Boston Writer on Conditions in Germany

London, Oct. 19.—(New York Sun cable)—D. Thomas Curtin of Boston, writes in the Times this morning that the British captures of German prisoners is bettering the lot of British prisoners in Germany, the Germans being anxious that ill-treatment bring reprisals. This applies to officers as well as to men.

Mr. Curtin emphasizes the value to Germany of its 2,000,000 "prisoner slaves" who now are reclaiming swamps, tilling soil, building roads and railways and working in factories.

"Some of our military writers," he says, "have these prisoners out of their calculations when estimating Germany's man power. If you had 2,000,000 prisoners you probably would be able to release 2,000,000 of your own people for military service. Most of the prisoners in Germany are Russians. They are seen everywhere and have greater freedom than any others. They sometimes travel unguarded to and from work. They are docile, physically strong and accustomed to lower grade food than any other prisoners with the exception of the Serbs.

"Of course the English form much the smallest number of prisoners, but they are most highly prized for hate propaganda purposes. They are selected to manage, said an under officer to me, than the rest of our 2,000,000. "It is indeed a fact that your 20,000 prisoners, although the worst treated, are the gayest and most outspoken and most rebellious against tyranny."

DEFENCE OF SAILORS IS THAT FOOD WAS NOT GOOD

An interesting case has developed as a result of the arrest of Victor Osdone and John Zelonski, charged with refusing duty on board the bark Solheim, they being arctic seamen.

In the police court this morning Captain Larsen and another officer gave evidence. The two sailors say that the food was bad and anything but inviting, and as a result they refused duty, especially when they were refused, by their officers, the right to make a complaint to their consul. Some of the food is now in the possession of the police. The case was postponed in order to give the inspectors time to examine the food. Upon the result of their investigation will depend the action of the court.

B.G. GAME ON THE TRACADIE

From October 2 to 8 inclusive there were seven large bull moose killed on the head waters of the Big Tracadie River. One of these animals went to earth by the well-directed shot of J. A. Caron of Montreal. Mr. Caron was the guest of J. J. McGuffigan, and they enjoyed the outing in the caravan, or house on wheels near Meadow Brook. Mr. Caron was very much pleased with the hunting in New Brunswick. The day that he killed his moose he saw five others in the same manner.

Mr. McGuffigan returned on Wednesday bringing home with him a very nice moose which he killed near the Bathurst road. He and his guide were out from their base only one hour when they were back with the moose.
