The secretary read a letter from Mr. Sheard, of Montreal, asking that his motion picture be recommended the transferring the head office of the association from Toronto to Ottawa. Mr. Sheard said that after discussing the matter with several members of the C. M. A. he was convinced Toronto is better as an executive centre.

There were no new features in the report of the tariff committee. The "owing to conditions of trade which exist in the United States during the past year, your committee received a large number of complaints regarding manufacturers in that country dumping their goods in this Dominion. Investigations were held and in nearly every case the charges made were found to be correct. Steps were taken to cause importations of such goods to be appraised in accordance with the law."

A resolution was passed approving of the work of the committee and to assist in establishing a marine insurance company or a Canadian Lloyds.

ATTEMPTS MURDER OF HOTEL KEEPER AND THEN SUICIDES

J. K. McDonald Shoots Three Times at George Wilkes Without Effect, Then Blows Out His Own Brains.

Cobalt, Ont., Sept. 26.—After shooting three times at George Wilkes, proprietor of the Ottawa House, J. K. (Curley) McDonald, a young American from the Adirondacks, stepped outside and shot himself through the brain, dying instantly. Wilkes had garnished McDonald's wages at the Nipissing mines, and McDonald's anger took a murderous trend. His three shots barely missed Wilkes, one bullet striking the hotel keeper's head.

The third shot was fired Wilkes had presence of mind enough to fall to the floor, exclaiming "I'm gone." McDonald thought he killed Wilkes and his suicide followed. On first coming to Cobalt McDonald called himself H. C. McCarthy, telling his intimates that he had adopted the alias because of a crime he had committed. He was well educated but acted strangely at times and constant reading of dime novels gave him the habit of talking and thinking of gun plays and desperadoes.

HEAVY LOSS FROM STORM

Japan Suffered to Extent of \$20,000,000 in Last Sunday's Typhoon—Tokio Cut Off for Days.

Tokyo, Japan, Sept. 26.—Damage exceeding \$20,000,000 was caused by the typhoon which swept Japan from end to end on Sunday, while the loss of human life was very heavy, and tens of thousands are homeless.

The storm was the worst that has occurred here for over a half a century, according to reports which have just reached the capital which has practically been cut off from the rest of the country for days.

Crops suffered severely everywhere, but the greatest damage was done in the neighborhood of the cities of Nagoya, Nara and Osaka, and the island of Honshu and in Gifu.

At Nagoya every house was damaged and a great tidal wave demolished the harbor and sank three steamers, while several others went ashore.

At Gifu 362 people were killed and 27 injured. The Kioko Maru, a passenger ship, and the whole of her crew and passengers were lost. At Osaka, 20,000 houses were ruined and all the breakwaters and the harbor pier were washed away.

At Nara the thousand year old Kasuga Shrine collapsed into a heap of ruins.

SEES DANGER IN SWELLING TIDE OF IMMIGRATION

Bishop of Edinburgh Cites Impaired Nationality of United States as Example of Canada's Hazard.

Winnipeg, Sept. 26.—Preaching on behalf of the Anglican Mission of Help, which has brought a number of prominent divines from Great Britain to inaugurate the movement in the course of which he deplored the tendency of the flooded immigration to overwhelm the Anglo-Saxon stock.

"Let us remember," he said, "that great cities and millions of bushels of wheat are often sources of religious danger." He pointed to the United States, whose national character had been impaired by the advancing tide of immigration.

"If we look over the border," he said, "do we not regret that the strong New England stock which produced Emerson and Longfellow and the chivalrous Virginia race, which produced a Washington and a General Lee, have almost disappeared. This is a time when the church should be active and eager to do its share in building up the new country."

"Canada wants men, men with high ideals and noble aspirations," was the passionate appeal of the bishop.

WARM WELCOME FOR WILSON

Democratic Candidate Accorded Great Reception in Mass.—Crowds Turn Out All Along the Line.

Fall River, Mass., Sept. 26.—Governor Woodrow Wilson found the people of Massachusetts who greeted him today as enthusiastic and demonstrative as any he has met since he began campaigning for the presidency. Great crowds turned out at Springfield, Baire and Fall River, where the governor made scheduled speeches, but along the way his reception was practically continuous. People came crowding, crushing and pressing to the rear of the train and stretched their hands upward to him, wishing him success. Cries for buttons were insistent and the governor himself helped to toss them from the train.

The nominee covered a variety of topics in his speeches, including the matter of a board of arbitration and national committee Fred Coughlin, appeared with Governor Wilson at the committee fair at Baire where big crowds gathered.

The presidential candidate made a brief speech, alloting most of his time to shaking hands with a long line of people. He said tonight he felt deeply pleased at the friendship he had struck up with the people.

LORD MILNER IN HALIFAX

Urges Divorce of Imperial Issues from Local Questions—Will Leave for St. John on Saturday.

Halifax, Sept. 26.—Lord Milner addressed the Canadian Club tonight and the audience that heard him was the largest in the history of the organization. No subject was announced in advance as his topic, but what Lord Milner really contended for was the absolute divorce of imperial matters from local issues.

Any contribution Canada might make to the navy would be made, he said, not to England, but to the Empire. Lord Milner pleaded for the consideration of imperial matters on their merits and altogether apart from local matters. This could be done by the education of public opinion and would become a fact when public sentiment shows the politicians that mere factious opposition to imperial matters would be brought about in Canada in England matters of foreign policy had been during the past ten years withdrawn from partisan strife and he hoped for the time when through the Empire the same thing would happen as to imperial questions.

Lord Milner leaves for St. John on Saturday.

BRITISH IMMIGRATION.

London, Sept. 26.—During the month of August, 38,727 residents of the United Kingdom emigrated, 28,770 of whom went to the British dominions including 17,887 to Canada; 8,560 to Australia; 2,324 to New Zealand. For the eight months of the year Canada received 114,000, or 2,000 less than in 1911; Australia 42,000 or 14,000 more; and New Zealand 6,000 or 3,000 more.

RAILWAYS AND DISPUTES ACT

Question Arises Whether Street Railways Come Under Industrial Disputes Law Quebec Case Prompts Question.

Ottawa, Sept. 26.—The constitutionality of the Industrial Disputes and Investigations Act of 1907 in its application to the settlement of strikes in street railways is again brought to the public attention by the appointment yesterday by the Minister of Labor of a board in Quebec city to arbitrate on differences that exist there between the company and its employees.

While the point to be decided in the Quebec city case is of minor importance, the department here expects that the same action may be taken by the company as was done in the Montreal Street Railway differences, in June, 1911, which led to the appointment of a board of arbitration to arbitrate on differences that exist between the company and its employees.

The constitutionality of the act was to have been argued in Montreal last June but was postponed until this month. The Department of Justice represented by F. J. Daulton, K. C., Montreal, holds to the constitutionality of the act, and the decision of immense importance to every street railway company in Canada, is awaited with interest by the Labor Department here.

The Minister of Labor has been in receipt since the Montreal action was taken of applications from Toronto and other places that similar boards be held up, but he did not act on that basis and his appointing of the Quebec board yesterday may give rise to similar instructions proceedings from the Quebec company.

CLERGYMAN GUILTY OF CIRCULATING AN INDECENT BOOKLET

Rev. R. B. St. Clair's Description of Burlesque Performance Not in Best Interests of the Public.

Toronto, Sept. 26.—After hearing argument of counsel this morning, Judge Denton found Rev. R. B. St. Clair, secretary of the Toronto Vigilance Committee, guilty of circulating obscene literature and allowed him to go on suspended sentence on his agreeing to furnish a bond. Rev. Mr. St. Clair declared that if he was guilty of a crime he wished to pay the penalty by a term in prison and refused to furnish a bond. He was given a week to consider and in the meantime is not in custody.

The conviction is the result of a circular issued by Rev. Mr. St. Clair in his official capacity purporting to give a report of a performance in a local theatre, and calling on the people among whom it was circulated to use their influence to have such performances banned. There was not any contention as to the contents of the circular being matter of a questionable nature, and the question fought out in court was whether the public good was served in its publication. The finding of Judge Denton was in effect, that its publication was not in the best interests of the public.

WILL SHOULDER A SHARE OF BURDEN

WANT SUBSIDY TO MEET MEN'S WAGE DEMANDS

Spanish Railroads are Willing to Increase Employees' Pay If the Government Will Help.

GENERAL STRIKE A POSSIBILITY.

Dockers Will Go Out if the Steamers are Used to Relieve Tie-up.

Madrid, Spain, Sept. 26.—Signs of a possibility of the Spanish railroad strike were apparent at a meeting of the directors of the various lines at the Ministry of Public Works this afternoon.

The government is considering the views presented by the directors and by the national committee of the men. Half a dozen trains manned by soldiers constitute about the only traffic running on the Catalonian lines. The dockers of Barcelona this afternoon determined to strike if any attempt to relieve the tie-up on the railroads by the use of steamers should be made.

The directors expressed their willingness to grant the demands of the strikers if the government would help them with a subsidy or authorize them to increase their rates.

The three chief demands of the men, would entail additions in wages of \$12,000,000 for the four main lines, while the pay sheets of the rest of the companies would be augmented by \$15,000,000.

ULSTER CAMPAIGN CAUSES THE KING DEEPEST CONCERN

Andrew Bonar Law Visits His Majesty at Balmoral Ostensibly to Meet the Russian Minister.

Balmoral, Scotland, Sept. 26.—King George is said to view with some concern the situation in Ulster on account of the increasing factional fighting there.

The Unionist leader, Andrew Bonar Law arrived at His Majesty's Highland home as a guest today, and there is some inclination to connect his visit with the Irish question. It is, however, officially announced that Mr. Law has been invited here merely for the purpose of meeting the Russian foreign minister, Sergius Sazanov.

"We all agree with Mr. Long," he said, "as to matters of self defence. We have no cowards in Canada, and we are prepared to play our part in the defence of the Empire."

Neilson's signal at Trafalgar was still flying in Canada, and her people were prepared for any emergency. The naval question was not one of cost, for he could assure Mr. Long that Canada "had the men, had the guns, and had the money, too."

"We should not be at all reticent to receiving a trade preference from Great Britain," said Sir George, "but we, too, believe that to be a portion of the British Empire is Canada's highest future."

CONSIDER HIGH COST OF LIVING

Suggestion Made at Congress of Chambers of Commerce—Increase in Weight of Gold Dollars Urged.

Boston, Mass., Sept. 26.—An international conference to consider a remedy for the increasing cost of living, was advocated before the international congress of chambers of commerce today, by Prof. Irving Fisher, of Yale University. Prof. Fisher suggested that the weight of the gold dollar should be increased enough to restore some of its lost purchasing power. A resolution to that effect was adopted.

Halifax, Sept. 26.—A big blaze on the waterfront of Halifax broke out at 3 o'clock this morning and threatens to be disastrous. It started on Cook's wharf in the centre of the Water Street district, and at this hour looks like spreading to other parts of the city.

Walter Long Has No Fears for Canada's Part

DEFENCE NECESSARY

Government's Naval Policy will Meet with Approval of Both Parties, Says British M. P., Speaking in Toronto.

Toronto, Sept. 26.—Imperial trade and Imperial defence and their indissoluble relationship, were the prime topics of a brief, brilliant and forceful address delivered by Walter Long, M. P., secretary of state for Ireland in the late Balfour administration, before the Empire Club this afternoon.

The speaker paid tribute to the memory of Sir Richard Cartwright, who set a high standard of Canadian life and lived up to it. Mr. Long then called attention to the two statesmen he considered above all other outstanding figures in the reign of Queen Victoria, Lord Beaconsfield, better known as Mr. Disraeli, and Sir John A. Macdonald. Both men, he suggested were now realized to have been working for the same Imperial object, widely divergent as their paths had appeared at the time. Macdonald laid the foundations which enabled Canada to take her place among the great Dominions, and be prepared, if necessary, to meet the enemy in the field.

Speaking of Imperial defence Mr. Long said he had no fears about the welcome the co-operation of the great self-governing dominions. Imperial trade, too, is necessary to enable Britain to provide herself with food and all other necessities.

Funds a Necessity.

"No trade in the world," said Mr. Long, "be it in corn or cattle, steel or iron, can be developed without the all-essential supply of money."

What he asked would be the financial position of each individual farmer in the great European war should Great Britain not have sufficient power of self-defence? From the selfish point alone each member of the British Empire must needs have the naval question at heart.

Moving the vote of thanks to Mr. Long, Sir George Ross, former Liberal Premier of Ontario, said that he particularly appreciated Mr. Long's address, because he spoke to Canadians from the Canadian, not the English, viewpoint.

"We all agree with Mr. Long," he said, "as to matters of self defence. We have no cowards in Canada, and we are prepared to play our part in the defence of the Empire."

Neilson's signal at Trafalgar was still flying in Canada, and her people were prepared for any emergency. The naval question was not one of cost, for he could assure Mr. Long that Canada "had the men, had the guns, and had the money, too."

"We should not be at all reticent to receiving a trade preference from Great Britain," said Sir George, "but we, too, believe that to be a portion of the British Empire is Canada's highest future."

"BOBS" WOULD NOT ACCEPT A SEAT IN THE IRISH HOUSE

Earl of Kilmorri States Lord Roberts and Other Irish Peers are Pledged to Refuse to Sit in Irish Parliament.

Bally Roney, Ireland, Sept. 26.—Ulstermen are praying and hoping for peace, but if that is denied to them they are ready for war, according to the Earl of Kilmorri, while addressing a big outdoor demonstration of Irish Unionists here today, at which some 20,000 people from the County of Down were present. The Earl of Kilmorri was chairman and in his speech declared his intention of refusing to submit to home rule if the act passed. A large number of Irish peers, he said, including Field Marshal Lord Roberts and the Marquis of Dufferin had signed a pledge not to accept a seat in either house of the Irish legislature.
