## SAYS THEY MUST HAVE HAD BIG PROFITS BEFORE

(New York Evening Post)  
What is described in the despatches as a "wave of price-cutting" at department stores throughout the country, with the American way of doing things. The overnight reductions reported as ranging on certain articles from 20 to 50 per cent, may fairly be characterized as mere fact of such instantaneous reductions proves several things. One of them is, that the profits previously made or expected from the sale of this merchandise, at the former scale of prices must have been very large to admit of such reductions. Another obvious inference is that the people who really lost their heads, in the lately prevalent notion that no limit could exist for the rise of prices, the sublimely stupid buyers and the expansion of credit, were not the general public, but the manufacturers, middlemen and merchants.

This second consideration, we presume, explains why the "price-cutting" seems thus far to have converged on "boring." If cost of raw material were the determining influence, then the fact that wool costs 40 per cent. more than a year ago and cotton 37 per cent. more would seem to warrant the high prices for finished goods. But this week's events show that what has happened was the result of the dealers in clothing, to the extent that they accumulated very large stocks in the firm conviction that they could "sell them at the greatly advanced prices." The consumer, however, had a word to say regarding this.

But if the public chose to go on wearing its old clothes and the prospect opened of the season ending with great stocks of unsold goods on the merchants' hands, then the further prospect opened of the necessity for granting extension of the bank loans which had been created in the expectation of their prompt repayment from the receipts of the retail sales. With other demands on credit what they are, such a situation could not be accepted by the banks. The cut in prices, therefore, had to be put in force on a scale sufficiently large to insure disposal of the accumulated merchandise.  
To what extent the same process will have to be applied in other necessities depends on the question, how far dealers in such goods have indulged in similar misjudgment of their market. The National Association of Manufacturers, which held its final session in this city yesterday and whose resolutions reach through many industries, declared itself by formal resolution "in hearty accord with all sensible efforts to reduce prices of commodities." This was explained as meaning that "the manufacturers see the necessity of reducing prices for their varied products as much as conditions and costs of production will permit," and the Journal of Commerce states that the feeling of many delegates was that "this modification should be in the neighborhood of 25 per cent."  
Such a decision might not be altogether voluntary for the attitude taken by the Federal Reserve board, in its conference with bankers this week at Washington, has clearly foreshadowed not only discrimination by banks against borrowers for non-essential purposes, but discrimination against borrowers who want credit for the purpose of avoiding sales of goods below the prices which they had expected to obtain. In this regard we are plainly at the beginning of a process of readjustment. From the financial viewpoint the reassuring fact is the evidence that there are hosts of buyers, able to meet the market when they believe that prices are again at a reasonable level.

## A New Blood-Food Has Been Discovered That Works Wonders

SAID TO PUT NEW LIFE INTO PEOPLE THAT ARE RUN-DOWN.

For years doctors have been searching for a combination that would enable them to inject into thin blood the elements it lacked. This can now be done, and any weak-blooded person can quickly be made strong and well.  
Already a small army of ailing people has proved the merit of taking after each meal with a sip or two of water, two chocolate-coated Ferrozene Tablets. This is easily done, and even one week's use of this wonderful blood-food will prove how nourishing and strengthening and flesh-building the treatment is.

Just think of it—Ferozone uplifts the entire nervous system, removes the sort of acid that's needed in throwing off weakness and languor.  
Tens of thousands enjoy the advantages of renewed health through Ferrozene—if you'll only use it, you'll surely grow strong too; its beneficial action is noticed even in a week. You see it goes right to work, removes the causes of the trouble and then quickly makes a cure. For those who sleep poorly and have nervous apprehensions, Ferrozene is a boon; it is a specialist in such cases. Where there is paleness, poor appetite and languor, Ferrozene makes the patient feel like new in a few days.  
In tiredness, nerve exhaustion, spring fever and debility, the power of Ferrozene is known from coast to coast and universally used with grand results. Let Ferrozene build you up, let it win you back to robust health—it will do so quickly if you give it the chance. Sold by all dealers. 50c. per box or six boxes for \$2.50. Remember the name Ferrozene.

Immigration from the Old Country, but a limited number of girls might be obtained if the provincial governments would make a part of their passage money, declared Mrs. Charles Robson, who has recently returned from investigating conditions in England and Scotland on behalf of the Dominion government. The result of Mrs. Robson's investigation reveal the fact that England's war conditions have succeeded in diminishing the servant class to such an extent that in England alone there is a shortage of 40,000 servants.

## SAYS WORKINGMAN SHOULD HAVE FACTS

Chicago, May 29.—Sherman Rogers, former Oregon lumberjack, and now a teacher and preacher of industrial facts to the workers, was warmly welcomed by the Industrial Relations Convention.  
"For the last twenty years," said Mr. Rogers in a speech at one of the sessions, "between thirty-five and forty thousand wide awake radicals who have rolled up their sleeves and gone into the mines, mills, lumber camps, and every other industry in the United States, have mingled with the workers, have met them on their own ground, and have poured out their radical teachings in a vigorous manner, morning, noon and night."  
They have succeeded in convincing hundreds of thousands of honest workingmen that the United States government is ruled by a few cold-blooded Wall Street magnates; that the trusts that greedily control the senates and houses, both national and state; have convinced them that corporations control the courts, and, but not least, they have thoroughly convinced scores of thousands that capital is making from ten to one hundred times the amount of profit they actually are making; they have convinced the workers, by black and white figures and magnetic arguments, that when a man works a constant number of hours in the morning he has earned all that he will receive for eight or ten hours of hard work. In other words, they convince the worker that it is extremely foolish to work hard for eight hours when six hours of that hard work goes into the boss's already swollen pockets.

"And, while this army of radical agitators have been industriously working twenty-four hours a day in every industrial district of the country implanting gross misrepresentations in the minds of the workers, what have the employers and other American doers done to counter the same work? It will not take a college professor to answer this question. Until a few months ago practically nothing had been done to educate the worker along the lines of truth. Is

## FRECKLES

Don't Hide Them With a Veil; Remove Them With Othine—Double Strength.  
This preparation for the removal of freckles is usually so successful in removing freckles and giving a clear, beautiful skin, that it is sold under guarantee to refund the money if it fails.  
Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.  
Be sure to ask the druggist for the double strength Othine; it is this that is sold on the money-back guarantee.

## IF YOUR EARS RING WITH HEAD NOISES

If you have roaring, buzzing noises in your ears, are getting hard of hearing and fear the longest time, go to your druggist and get 1 ounce of Parmitin (double strength), and add it to 1/4 pint of hot water and a little grape-sugar. Take 1 tablespoonful four times a day.  
This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal trouble of the ears, is hard of hearing or has head noises should give this prescription a trial.

It any wonder that not only workingmen, but thousands and thousands of industrial statistics as the few radical agitators have been reaching the workingmen with inflammatory false documents, I say not a bit. The biggest wonder to me is that the agitator didn't cause a whole lot more trouble than he actually did. The present unrest is caused not so much by the activities of the agitator as it is caused by the passiveness of the employer and other citizens who call themselves Americans. If these same people had taken as much of their valuable time in educating the

## DO YOUR EARS RING? HAVE YOU CATARRH?

A buzzing noise in the head is the beginning of chronic Catarrh. If not checked the result is deafness. A simple remedy that many physicians advise is to slowly inhale Catarrhoseone a few times each day. The soothing vapor of Catarrhoseone cures the Catarrhal condition, and hearing improves at once. Head noises, buzzing ears are cured. For Catarrhal deafness, throat, nose and lung Catarrh, there is probably no remedy so efficient. The large one dollar outfit lasts two months and is guaranteed; small size 50c.; trial size 25c. Sold everywhere by dealers, or The Catarrhoseone Co., Kingston, Ont.

## Face Peeling Habit Becoming Fashionable

Women of fashion and refinement seem to have been acquiring the mercenary wax habit, depending less and less upon cosmetics for their complexion difficulties. It does seem a lot sner to just peel off the worn skin when it loses its youthful color and appearance—now that this can be done so easily, safely, painlessly and economically.  
There is no trouble getting mercenary wax at any drug store (an ounce will do), since its virtues have become generally known here, and there's no trouble using it—just as you use cold cream, applying at night, washing it off next morning. The wax takes off the old, scurf skin, in tiny flakes, a little each day. The new under-skin that gradually appears, is velvety soft and beautifully white, radiant with girlish loveliness. Any surface trouble like pimples, red or yellow patches, freckles, etc., vanishes of course with the discarded cuticle.

## Curl Hair This Way and Keep It Healthy

It has been found that the use of a harmless fluid which druggists know as "silimerine" will keep the straightest hair in curl for the longest time, giving it the appearance of true naturalness, besides keeping the hair softer and glossier than possible with the heated iron. The liquid should be applied with a clean tooth brush before doing up the hair, drawing the brush through the hair from crown to tip. The hair will be beautifully wavy and curling, and will lie easily and loosely on the head, as it should, considering its welfare. A hygienic standpoint. A few ounces of liquid silimerine will last for months and as it is really beneficial to the hair, it should be generally adopted by the fair sex. It will not spot or discolor scalp or hair, nor leave any sediment, grease or stickiness.

## Constipation, Piles and Stomach Ills Can Be Cured By Internal Bathing.

Constipation is the cause of most of the ills common to people now-a-days. It comes mostly from neglect in not feeding the signs which nature has been trying to give us that everything is not right within. Stomach ills, headache, loss of appetite, impure blood, rheumatism, pains in the back, lack of energy and sleeplessness are in most cases due to imperfect elimination or constipation. To be healthy all the time you must be clean inside, and the J. B. L. Cascade, used with pure sterilized water, is the only perfected appliance ever devised for this purpose. It is easy, pleasant to use, and any member of the family can be benefited by its use.  
When the system is kept clean, there is no chance for germs to lodge and the many ills easily contracted under other circumstances will be avoided. Thousands of Canadians have been restored to perfect health by the J. B. L. Cascade. If you don't feel well all the time, just try Internal Bathing. Then you will appreciate the advantages it has over any other means of restoring your health. Piles are dangerous. Don't be continually taking medicine for constipation. Bathe Internally.  
The J. B. L. Cascade is now being used in thousands of Canadian homes, all of whom appreciate its wonderful value. It is being shown and explained by E. Clinton Brown, Druggist, Union and Waterloo streets, St. John. F. N. Munro, Dispensing Chemist, 357 Main street, St. John.

## What You Will Be Tomorrow Depends Upon What You Do For Your Health Today--

You Must Keep Your Blood Filled With Iron To Stand the Strain of Modern Day Life Says Physician—Explains How

## Nuxated Iron Helps Build Red Blood

Strength and Endurance

Have you ever stopped to look yourself squarely in the face? Are you getting anywhere—or just drifting—a little weaker, a little more nervous, a little more run-down every day? Nothing slips away so easily as HEALTH. Unless YOU hold fast to HEALTH by your own efforts—by keeping your blood pure, red and rich in iron—the day may come when all you can do is WISH you had acted sooner. Physicians explain below how to help make rich, red blood and increase strength, power and endurance, through the health-giving, strength-building power of organic iron—Nuxated Iron—which is now being used by over three million people annually.  
"Success is in the blood," says Dr. John J. Van Horne, formerly Medical Inspector and Clinical Physician on the Board of Health of the City of New York. "There are men who fate can never down. They triumph over difficulties and ill-fortunes because they have within them the never-failing source of courage, confidence and power—pure, red blood, rich in stamina-building iron. Where others hesitate and stumble, these men march forward with a firm step and take the best prizes of life. Their brains are keenly alive, their bodies are fortified with the strength and energy that enables them to take and keep the best the world has to offer. But in the rush and tear of modern day life, many

that stamina and strength of will which are so necessary to success and power in every walk of life. I strongly advise every man who is fagged out by worry, work and other strains to build up his strength, energy and endurance by taking some form of organic iron—Nuxated Iron—for I consider it one of the foremost blood and body builders; the best to which I have ever had recourse."  
Manufacturers' Note: Nuxated Iron, which is prescribed and recommended above by physicians, is not a secret remedy, but one which is well known to druggists everywhere. Unlike the older inorganic iron products, it is easily assimilated and does not injure the teeth, make them black, or upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money.  
It is dispensed in this city by Ross Drug Co., S. McDiarmid, E. Clinton Brown, Wasson's Drug Store and all good druggists.

## Eye Specialist and Medical Author Report on Wonderful Remedy To Strengthen Eyesight

Say It Strengthens Eyesight 50% in One Week's Time in Many Instances.

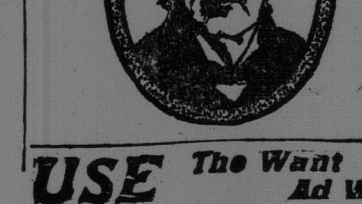

New York.—Dr. Smith, a well-known eye specialist, and Dr. Juddkins, a Massachusetts physician and medical author, make the following reports after a thorough test of a popular remedy for the eyes:  
Says Dr. Smith: "When my attention was first called to it I was inclined to be skeptical. But it is a rule of mine to give every new treatment a chance to prove its value. Having specialized in eye work for many years I feel qualified to express an intelligent opinion on remedies for the eyes. Since this one has created such a sensation I welcomed the opportunity to test it. I began to use it in my practice a little over a year ago and I am frank to say that some of the results I have accomplished with Bon-Opto not only astonish myself but also other physicians with whom I have talked about it, and I advise every thoughtful physician to give Bon-Opto the same careful trial I have and there is no doubt in my mind that he will come to the conclusion I have, that it opens the door for the cure of many eye troubles which have hitherto been difficult to cope with. I have had individuals who had worn glasses for years tell me they have dispensed with them through the use of Bon-Opto. In my own practice I have seen it strengthen the eyesight more than 50 per cent. in one week's time. I have also used it with surprising results in cases of worn-out eyes, pink eye, inflamed lids, catarrhal conjunctivitis, smarting, painful, itching eyes, eyes weakened from colds, smoke, sun, dust and wind, watery eyes, blurred vision, and, in fact, many other conditions too numerous to mention in this report. A new and striking case that has just been brought to my attention is that of a girl of 12 years old. Two prominent eye specialists, after a thorough examination, decided, according to her father, that in order to save the sight of her right eye, the left must be removed. When awaiting an opportunity for the operation and still undecided as to its wisdom, her father was told it would do no harm to use Bon-Opto. In less than three days a marked improvement was noticed. At the end of a week the inflammation had

almost disappeared, and at the end of six weeks the eye was pronounced saved. Just think what the saving of that eye meant to this little girl! Another case is that of a lady 90 years old. She came to me with dull vision and extreme inflammation of the lids and the conjunctiva was almost raw. After two weeks' use of Bon-Opto the lids were absolutely normal and her eyes as bright as many a girl of 16."  
Dr. Juddkins, Massachusetts physician and medical author, formerly chief of clinics in the Union General Hospital, Boston, Mass., and formerly house surgeon at the New England Eye and Ear Infirmary of Portland, Maine, says:  
"I have found oculists too prone to operate and oculists too willing to prescribe glasses, while neglecting the simple formulas which form the basis of Bon-Opto, which in my opinion, is a remarkable remedy for the cure and prevention of many eye disorders. Its success in developing and strengthening the eyesight will soon make eye-glasses old-fashioned and the use of Bon-Opto as common as that of the tooth brush. I am thoroughly convinced from my experience with Bon-Opto that it will strengthen the eyesight at least 50 per cent. in one week's time in many instances."  
Victims of eye strain and other eye weaknesses and many who wear glasses will be glad to know that according to Dr. Smith and Juddkins there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable remedy and many who once wore glasses say they have laid them aside. One man says after using it:  
"I was almost blind. Could not see to read at all. Now I can read everything without any glasses and my eyes do not hurt any more. At night they would pain dreadfully. Now they feel fine all the time. It was like a miracle to me."  
A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can read even fine print without glasses." Another who used it says: "I was bothered with eyestrain, caused by overworked, tired eyes which induced

for several years, both for distance and close work, and without them I could not read my own name on an envelope or the typewriting on the machine before me. I can do both now and have discarded my long-distance glasses altogether. I can count the fluttering leaves on the trees across the street now, which for several years have looked like a dim green blur to me. I cannot express my joy at what it has done for me."  
It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited in this easy manner. Go to any drug store and get a bottle of Bon-Opto tablets. Dissolve one tablet in a fourth of a glass of water and use from two to four times a day. You should notice your eyes clear up perceptibly right from the start and inflammation and redness will quickly disappear. If you eyes bother you even a little, it is your duty to take steps to save them now before it is too late. Many hopelessly blind might have saved their sight if they had cared for their eyes in time.  
NOTE.—Another prominent physician to whom the above article was submitted, said: "Yes, the Bon-Opto prescription is truly a wonderful eye remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. I have used it very successfully in my own practice on patients whose eyes were strained through overwork or mist glasses. It is one of the very few preparations I feel should be kept on hand for regular use in almost every family." Bon-Opto referred to above, is not a patent medicine or a secret remedy. It is an ethical preparation, the formula being printed on the package. The manufacturers guarantee it to strengthen eyesight 50 per cent. in one week's time in many instances and refund the money. It is dispensed under guaranty by all good druggists in this city, including Wasson's Drug Store.
