

I Give It Free.

TO MEN UNTIL CURED.

NOT ONE PENNY IN ADVANCE OR ON DEPOSIT.

I wish you could know for yourself the wonderful effect of the galvanic current on weak and nervous men. I wish you could realize the health and happiness that will be yours when this wonderful force infuses every nerve and vein of your body as accomplished through my treatment. I have been curing thousands every year for forty years, and have proved that my method will cure any curable case. No positive cure in I of my power. I am prepared to take all the risk, and will give to any man suffering from Nervous Debility, Varicocele, Loss of Vision, etc., or from Rheumatism, Lame Back, Kidney, Liver or Stomach troubles, the use of my world-famous Dr. Sanden Electric Belt, with Electric suspension, absolutely

Free Until Cured

If I find you don't pay me anything whatever, I want you to be the judge, and ask not one penny in advance or on deposit. I cannot do more than that to prove the value of my treatment, so if you will call on me I will give you a Belt, suited to the requirements of your case, and you can pay me when cured. Or for cash full wholesale discount. You will also get the benefit of the immediate advice my Belt gives you, and you can pay me when cured. This long continuous success has brought forth many imitations. Beware of them. You can't try the original, the standard of the world, free until cured, third day for it.

Call and take a Belt, and for one by mail. I have two of the best books ever written on electricity and its medical uses, and the latest and most complete electrical testaments, which I also send free, sealed, by mail.

DR. E. T. SANDEN,
140 YOUNG STREET, Toronto, Ontario
Office Hours, 9 to 6; Saturday Until 9 p. m.

CONFESSION IN SIGEL MURDER

NEW YORK, June 23.—Under the pressure of the third degree, Chung Sing, one-time room mate of Leon Ling, told this afternoon of his Sigel murder. He admitted that he had seen the body in Leon Ling's room, and that he had touched it while it was still warm; that he had smelled drugs and had watched Leon Ling's preparations for placing the body in the trunk where it was found, completely decomposed on Friday night last.

In fact, Chung Sing, it was learned at the criminal court building, is correct, described almost everything concerning the murder of Major Francis Sigel's grand-daughter except the actual commission of the crime. He denied any implication in it, and protested stoutly that he was ignorant of the whereabouts of Leon Ling, the supposed murderer. But after the investigation he was taken before Coroner Harvey and held in \$10,000 bail in the house of detention to await the inquest.

Chung Sing is 35 years old and a native of Canton. Arrested Monday he was arrested yesterday morning at West Galway, N. Y., a small hamlet near Amsterdam and was brought to New York this morning in the custody of Detective John Forbes. Immediately after his arrest up-state and all during the trip by train to the city, he was piled with questions, but it was not until late today, however, that he told of the death of the young missionary which has aroused the whole country. Then, smoking cigar-

AFTER SUFFERING TEN YEARS

Cured by Lydia E. Pinkham's Vegetable Compound

MARLBOROUGH, N. J.—I feel that Lydia E. Pinkham's Vegetable Compound has given me a new life. I suffered for ten years with serious female troubles, inflammation, ulceration, nervousness, and could not sleep. Doctors gave me up, as they said I was incurable. I was in despair, and I was not sure whether I lived or died, when I read about Lydia E. Pinkham's Vegetable Compound; so I began to take it, and am well again and relieved of all my suffering. —Mrs. GEORGE JONNY, Box 40, Marlboro, N. J.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and today holds the record for the largest number of actual cures of female diseases who know of, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

PERFECT LADIES WHO SWEAR AND ARE HARDENED SOUSES, FIGURE IN DIVORCES

Castle Boozie Hears Accomplished Caser—Mrs. Rikley Wins Her Suit—Discredited Servants Accuse Mrs. Heaver.

WOMAN CAN CURE FOR 45 MINUTES.
CASTLE BOOZIE, Pa., June 23.—Judge Nott has decided to admit the casting of Mrs. Howard Boozie as evidence in her suit for divorce, and on Monday more testimony to show her proclivity in this direction will be taken. In his opinion Judge Nott held that the accomplishments of Mrs. Boozie were admissible, since they tended to fix her position in society. He also said that swearing was an acquired art and the more capable persons were the greater were the demands made upon them.

Part of the character witnesses were heard on Saturday. "To my knowledge," testified Anton Custer, the chauffeur, "my mistress can swear in three languages fluently, and in two others she knows enough words to carry on a conversation. Her best work, of course, is in English. In this language she can swear forty-five minutes without repeating herself."

"She swears like a person of position, choosing her words with admirable care and force. Upon one occasion, I heard her address a few remarks to a badly cooked piece of beef. Her comments were so hot, that, before she had finished, the meat was scorched black."

"When she is in form, she can dam up a stream without much effort, simply by a well-directed use of sonneted words."

THIS LADY CALLS HER HUSBAND 'CHIMPANZEE.'
TALKING, Pa., June 23.—After being of the witness stand for two days and nights, relating her woes, Mrs. Joe Foster believed that she had been granted a divorce from her brutal husband. Some of the stories she related of the ill treatment given her during her four years of married life caused hardened court attaches to weep.

"Time and time again," said she, "I have called my husband a sneaking little scoundrel and dared him to strike me, and he has hit me, he has absolutely ignored me. When we were on our vacation in the North Sea, and I was exhausted by running the boat, I needed a case of brandy, he told me to swim ashore if I wanted a drink."

"I told a guest that my husband was a second-hand, corrugated case and an epileptic chimpanzee, and when the monster heard of it, he told me that I was insane. And I bore this insult, merely reproaching the insignificant scoundrel with my own words."

"I did not have a chance to tell my full story. They should have proved that I was a lady of quality and refinement, who wouldn't stand for such a case of brandy."

OUTSTED SERVANTS.
ACQUAINTANCE MISTRESS.
FIREFIGHT, Pa., June 23.—More than sixty former servants of Mrs. Charles Heaver have given their testimony at the trial of the alleged lady. All of these were bound by Mrs. Heaver, and they want to testify to her ability in discrediting her own.

James Harder, who had a record of six days' occupation as a butler, said: "I was going about my usual way, picking up a few things here and there, when the door of the pantry opened with much speed, and behold the second valet walking on his ear. His momentum was so great that he broke a large refrigerator. He told me that Mrs. Heaver had just served notice on him."

"He took a dislike to a waiter and discharged him with a heavy carafe. He was in the hospital ten days and was forced to pay for the water used by him. One day when four servants were moving a sewing machine across the room she became infuriated with their clumsiness and threw them out of the third-story window. 'I won't need you any more!' she shouted, as she dropped the machine upon them."

Her best record was firing ten gardeners in six seconds. She said they were plants put down by her husband, and placed in the trunk.

SPENT ONLY \$12,000.
DRESDEN, STATION, Pa., June 23.—It was brought out during the trial of the Blister divorce case that Mrs. Blister spent less than \$12,000 a year on her wardrobe. Her husband, when placed upon the stand, admitted that this was true. When he left the courtroom he was mobbed by infuriated women who hurled taunts and bricks at him.

The plaintiff, who is suing for palm beach, she was forced to wear a pair of shoes twice. This created such a

also held in connection with the case. Incidentally he says that Leon Ling and Chu Gai had come to blows over the girl in Chinatown some weeks ago. The police theory is that Leon killed the girl because of her attentions to Chu Gai.

The confession today serves but to clinch the already prevalent belief that Leon Ling killed the twenty-year-old girl.

DODD'S KIDNEY PILLS

BEAUTY PARLORS' SCIENTIFIC RIVAL

London Hospital Enters Into Competition.

Injection of a Few Million Disease Germs Affects an Almost Instantaneous Change in Complexions.

LONDON, June 23.—The beauty parlors of London have a serious and scientific rival in the inoculating department at St. Mary's Hospital. Here the staphylococcus is being renovated and revived by the latest scientific treatment.

The injection of a few millions of disease germs into the tissues of the shoulder or flank can transform a sluggish, blotchy complexion to a normal healthy skin, according to a doctor at the hospital. The best results are obtained in the case of muddy, sallow complexions due to sluggish action of the skin glands.

The disease here is caused by a recently discovered germ named the acne bacillus. In other cases where the skin is tender and painful another germ, the staphylococcus, is usually found as well. The treatment consists of injecting under the skin vaccines composed of one or both of these two bacilli, according to the symptoms of the case.

The ordinary patient seeking treatment for a bad complexion will receive in his first dose about 125,000,000 of staphylococcus, with perhaps 5,000 of the acne bacilli. The vaccines are manufactured in the laboratory and are supplied in glass bulbs, each holding about a teaspoonful. One of these bulbs is sufficient for three or four doses and contains over 600,000,000 of the bacilli.

Where the new treatment has a great advantage over the beauty parlors is in the fact that the patient is required to accomplish results. A tiny patch of skin on the shoulder or flank is washed and sterilized and the vaccine injected, with a hypodermic syringe. The whole treatment takes only a minute or two and the patient has only to go home and wait results.

LACK OF BLOOD

Is What Causes Headaches, Dizziness and Heart Palpitation

On the whole depends the welfare of the whole body. Where good blood circulates, the body is healthy. The blood is poor and watery disease quickly follows. ST. CHARLES' EVAPORATED CREAM

Nature's food for the weak as well as for the strong is pure milk. The same of purity and excellence in milk products is St. Charles' Unsweetened Evaporated Cream. It is not merely the best infant food. It is also the best food for mothers. It is better than ordinary milk or cream for all purposes. For many purposes it is vastly superior. It is made on scientific principles, will keep forever, and is always pure. It never curdles. You take no chances when you use St. Charles' Cream.

Handsome booklet of valuable information to mothers and nurses sent FREE upon application. Sold by Best Grocers Everywhere. ST. CHARLES CONDENSING COMPANY, Rogersville, Ont.

FRENCH NAVY IN BAD STATE

PARIS, June 23.—The report of the parliamentary commission which investigated the naval scandals in France has been turned in. It is a scathing condemnation of the naval administration for the past ten years, and it makes an astounding exposure of the deplorable condition of the fleet for which France has spent \$700,000,000 since 1890.

The 360 pages of the report are filled with details of the inefficiency resulting from confusion and red tape, conditions that make French naval construction cost 25 per cent more than English or German. As an evidence of these methods, it is pointed out that cast iron shells of large calibre, containing about a ton of powder, are manufactured in larger quantities than ever for two whole years. The Patrie, the Republique and other large ships of this class, were found equipped with the secondary guns of a model of 1885 instead of 1902, as the specifications required. Neither the ammunition nor the guns for the six ships of the Dupleix type, to be completed in 1911, will be ready before 1914, and France has not a single dry dock capable of accommodating these vessels when they are finished.

Perhaps the gravest feature of the exposure is the lack of reserve coal and ammunition supplies at the various ports and arsenals. One officer testified before the commission that at the end of a naval battle of six hours the ships would find it impossible to replenish and would be virtually out of commission.

The commission recommends the complete reorganization of the department, the elimination of red tape and the distribution of responsibility. It insists especially upon the creation of a department of construction and equipment entirely separate from the general staff.

FINDS FLOWER AFTER SEARCH OF 25 YEARS

Pennsylvania Botanist Succeeds in Getting Specimen Hunted for Since His Youth.

PHILADELPHIA, June 23.—After searching vainly for twenty-five years for a flower of which he was fond in youth, but which ceased to grow in this vicinity years ago, George Redies, of No. 297 Wistar street, secretary of the Germantown Hospital, at last succeeded in procuring a specimen of the plant growing beside the west wall of his house.

The flower is the yellow "moss" or "moss" of the botanical name of which is *Cypripedium parviflorum*. Transplanted from its native home in Brandywine, Pa., it is now growing in a specimen of the plant growing beside the west wall of his house.

INITIAL HEARING IN ROBBERY CASE

NEWCASTLE, June 23.—The trial of Fred McQuestion and Alex. McGrath, arrested at Oak Point last week charged with breaking into and taking goods from Montgomery and O'Leary's store, Leesville, the 15th of May, was begun here today before Police Magistrate Malby. T. W. Butler conducted the prosecution, R. A. Leavitt appearing for the defense. The first witness was R. H. M. Gilker, manager of the store burglarized on May twenty-two. He had found a pane of glass had been removed from the store window and some goods stolen. He has had a specimen of these goods in the police court here in the presence of Deputy Sheriff Irving, Chief Lawson of Chatham, Detective A. J. Little, and the defendant had identified the same.

After several further witnesses had been examined the case was adjourned until Wednesday morning.

SURELY NOT.
Jimmie (aged five)—"I'm going to have a birthday party tomorrow, at six o'clock, 'cause I was born at six on the first of May. When were you born, Bobbie?"

Bobbie (aged six)—"I was born at eleven o'clock on the first of May. When were you born, Jimmie?"

Jimmie (interrupting)—"Ooh, Bobbie! You know your mother wouldn't let you sit up that late!"—Lippincott's.

THE PAIR TOURIST.
Visitor—"And so you're leaving Paris. Of course you've come to the Louvre?"

Fair American—"Yes, I bought this collection there."

Visitor—"Ah, no. I mean the pictures, y' know?"

Fair American—"Then, Mommer! I said there was a gallery by that name!"—Punch.

Mariner (unavoidably detained on desert island)—"Ah, something white coming in. Heaven grant that it is something in the food line!"

A WOMAN'S BACK WAS NOT MADE TO AGHE.

Thousands of Women Suffer Untold Misery Every Day With Aching Backs That Really Have No Business To Ache.

Under ordinary conditions it ought to be strong and ready to bear the burdens of life. It is hard to do housework with an aching back. Backaches come from sick kidneys, and what a lot of trouble sick kidneys cause.

But they can't help it. If more work is put on them than they can stand it is not to be wondered that they get out of order. Backache is simply a warning from the kidneys and should be attended to immediately so as to avoid years of terrible suffering from kidney troubles.

Doan's Kidney Pills will cure you in the same way as they have cured thousands of others.

+++++ Mrs. O. Warren, Radnor, Pa., writes: "I was troubled with very severe pain in my back for years. I tried everything, but they didn't help. I finally took Doan's Kidney Pills and after taking two boxes, I have not been troubled since."

Price 50 cents per box, or 3 for \$1.35, all dealers or mailed direct on receipt of price by The T. M. M. Co., Limited, Toronto, Ont.

When ordering specify "Doan's."

HONORABLY ACQUITTED OF CHARGE OF BURGLARY

Breaks Occurred Last June—First Jury Disagreed—Alibi Proved at Second Trial.

MONCTON, June 23.—James V. Monahan, charged with the charge of burglary, the house of T. R. Wilkes in June, 1909, was today honorably acquitted before Judge Mead at the second trial.

At the first trial the jury disagreed and the court was adjourned until today for a second trial. The defense proved an alibi, and the accused was declared innocent of the charge. It was shown by the evidence that the accused was in Woodstock, N. H., at the time the Monahan and Port Egin burglaries were committed.

MORE MONTREAL FIREMEN BOUGHT THEIR POSITIONS

MONTREAL, June 23.—More revelations of injustice and corruption in the Montreal fire brigade were made before the royal commission this afternoon by Captain Naude, one of the oldest officers, having been connected with the department since 1871. He declared that merit and experience were not taken into consideration when making promotions, and that the firemen were bought by the department.

He further declared that the firemen were bought by the department, and that the firemen were bought by the department, and that the firemen were bought by the department.

He further declared that the firemen were bought by the department, and that the firemen were bought by the department, and that the firemen were bought by the department.

BANDITS MAKE A MISTAKE IN TRAIN

TORONTO, Ont., June 11.—Five masked men, armed with Winchester stopped train 97 at Bucks, B. C. last night. It is supposed they mistook it for No. 5, which was carrying ninety silver bars worth seventy pounds each to the coast. The bandits drew on the train when they found they had made a mistake, but took a boat and started north on Shuswap Lake. Constables are hunting them.

On the walls was this sort of thing. In pretty frames. A Lie in the Teeth is Worth Two in the Mouth.

CANADIAN RIVER FESTIVAL AT WELLESLEY COLLEGE

WELLESLEY, Mass., June 23.—Thousands of visitors of the annual water pageant of the Wellesley College students held on Lake Wales this evening. The weather was warm and mosquitoes abundant, but nevertheless "float night" was a success from every point of view.

A Canadian river festival was fixed upon for this year's special pageant—a festival founded upon historical fact, with its hunters and trappers, Indians and panthers—such characters were portrayed through the pages of Parkman's historical novels. The pageant procession was in four parts.

LENTEN SACRIFICES.
Father gave up billiards (since he lamed his wrist), Sister gave up dancing, Mother gave up what. Folks with no bad habits still may have some hope. They can get in line like me. I have given up soup.

—Bertha Soups in the Circle—
