VETERAN OF I. C. R. DEAD

Conductor George Lamkie Passes Away in Moncton

Moncton, N. B., Jan. 27.—George Lamkie, retired C. G. R. passenger conductor, died about four o'clock yesterday afternoon at his home here. He had not been in good health for some years. It is thought that he never completely recovered from the effects of a collision in which his train was involved at Dalnour.

RENTS WILL NOT BE INCREASED

The Man In The Street

Yes, thanks, this is quite cold enough for us.

West St. John folk are singing the doxology these days. They now have one ear on the line that does not bear such a close resemblance to a cold storage plant.

Members of the Montreal stock exchange say they felt that earthquake tremor yesterday. Now they will be able to appreciate the feelings of the folk who held war stocks at the time of the December slump.

The only sure way to beat the stock market game seems to be by leaving it alone.

The next surest method is to get a sure tip—and then play it the opposite way.

Austrian parliament has been postponed because "a noisy session" is feared. Is this another manifestation of the activity of the League for the Suppression of Unnecessary Noise?

If Canadians felt the same way about it, we never would have a session of parliament.

And if the sentiment were general, the federal government organ would be suppressed.

A Cry of Distress.

The Man-in-the-Street has received from a young lady a letter containing a cry of distress. We might almost describe it as "a voice crying in the wilderness," if we West St. John friends would not regard that as a reflection on their so delightful section of our fair city. However, that as it may, the clairvoyant soul of the aforesaid M. I. T. S. has been stirred in its depths and he hastens to lay the facts before the public. It is a pity that the letter cannot be published, that others might appreciate in full the sorrows of the West Side maidens—but the letter is too long. So, in our own simple way, we will have to tell the story in a few words and with much less pathos. The facts, in brief, are these: The young ladies are suffering from the overflow of soot and coal dust from the coal company's plant situated adjacent to the West Side flats. When they reach the shelter of the ferry cabin they find that their appearance has been marred by black streaks on their faces. If a girl has been so thoughtless as to leave home armed with only one handkerchief, that hanky is a total loss by the time she has removed the dirt from her face. Imagine the hardship that follows, especially if she happens to be suffering from a cold in the head! Still more awful to contemplate is the possibility that one of the girls might overlook the necessity for first-aid measures and might proceed to the city with her face still bearing the coal stains. A remedy is suggested, in a mild and reasonable request. All our fair correspondent wants is that the ferry commissioner should supply a wash basin in the ladies' cabin, and that some one should contribute a mirror. On behalf of the girls from across the harbor, she makes the sporting offer that they will supply the soap and towels.

These are 4-1/2 inches in diameter, milled and highly polished, and have bell inside the case. To set the alarm, the ball on stem is raised, and to stop it, it is simply pressed down. With every clock is a printed guarantee that it will run and keep good time for at least one year, and we have enough confidence in their quality to place our name on the dials.
