KING WILL PUNISH COURT MEDDLERS

Democratization of Court First Before Army is the Report.

(Special Cable to Montreal Daily Mail) London, April 12.—From a member of court circles highly qualified to judge the events of the last two weeks growing out of the Ulster crisis aroused in the royal circle interest which at times developed into excitement.

Gossip is busy with names of several who it is said will before long cease to derive reflected glory from their present close association with the king, owing to the part they are believed to have played in the political crisis.

A democratization of the court, in fact, will probably be realized in some measure by the initiative of the king himself before the democratization of the army, to which the Liberals have threatened to have recourse.

THE SEALING DISASTER

St. John's, Nfld., April 4.—The steamer Bellavente, bringing thirty survivors and most of the bodies of the seventy-seven members of the crew of the sealing steamer Newfoundland, who lost their lives in Tuesday's storm, was thirty miles off this port at daylight. Heavy ice was so impeding her progress that it was thought probable she would not come into the harbor until late in the day.

The steamer Kyla, fitted out by the government, sailed early today to search for the missing sealer Southern Cross which, with 170 men on board, was last sighted on Tuesday morning off the southern coast, just to the westward of Cape Pine. The Kyla is equipped with wireless apparatus.

FLOATING HARBOR CRANE

PLANS SHOWN MAYOR

BY CAPTAIN MULCAHEY

Captain A. J. Mulcahey called on Mayor Frink this morning and showed him plans and designs for a floating harbor crane capable of lifting eighty tons, of the type recommended by shipping men for use in this port.

The mayor said that when the plans for the new wharves at West St. John were drawn he was assured by Hon. Mr. Pugsley, then minister of public works, and since then by Hon. J. D. Hazen, that the new docks would be equipped with every device of the most modern kind for the economical and expeditious handling of cargo and that at these wharves at least full provision would be made for handling heavy weights. Regarding the other wharves he said the expense was too great for the city to bear but that the plan might be provided by local people as a private business venture or the federal government might be asked to provide the crane.

More than 300 have accepted pleas of the evangelist in Carleton.

Interest in the evangelistic services in the City Hall continues unabated. People crowded the hall last evening to hear Doctor Burrows speak on "Fire from Heaven." Yesterday afternoon the evangelist delivered a sermon to women only. The hall was well filled.

Up to date more than 300 persons have decided to live the Christian life. Fifty-seven took their stand yesterday. The preaching of Doctor Burrows is not of the extreme sensational kind, but it is of the kind that pierces through the clouds of jealousy, strife, dishonesty, disloyalty to God, and the rejection of Jesus Christ. The illustrations that he uses have all been gleaned from his own experiences in the pastorate and the evangelistic field.

Sweden's King Ill.

Stockholm, Sweden, April 4.—The condition of health of King Gustava continues to cause general anxiety, which was not allayed by the issue of a bulletin by the court physicians, who stated:

"Although the health of the king has improved during the last week, and although there is no ground for uneasiness, the royal physicians have recommended His Majesty to continue his treatment at the world's fair in Chicago in 1922. He was a Fenian raid veteran."

It's Quite Needless, Nourish the Hair

Roots—Remove Dandruff—Use Parisian Sage

If your hair is getting thin, losing color, or has that matted, lifeless and scraggy appearance, the reason is evident—dandruff and failure to keep the hair roots properly nourished.

Parisian Sage applied frequently for a week and then occasionally just as it is needed, it removes dandruff with one application; almost immediately stops falling hair and itching head; cleanses, cools and invigorates the scalp and makes dull stringy hair soft, abundant and radiant with life. Equally good for men, women or children—everyone needs it.

This refreshing hair tonic can be had at any drug or toilet counter in 50 cent bottles only, always sold with agreement to refund the money if you are not satisfied.

Get a bottle at once. Delighted users say Parisian Sage is the best and most invigorating hair tonic made.

NO VOTE FOR SPINSTER

Mrs. Tyler Makes Motherhood Pre-requisite to Ballot—Urges Full Sex Equality.

Woman must fulfill all her natural obligations as wife and mother before she is entitled to the vote.

The glorious age of woman is forty-five.

Woman does not need the vote as much as men. She has equal rights in the home.

These and a few other telling remarks recently made by Mrs. G. V. Tyler, daughter-in-law of President Tyler, have been the subject of much discussion.

When seen in her studio at 132 East Twenty-third street, New York, Mrs. Tyler said:

"From Florida to Kansas letters have come; illiterate jokers, men and women, clerics from college professors, and caustic epigrams from suffragists all have been voicing the same question—how long would it take before the United States can or cannot be counted upon to accept the obvious meanings of treaties and agreements with foreign nations?"

"If the mighty Anglo-American race in the United States, which has received the imprint of Anglo-Saxon character, allows it to be said that the United States does not respect treaties, a crippling blow will have been struck at the value of international relations would be changed and the world would be different."

CROWN FINISHES IN KRAFCHENKO CASE

Morden, Man., April 3.—The crown today finished its case against John Krafchenko the last witness conceding his evidence just at the hour of adjournment. Seventy-two witnesses have been heard for the crown since the case commenced, each forming a link in a remarkable chain of evidence.

Ruthless Slaughter of Salmon

Washington, April 4.—Delegated Washington of Alaska told the house territories committee yesterday that unless quick action were taken by the government to prevent ruthless slaughter of salmon in Alaskan waters there would not be a salmon left along the coast of the territories. He said the trap men used on the Alaskan coast were so numerous that the poles looked like a forest and the fishermen went out to sea in power boats to take the salmon before they got near the shore.

Outlook—"A sagging in prices may be expected to continue for some time after recessions good stocks should be bought."

Montreal Market.

Montreal, April 4.—See no reason to change opinion as to the market generally. Life will have reactions and how far they will go no one can say, but the case in money and the prospects of greater ease will be enough to prevent any serious decline. It may necessitate a wait for those holding securities, but feel that when the real movement in the market comes, it will be in the direction of much higher prices.

Now Bishop of St. Augustine.

Rome, April 4.—The Pope has appointed Rev. Michael J. Conley, rector of St. Peter's, Deland, Fla., to be bishop of the diocese of St. Augustine.

All Eyes Turned On

Lieut.-Governor Wood

(Continued from page 1)

In every part of the province people are saying that there must be no more financial legislation until there has been a show down.

"No more millions until they have accounted for the millions already provided." That is the sentiment, and the government, desperate as it is, realizes it. There is general hope that Governor Wood will put his foot down before Monday or Tuesday. It is to him that the province is looking now. His intervention would prevent a crime.

North Shore Alarmed

The people of the northern part of the province are becoming alarmed over the situation in connection with the St. John Valley Railway. Their chief interest in the matter of course is to have the general financial interests of the province safeguarded in connection with this railway. The Northern Light, published in Bathurst, reviews the situation and points out that two years ago Premier Fleming assured the country that the work would be of great benefit to the province, and that the standing of the province seemed secure from jeopard. Continuing the Northern Light says:

"If a further guarantee is necessary to finish the road, there must have been some very bad figuring somewhere. We are not sure that there is no business in sending money after bad, and unless the future of this road is guaranteed in such a way that there can be no possibility of disappointment, it would be better for us to stop where we are."

A correspondent of the Campbellton Graphic, who deals largely with the subject, and points out the significant fact that the matter of the additional bond guarantee was kept in the dark until a question asked by the opposition brought out the information that such a

request was made. The writer says that everyone seems to realize that the province is facing a crisis, and calls upon every well wisher of New Brunswick to set aside party and save the province from disaster. This writer appears to think that A. R. Gould must have deceived the premier, and that therefore any further promises made by the St. John and Quebec Railway Company should not be readily accepted. He says there is no certainty that the company can complete the work with the assistance now advanced. He declares that no promises made by either Premier Fleming or Mr. Gould could satisfy the province, and that the only way to save the province from a very heavy financial burden upon the province, and after discussing the various proposals, that the government should itself complete the road, or that the Dominion government should finish it as a part of the Intercolonial, or that the bond guarantee now asked for should be granted, concludes as follows:

"But to all these propositions, what has the northern New Brunswick to say? In the face of the apparent bungling that has characterized this railway undertaking, can we in the north, expect the aid which is rightly due us in the matter of opening up new country and developing the old parts by railway facilities? Northern New Brunswick is the only province in the Dominion that is increasing in population and opening new farm lands. Very soon we will have to ask for more railway facilities. If the province is to be burdened by the St. John and Quebec Railway Company, we may not reasonably expect our demands to be met, but we must encourage the representatives of the northern counties to the present situation is a very embarrassing one. What will they do? The future alone can answer that question."

HONOR OF UNITED STATES AT STAKE

London Spectator Says Action of Senate on Panama Tolls Bill is Awaited With Interest.

London, April 4.—The Spectator, commenting upon the status of the Panama canal tolls bill in the United States Congress, says in an editorial to-day:

"The honor of the United States is now at stake before the whole world. We do not think we shall be charged with affecting the honor of the United States by the question whether British ships are or are not to pay more than their share for the up-keep of the canal is as nothing compared with the question whether the United States can or cannot be counted upon to accept the obvious meanings of treaties and agreements with foreign nations."

"If the mighty Anglo-American race in the United States, which has received the imprint of Anglo-Saxon character, allows it to be said that the United States does not respect treaties, a crippling blow will have been struck at the value of international relations would be changed and the world would be different."
