less System. London, Aug. 2—At a meeting of the Angio-American Telegraph Company yesterday, the chairman, Francis A. Bevan, said nothing had occurred so far as he knew to alter the opinion of the directors, that although wireless tele-graphy would carry a certain class of telegrams, such as those between ships or between ships and the shore, there was no reason apparent jwhy it would compete in the class of telegrams sent by cable companies. During a conversa-tion the other day with Lord Kelvin the latter said to Mr. Bevan: "I have given careful consideration to this subject, and I don't believe the shareholders of your company need be alarmed at the pros-pect of wireless telegraphy."

Calmer estimates of the significance of the Liberal victory in this week's parlia-mentary election in Leeds indicate little real basis for the renewed hopes that the Liberals are gaining control of the gov-ernment. The government, has been severely lectured and solemnly warned this week, not only by its opponents, but also by some of its staunch journalistic supporters, but the opposition's enthusi-astic prophecies about early getting to-gether of all branches of the opposition were pretty effectually squeched by Lord Rosebery's dispassionate reiteration that he has No Intention of Abandoning

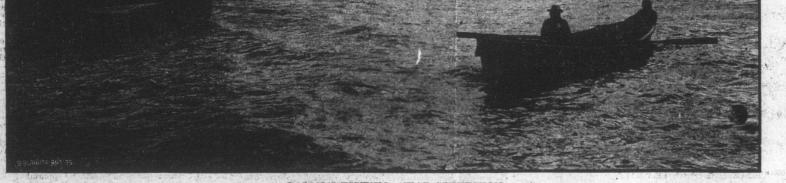

No Intention of Abandoning

No Intention of Abandoning the Imperialistic platform and the equal-ly stubborn contention of the Radicals that they will not relinquish Home Rule as a standard party issue. In politely deploring Lord Rosebery's utterances, the chief Liberal organ dis-appointedly remarks: "We do not think Lord Rosebery quite realizes the pas-sionate desire for unity that exists 'among Liberals thronghout the country, mor the passionate desire to arrive at it with or without leaders." The paper scolds the Liberal leaders for their folly in splitting hairs at a time when the govscolds the Liberal leaders for their folly in splitting hairs at a time when the goy-ernment is floundering in the labyrinths of the patched up Education Bill and is "nevealed to the country to be without aim or policy." The confessed inefficiency of the post office telegraph service is revealed in a circular of instruction to the effect that a considerable percent of the 3,000 per-sons employed
