DISCUSSION ON WEST SIDE TRACKS

C. P. R. Officials Have Talk With Common Council Members.

Superintendent Says Any Change Now Would Drive Business from Port—Puts Responsibility on Government—Tenders Opened.

The committee meeting of the Common Council this morning took the form of an informal discussion, there not being a quorum present. Commissioner Bullock is in New York and Commissioner Wigmore was unable to be present. J. M. Woodman, general superintendent of the New Brunswick district of the C. P. R. and C. C. Kirby, district engineer, were present to discuss with the city the matter of affording some relief to citizens of Germain street, West St. John, greatly inconvenienced by the position of the C. P. R. tracks in that street. After considerable discussion the matter was left open in the hope that something might transpire which would bring the situation to a head. Tenders for a new steel stairway in City Hall, West St. John were opened and referred to Commissioner Thornton for report. The Mayor brought up the matter of the relief to be afforded residents of Germain street, West, with reference to the C. P. R. tracks there. G. G. Hare, city engineer, was present. Superintendent Speaks.

Mr. Woodman said the railway did not contemplate having expenses any great amount of money there. To remove the tracks would mean a great loss to the port. These tracks were the main lines in the city. To remove these would force all the business onto a small track which could not handle the traffic. It had been expected that the Government would make some changes which would obviate the difficulty but this had not been done. If the change had to be made to small tracks it would mean the business to other parts. As a matter of fact more tracks were needed. To make any real difference a change in the whole layout would have to be made. Mr. Kirby said he could not see what temporary relief could be afforded. He understood that when some of the property owners bought the land from the city there had been a provision that they should take the property subject to whatever inconveniences they might be called upon to suffer by reason of the position of the railway. Mr. Kirby said the company had filed in whatever work had been done by the Government but the Government had not done any work and the company had not gone on.

Citizens Rights.
The Mayor said something was due to the property owners and the question was one of responsibility. He would like Mr. Woodman to give it such consideration as he could and see what he could suggest. Mr. Woodman thought the best thing to do was to urge the Government to go through with its part of the programme and then the C. P. R. could go through with its. He said the C. P. R. would carry out its promises as long as the men now at the head remained there. Commissioner Thornton thought it would be well to have the leases of the properties looked up and the Mayor agreed. Commissioner Frink said there had never been a resolution asking the Government to continue the work.

Stairway Tenders.
Tenders for the new steel stairway for City Hall, West St. John, were opened. They were as follows:
John Flood & Sons, \$8,250 and \$3,650 with slate on main landings.
Canadian Welding Works, Ltd., \$2,800 and \$3,225 with slate on main landings.
The tenders were referred to Commissioner Thornton for report.

St. John Boy Is Victim Of Canoe Accident In Ont.

Robert Golding, 19, Drowned at Kenora Last Evening, With Amherst Man—Body Recovered.

Robert Golding, nineteen years of age, son of Mrs. Fannie Golding, 73 Erin street, was drowned when a canoe upset in the middle of the bay at Kenora, Ontario. The fatality occurred late last evening when Golding and Andrew Bernard, of Amherst, N. S., were evidently returning home late to the C. P. R. camp at Ignace, Ont., where the two young men were employed on construction work.

Advices to the Golding home this morning told simply of the accident and that Robert had been drowned. There were no particulars. Young Golding left St. John on May 16 as a member of a crew of fifty men who were en route to Ignace, Ontario. He and most of the other men had been placed through the local employment office. They had been in Ontario a little less than a month. According to information to hand the accident occurred near Kenora which is only a few miles from Ignace, headquarters of the C. P. R. extra gang in that locality.

Golding was unmarried and was a returned soldier. Arrangements will likely be made to have the body brought to St. John for burial.

A Canadian Press dispatch today from Kenora, Ont., says: "Two young men from the Maritime Provinces lost their lives by drowning late last night when a canoe upset in the middle of the bay in forty feet of water. The victims were Robert Golding, aged 20, of St. John, and Andrew Bernard, aged 29, of Amherst. Both were single. Golding's body has been recovered. They were employed on the C. P. R. extra gang."

KINGS COUNTY MAN 103, DIED TODAY

George Wallace, One of the Oldest of County's Residents, Dead—Was Thrice Married.

George Wallace, probably the oldest resident of Kings County, died at his home in Sussex this morning at the age of 103 years. He had been married three times, his third wife surviving him. He had four children by the first wife and one of them, W. E. Wallace of Penobscot, survived. Mr. Wallace was an ardent member of the Baptist church. He was born in Kings County and had lived for the last thirty years in Sussex. For the last five or six years his birthdays had been the cause of celebration. The funeral will be held tomorrow afternoon at Penobscot.

The Bridal Gift Ideal

What better wedding present could "Daddy" give his daughter toward her start in home-making than the best in that most practical of gifts—McCLARY'S ELECTRIC RANGE? Or what more acceptable gift from a group of friends?

McClary's Electric Range

—for two great exclusive reasons, has made electric cooking the easiest, cleanest, safest cooking method in all the world: McClary's TOR-OID Protected Element heats as fast as the open kind, but is protected from moisture, from food boiling over and from other damage; heats evenly and is easier to clean.

McClary's Seamless—round-cornered—porcelain enameled, washable oven works like a fireless cooker; once heated it stays hot till baking or roasting is done, thus saving current. It is also much easier to clean. See

McCLARY'S ELECTRIC RANGE and display of "CANADIAN BEAUTY" ELECTRIC COOKING APPLIANCES in our KING STREET WINDOW.
