

SOCIETY FOR PROTECTION OF CHILDREN

The monthly meeting of the Evangelical Alliance took place yesterday. Rev. James Crisp presiding. The other members present were: Rev. David Lang, J. A. H. Anderson, W. O. Raymond, Gideon Swin, A. C. Cohe, Gordon Dickie, Charles B. Appel. The committee chosen to frame a resolution in reference to the twenty-five years service of Rev. Dr. W. O. Raymond in the church brought in its report, which was unanimously carried. The resolution was of a congratulatory nature, felicitating Archdeacon Raymond upon his twenty-five years of active service in the ministry.

LETTERS TO THE STANDARD

Consistency Thou Art a Jewel. To the Editor of the Standard: Sir—I wish to state that I am as staunch a Liberal as the editor of the Standard is a Conservative, and always have been since Confederation but I voted Conservative in the provincial election, because the Telegraph and Times told me that a change was badly needed in this province and our only savior was to elect Mr. Hazen as his party whom they lauded to the very skies as the party of economy and purity.

FAIR MIND.

The Valley Railroad. To the Editor of the Standard: At the present time the subject which seems to engage the attention of both the people and press of New Brunswick is the route of the St. John River Valley Railway.

LIQUOR LICENSE BILL AGREED TO AS AMENDED: THE INDIAN SECTION IS VERY STRINGENT

Special to The Standard. Fredericton, N. B., April 5. — The House met at three o'clock. Bills to amend the Liquor License Act were introduced. The bill was amended and passed. The Indian section is very stringent. Mr. Hazen introduced the section making it unlawful to sell to an Indian under penalty of not less than \$25 nor more than \$50, and the person who obtained, procured or gave liquor to an Indian was liable to a like penalty. The section was agreed to.

SHARP DISCUSSION LIKELY ON THE N. B. MEDICAL ACT

The legislature will probably have a sharp discussion of the bill regarding the qualification of physicians and surgeons, which if it shall become law will be known as the "New Brunswick Medical Act 1909." It is a consolidation of existing laws with some changes. The controversial matter will probably be found in some of the following clauses. Section 15: Every person desirous of practicing medicine in the Province of New Brunswick shall—

F. DUNCANSON'S DEEDS OF VIOLENCE TAKE 6 TO MONTREAL

Horse racing prospects in the provinces are so far from bright that Fred. Duncanson, the local horseman, plans to take his string of horses to the meets in and about Montreal during the coming season. Mr. Duncanson will have a long and pretty string of horses during the coming summer. In addition to Laura Merrill, Etta Mac, and Idle Moments, the three he has now at his farm, he will probably manage three other fast ones when the tracks open.

MUCH INTEREST IN THE INQUEST LAST EVENING

Witness was informed when he first went to the inquest that it had been during the evening. If he had been up it was contrary to witness' orders. Should Be Still. Witness said his orders for treatment of such a case would be to stay in bed until well. If those orders were disobeyed witness would expect to break off from inside of the diseased valve, pass through it, and until some obstruction would be made. Clots in the heart would cling to valves. If they passed on to pulmonary arteries they would cause pulmonary embolism.

DR. WALKER CALLED IN.

On the evening of the 28th inst. Dr. T. Walker was called in in consultation. He worked together until patient died. On 28th witness discovered patient had pain in groin. Witness thought it was due to pleurisy or embolism. To Dr. A. W. MacRae—On March 22 witness was told by Mrs. MacRae that she had been under treatment for two weeks. At that time witness was sure clots were in the heart and probably in the pulmonary artery. On March 13, saw patient for a few minutes. Could not remember conversation. In such a case there was always a danger of a clot breaking away. It would reach the brain next to a clot taken charge of the case.

THE SMALL BALANCE LEFT AFTER THESE TWO ITEMS HAD BEEN PAID BY THE DISASTROUS FLOODS OF JANUARY LAST.

The small balance left after these two items had been paid by the disastrous floods of January last. Not a single dollar of the \$43,000 was left to help a political party. The late Chief Commissioner had admitted that money was spent by the old Government in 1907 and '08 that they might get there, in strong comparison with the honest expenditure by the present administration. Road Expenditure. The Government DESIRED TO SPEND UPON ROADS EVERY DOLLAR AVAILABLE FOR THAT PURPOSE. They realized the great importance of good roads to every part of the country, ESPECIALLY TO THE FARMERS. Under the present administration the roads should improve from year to year.

HISTORY OF WATERLOO ST. BAPTIST CH.

In Waterloo Street Baptist Church last evening in connection with the 67th anniversary celebration, J. S. Smith gave a very interesting account of the history of the church. He said in part: "The history of this church began on April 6th, 1842, when its organization took place in an upper room on Exmouth St. by Rev. Samuel Harte and known as the Vinegar Hill F. B. Church with fifteen charter members. About 1847 a need of a house of their own in which to worship was very much felt and a building was erected on this site and opened for Divine service on Nov. 25th, 1847."

Special to The Standard. Toronto, Ont., April 6.—Fred Appleby the Englishman who has twice been struck by a tidal wave, and who proposes to do the same to Fred Simpson, the Ojibwa Indian in his twenty-mile race at Rosedale on Good Friday, arrived in town last night. Appleby is regarded in New York as the only man who can give St. Yves a run for his money, and Fred Powers is already after him to sign up.

Special to The Standard. Sydney, N. S. W., April 6.—A terrific cyclone on March 29 swept over the New Hebrides, according to news just received here and the island of Tenuana was struck by a tidal wave, which destroyed the crops and many of the buildings. A number of vessels were stranded on the shores of the various islands. K. of P. Dinner at White's. Most enjoyable dinner was given at White's last night to the members of Cynot Company No. 5 Uniform Rank, K. of P., and the officers of Victoria Company No. 1. Capt. Frank L. Potts was the host of the evening. The dinner was held at the conclusion of the regular Knights of Pythias lodge meeting. There was an extensive toast list and speeches were numerous.

Witness was informed when he first went to the inquest that it had been during the evening. If he had been up it was contrary to witness' orders. Should Be Still. Witness said his orders for treatment of such a case would be to stay in bed until well.
