

CIRCUS PARADE
DRAWS CROWDS

The Streets Lined While Big Show Makes Tour of City—Many Visitors in Town.

The Sells-Floto circus is in the city today and is showing on the East End Improvement League grounds, Marsh road. The usual excitement which marks the arrival of this famous summer attraction was in evidence, and if anybody is inclined to wonder why they would have found every reason to correct this belief this morning by taking a look over the crowds lined along the streets where the parade was scheduled to pass. Thousands turned out—from the small boy to people well up in years, all seemed unanimous that it was well worth seeing. The parade was scheduled to pass. Thousands turned out—from the small boy to people well up in years, all seemed unanimous that it was well worth seeing. The parade was scheduled to pass. Thousands turned out—from the small boy to people well up in years, all seemed unanimous that it was well worth seeing.

The composition of the parade was fully up to any witnessed here in former years. There appeared to be nothing missing. There were lions and tigers, camels, elephants, seals, kangaroos, potamus, a cage full of monkeys, bears, ostriches and other animals at which the spectators gazed with interest. The detachments of men and women riders in their flashy and pretty costumes attracted considerable attention, while the clowns in usual attire kept up a merry chatter and with their antics evoked a hearty laugh. The members of the bands lived things up with their "jazz" numbers, while the pipe organ with its weird harmonious strains added to the excitement as it passed along.

CHICAGO WHEAT MARKET.

Chicago, June 20.—Favorable weather for harvesting together with depression in the stock market had a bearish effect today on wheat. Trade lacked volume and prices were easily influenced.

Opening prices, which varied from 1.3 to 1.14 cents lower, with July 1.27 to 1.27 3/4, and September 1.22 1/2 to 1.23, were followed by material further setbacks and then something of a rally.

Corn declined also. After opening 5.8 off to 1.2 up including September at 63.8 1/2 to 64 the market underwent a moderate general fall.

Oats were governed by the action of other cereals, starting unchanged to 1-1 cent higher, September, 39.8 to 39.7-8, and then undergoing a sag all around.
