Homeowners' Excursion.

The Grand Trunk Railway has issued a circular authorizing all agents in Canada to sell Homeowners' Excursion tickets to points in Western Canada. This is interesting information for those desiring to take advantage of these excursions on certain dates from April to September, 1911.

The Grand Trunk route is the most interesting, taking a passenger through the populated centers of Canada, through Chicago and thence via Duluth, or through Chicago and the twin cities of Minneapolis and St. Paul. Ask Grand Trunk Agents for further particulars.

IT'S IN THE BIG AMERICAN MARKET THAT MANY THOUSANDS OF MEN ARE WALKING THE STREETS IN ENFORCED IDLENESS.

CLOSING STOCK LETTER.

By direct private wires to J. C. Mackintosh & Co.

New York, Sept. 14.—During the morning session today the stock market was extremely weak and the standard shares sold down to new low records for the year. For a time the market verged upon demoralization and it looked as if for the first time in many months, large financial interests had been forced to extend support. The decline was attributed to the Moroccan question and partially to expectation of labor disturbances in the railway field. In this latter connection there was a rumor that the Lackawanna trainmen would be called out in the next few days and that this action would be emulated by the labor leaders in the West. There were also plentiful rumors of further failures to be announced during the afternoon, but were not verified and the action of the market during the afternoon appeared to refute them. The further liquidation which occurred this morning appeared to mark the culmination of pressure of that character at least for the time being and with the appearance of support from the larger interests prices rallied sharply, closing somewhat above yesterday's final level and showing a better tone than the day's low point ranging from 1 to 3 points. Foreign advances during the afternoon were more reassuring than at any time in the past few days and the English and continental markets reflected a better tone, thus removing the pressure of liquidation here for the time being. The advance, however, was largely on short covering, and there was no change of sentiment sufficient to warrant the expectation of a substantial increase in the investment demand or of any sustained improvement of prices in the near future. Total sales \$77,300.

CLOSING COTTON LETTER.

By direct private wires to J. C. Mackintosh & Co.

New York, Sept. 14.—Neither the recent private reports of deterioration nor what was purported to be the estimate of the National Grainers' Association of 65 per cent. appeared to have any pronounced effect on the cotton market today. As a matter of fact the trading was only spasmodically active and when support was withdrawn during the day prices showed a sagging tendency. The course of the stock market which was demoralized early and very strong in the closing hours was perhaps as influential in the day's movement of prices as any other factor. There is very little public interest in it looks as if there must be some pronounced movement of the market one way or the other before there will be any appreciable reaction in outside participation. Private reports thus far issued for the first half of the September indicate crop deterioration of from 3 to 4 per cent. against a normal of 10 per cent. deterioration of about 7 per cent. The action of the market reflected a general belief in the big season's supply of the staple and until the date of frost is determined this opinion will be difficult to shake.

THE DEMERARA ELECTRIC COMPANY, LIMITED

Capital Stock
The net earnings of the company since 1905 have shown a steady progress, with but a slight exception, and for 1910, after allowing for Bond Interest and Sinking Fund payment, amounted to 7 per cent. on the Capital Stock.

Quarterly dividends of 1½ per cent. equal to 5 per cent. yearly are being paid, and the surplus at the end of 1910 was nearly sufficient to pay dividends for four years at 5 per cent.

ANOTHER LOW RECORD IS MADE

New York, N. Y., Sept. 14.—In the course of a day that was both exciting and disquieting to Wall street traders, stocks slumped severely, only to recover later on. The selling early in the session was in such volume as to flood the market.

New Haven fell below the low point of the panic of 1907 and sold at 128½ its lowest price since the stock was placed on a settled dividend paying basis following its origin in 1872. The active list generally established another of the numerous low records for the year, which have been made in the last few weeks. Losses ran to more than three points with larger declines among inactive issues which were movement which set in early in the afternoon was as resolute as the morning's decline.

There was urgent and heavy covering of short contracts particularly in Union Pacific, United States Steel and Reading. At the same time evidence was seen of buying for the long account. Although no large demand has yet appeared today's further decline doubtless brought to some secured investors buying which helped in the advance.

Union Pacific, which had fallen to 157½, touched 160 and U. S. Steel, which had sold at 65½, reached 67. Reading, Lehigh Valley, Erie first preferred, Great Northern preferred, Canadian Pacific, Missouri Pacific, Southern Pacific and Consolidated Gas, rose to a point or more above yesterday's final prices. The market eased off at the close. With the long declines which began early in August there has been no day on which rumors that various misfortunes which beset the financial world have dawned about so rapidly, although they were without the slightest foundation. The fact that the source of the selling was as much of a mystery as ever was doubtless responsible for the circulation of these reports. The erroneous rumors of stocks produced considerable tension.

The early declines were due largely to selling by London and to a large supply of stock on direct orders from Berlin. The pressure from this source was aggravated by aggressive operations for the short account. The market seemed to be approaching a critical condition when substantial support was given.

Transactions in this market were estimated at 20,000 shares, chiefly sales. Further light on financial conditions in Europe was shed by the advance of the Bank of Belgium's discount rate from 3½ per cent. the private rate of discount at Berlin. The Bank of France's weekly statement showed that it had preserved the abnormally high percentage of reserve to liabilities.

The heaviest business for the railroads was indicated by completion of September returns which have been received. The gross earnings of railroads for the first week of September increased \$359,000 or 3.70 per cent. The bond market was irregular, with heaviness which was relieved by an improvement. Total sales par value, \$2,585,000.

U. S. Government bonds were unchanged on call.

WEDDINGS.

Coggan-Patterson

On Wednesday evening at the home of the bride's parents Miss Mary Leslie, daughter of A. H. Patterson was united in marriage to Robert D. Coggan in the presence of a large number of relatives and friends. The ceremony was performed by Rev. R. M. Byron of Louisville assisted by Rev. J. Wilder Williams. The house was tastefully decorated with cut flowers for the occasion. The bride wore a gown of white tulle and carried a large bouquet of white roses. The groom's present to the bride was a handsome lily brooch set with pearls and opals and to the pianist of the evening a cameo sash pin. After the ceremony the bride and groom were seated at a table with the young couple. Among them was a silver salad dish, the gift of the Young People's Society of the Tabernacle church. Mr. and Mrs. Coggan will reside at 17-12 Brindley street.

Touchdown-Dunlop

A pretty wedding took place at the residence of John Gorrell, High street Thursday afternoon, when his granddaughter, Miss Bessie A. Dunlop was united in marriage to Robert Touchdown. Rev. R. P. McKim performed the ceremony and after a wedding supper was served the happy couple left by train for Fredericton where they will reside.

The Nickel's Big Bill.

The Nickel's week-end programme contains enough of distinguishing features to make it much above the average in quality. For two days there will be a return to that startling type of melodrama which all ages of patrons seem to enjoy so thoroughly. The picture is entitled "A Crown Heart", and depicting the action of the play a thrilling rescue is made from a high burning building, and during the rescue a ladder breaks leaving the hero and heroine dangling in mid-air. The Vitagraph people will submit a charming pastoral under the name "The Sky Pilot" which is a story of a young man's best efforts of these stock players. It will devote upon the Esplanay company to supply the laughs, comedies consisting of Messrs Bullock, Nase and Coll was appointed to confer with Architect Mott with power to act, the understanding being that no asphalt will be done this year. Mr. Coll with the superintendent were named a committee to call for tenders for furnishing the new King Edward School.

Madame Kathleen Furlong Schmidt will continue in a lot of afternoon "Beautiful Lady," from the musical comedy "The Pink Lady," and Mr. George Moon will have his new number, "The Orchestra every afternoon and evening.
