

## No School Site On King's Square

Electrical By-Law to be Considered at Council Meeting on Thursday Morning.

The city council decided yesterday not to give the school trustees a site for a school on King Square, West, to take up the proposed amendments to the electrical by-law on Thursday morning, to purchase a new transit for use in making the city survey and to have a copy of the official street line survey made.

Mayor Schofield presided and Commissioners Thornton, Jones and Bullock were present.

The mayor reported that he had received from the West Side board of trade a protest against the allowing of the erection of a school house on any public play ground and recommended that the school board be notified that in view of this fact the council did not see its way clear to grant the request for a site on King Square, West. Recommendation adopted.

Regarding St. John Interests

His Worship also reported that he had received word from Hon. R. W. Wymore in connection with the removal of certain post office officials to Moncton to the effect that nothing definite had been done and he was carefully watching proceedings in the interests of St. John. He also pointed out that some person from the council would have to go to Ottawa on April 14 to attend a meeting of the executive of the Union of Canadian Municipalities and they could look in to the matter when there.

Commissioner Jones reported that he was ready to fix the water rate for the year and moved the council to the removal of certain post office officials to Moncton and Sirmonds be notified to be present at the meeting of the council on Tuesday April 5, when the rate would be fixed. Carried.

Commissioner Jones reported in connection with the sewer through the Carleton Mill Pond and recommended that no action be taken at the present

time. Report laid on the table for further discussion.

Commissioner Bullock was given authority to call for tenders for the painting of the ferry "Governor Carleton."

Electrical By-Law

Commissioner Thornton brought up the matter of amendments to the electrical by-law which were intended to make the department self sustaining and provide some further safeguard. Commissioner Jones said there had been some opposition by the Retail Merchants' Association and suggested the matter be laid over to give them a chance to be heard. H. G. Webb, of the Webb Electric Company, said he had been asked by the secretary of the Retail Merchants' Association when this matter was to come before the council as they wished to be heard. It was decided to take the matter up on Thursday morning at eleven o'clock.

City engineer Hare was given authority to purchase a transit for \$275. On motion of Commissioner Thornton it was decided to have a copy of the official street plan and to have two men do the work, working night and day until it was completed.

## ASPIRIN

"Bayer" is only Genuine

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin at all. In every Bayer package are directions for Colds, Headache, Neuralgia, Rheumatism, Parache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Drugists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacturing Co. of Monacopolitacidester of Balleilicacid.

## WEDDINGS.

Married-Field

Monmouth, Tenn., March 25—Miss Miss South, daughter of Mr. and Mrs. William Henry Field, of Monmouth, and Howard Vernon Harris, son of Mr. and Mrs. Harris, of Monmouth, were married here tonight. The Rev. Thomas F. Gaffey, presiding bishop of the Episcopal church in the United States, officiated at the marriage, which was solemnized at St. Mary's Cathedral.

Mr. and Mrs. Harris left late tonight for East Aurora, N. Y., where they will spend several weeks before going to their home in Toronto.

Comeau-Mallett

Moncton, March 25—A pretty wedding was solemnized in the Assumption church this morning, when Miss Adeline Mallett became the bride of Theophilus Comeau, son of the late Theophilus Comeau. The ceremony was performed by Rev. H. D. Cormier in the presence of a large number of friends.

Mr. and Mrs. Comeau left on a wedding trip to Halifax. They will reside in Moncton. The groom is a well known C.N.E. employee.

## Slavery Exists In Southern States

Colored Americans Ask for Probe Into Conditions Revealed by Unique Murder.

New York, Mar. 25.—The National Association for the Advancement of Colored People made public today a telegram to President Harding and Governor Borey of Georgia, which alleges that the penance system is generally existent in most Southern States. The telegram to President Harding urges him to authorize a thorough investigation by the Department of Justice of "penance conditions in Jasper County, Ga., where John Williams, a white land owner, has killed or caused to be killed, eleven negroes who threatened to testify against Williams regarding penance."

## Spring Inquiries

Due To Poor Blood

A Tonic Medicine a Necessity at This Season.

Dr. Williams' Pink Pills are an all-year-round tonic for the blood and nerves. But they are especially valuable in the spring when the system is loaded with impurities as a result of the indoor life of the winter months. There is no other season when the blood is so much in need of purifying and enriching, and every dose of these pills helps to enrich the blood. In the spring one feels weak and tired—Dr. Williams' Pink Pills give strength. In the spring the appetite is often poor—Dr. Williams' Pink Pills develop the appetite, tone the stomach and aid weak digestion. It is in the spring that poisons in the blood find an outlet in disgusting pimples, eruptions and boils—Dr. Williams' Pink Pills clear the skin because they go to the root of the trouble in the blood. In the spring anaemia, rheumatism, indigestion, neuralgia and many other troubles are most persistent because of poor, weak blood, and it is at this time when all nature takes on new life that the blood most seriously needs attention. Some people dose themselves with purgatives at this season, but these only further weaken themselves. A purgative merely gallops through the system, emptying the bowels, but does not help the blood. On the other hand, Dr. Williams' Pink Pills enrich the blood which reaches every nerve and every organ in the body bring new strength and vigor to weak, easily tired men, women and children. Try Dr. Williams' Pink Pills this spring—they will not disappoint you.

Sold by all medicine dealers or sent by mail at 50 cents a box or six boxes for \$2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

Lord Curzon describes an opponent as in the possession of "an enameled self-assurance." Which is very much as if he had actually got him a smooth guy.

## IN THE EDITOR'S MAIL.

To the Editor of The Standard.

Announcement has been made that the University of New Brunswick, during the present session of the Legislature, will make request for quite a large grant of money from the Government. It is to be noted also that an appeal for support of the institution recently appeared before the United Farmers of Carleton County and persuaded them to give support to these representations.

I write not only to protest against any special grant to the University at this time, but also to submit that a time has arrived when a halt should be called to the annual grants which are made; grants which in the aggregate reach to about a quarter of million dollars in the last ten years; to be exact which total \$357,147.55 in the last eleven years.

There is not in my mind, Sir, the least thought of casting any reflection upon the glowing traditions of the University of N. B. or the character of the work being done; these speak for themselves and establish a record of which all its friends are justly proud. But there are days when those who guard the Public Treasury must carefully canvass every item of expenditure, and when this is done it will be found that the money invested in these grants and for which the people of the province are taxed is simply employed to duplicate the work of education already amply provided. Are the taxpayers of this province in a mood to countenance a policy such as this, especially in a day when the meagre salaries paid to school teachers must bring sharp cries to every true citizen, and when a hundred public causes clamor for assistance. Surely Legislators and ratepayers may well pause when it is known that in the small constituency of the Maritime Provinces there are no less than six Arts Institutions which practically parallel the work being done at the U. N. B.—if we include Newfoundland there are seven. In New Brunswick we have St. Joseph at Memramcook and Mount Allison at Sackville, and in Nova Scotia there are Acadia, Dalhousie, Kings and St. Francis Xavier, all of them with friends in this Province and all of them drawing from the same constituency. In point of fact one searched in vain to discover any justification for having this particular institution singled out as a state institution and entitled to have its burdens born by taxing the poor. Its curriculum is practically the same as these other institutions; its body of students is not larger; it does not draw from a wider constituency. Why then should it come upon its knees asking for aid? Certainly if a grant is given, then the colleges at Memramcook and Sackville have a claim for similar treatment. But why should any institution in Arts be aided at the public expense?

Now, Sir, I am not suggesting any thing to imperil the life of the U. N. B. or have the government deal less generously in the matter of higher education. I would enlarge the institutions life—I would ask the Government to get more generous; for when one considers the place which Technical Education is being given in almost all countries, and the popular cry for all forms of vocational work, it will be recognized that there are wonderful possibilities before any institution which establishes strong departments in these branches, endowed by the state. As evidence of the value of such enterprises one has but to point to the high average of citizenship displayed by such countries as Denmark and Switzerland to say nothing of the wonderful output of energy and supplies from Germany in war time—all of which are largely the result of the education of the people along vocational lines. Besides this, signs are not wanting that the future will demand the transfer of the classics in our University's curricula from the columns required to optional subjects. Therefore, if state aid is given to any institution, let it be required that it must not be thrown away in merely enabling that institution to better compete with other institutions doing parallel work but must be used to develop to the full, departments of Forestry, Engineering, Mining, and many forms of practical vocational work. I humbly submit that in this Province Forestry itself is of sufficient importance to make it worth while for any institution to specialize upon and to develop to the fullest the forestry department to largely aid. For against any public grant which may be made to the U. N. B. to develop to the highest degree its Department of Forestry and any Technical Department, no one should make complaint, but for other educational work which is already provided for elsewhere, there should not be a dollar forthcoming. The Nova Scotia Government in this particular teaches us a lesson. It does not give a single dollar to Arts work, but the grants in aid are made solely for technical education.

I therefore plead that this Province be no longer bled to merely duplicate Educational work and it ought not to be necessary to do more than bring these facts to the attention of the Government to have a saner policy adopted.

Yours respectfully,  
HERBERT T. THOMAS,  
Methodist Parsonage, South Devon,  
N. B., March 24, 1921.

## OBITUARY

Miss Helen A. Lee  
Special to The Standard  
Calais March 28.—The many St. John friends of Miss Helen A. Lee of Calais, who died on Tuesday March 22 at Allston, Mass. from cerebral hemorrhage.

Miss Lee, who was a professional nurse, had been engaged in caring for James Rattigan, who died from pneumonia, and when seized with her fatal illness was arranging the floral tributes sent to his home. Everything possible was done for her but she passed away in a few hours.

The funeral was held on Sunday from the home of her parents and was largely attended.

Mrs. Mary McKinnon.

The death of Mrs. Mary McKinnon, widow of James L. McKinnon, occurred yesterday morning at the residence of her daughter in Fairville. She was well known in that vicinity and had many friends who will extend sympathy to the bereaved family.

Mrs. McKinnon is survived by three daughters, Mrs. Robert Hickey, Mrs. T. S. Burns and Miss Irene, all of Fairville; one brother, Edward Griffith, of this city, and six sisters, Mrs. Susan D. Burns, Daniel Gills, Mrs. Patrick Verne, Mrs. Daniel Gills, Mrs. Patrick O'Brien and Mrs. Bart O'Brien, all of this city; Mrs. Lucy Myles of Charlottetown, Mass., and Mrs. Fred McCauley of Ashbury, Mass. The funeral will take place on Wednesday morning.

## Jail For Plumbers

New York, March 28.—Prison sentences of three and two months respectively were imposed on Charles A. Murphy and John L. Knight, master plumbers, who were convicted last Thursday.

Fines of \$5,000 were imposed also on Murphy and the corporation of which he was a member. Knight is president of the Master Plumbers' Association.

## FREE

This Week Only

At any drug store named below, a 10-Day Tube of Pepsodent. Simply present the coupon.

Watch the results—they are quick and apparent. You will know then what this method means, both to you and yours.

Go get this tube today.

## We Invite You To see how really clean teeth shine

Your teeth are coated with a film. When fresh the film is viscous—you can feel it with your tongue. Later it forms a cloudy coat. It enters crevices and stays. It dims the teeth, and now we know that it causes most tooth troubles.

There is now a way to end it. This week your dentist, if you ask, will give you a 10-Day Tube. Get it and see what it does for your teeth. Learn what film removal means.

## Old ways don't end it

Old ways of brushing do not end film. Millions of people know that. Teeth discolor and decay despite the daily care. The reason lies in film. It clings and hides, and very few escape its damage. It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. All these troubles have been constantly increasing—some have grown alarming. And all because we knew no way to daily fight the film.

## A new dental era

Dental science has for years studied to combat film. Ways have now been found to do it. Able authorities have proved these methods by many careful tests. Now leading dentists everywhere are urging their daily use.

These methods have been combined in a dentifrice called Pepsodent. Millions of people have come to employ it. You can see the results wherever you look—in glistening teeth, in teeth you envy, maybe.

A new dental era has begun, due to these discoveries. And these are benefits everyone should share. So you are urged to let this 10-Day Tube show what Pepsodent can do.

## Brings five effects

Pepsodent brings five distinct effects. All are apparent, some are quick. A few days' use will leave no doubt about them. And a little book will tell you what each one means to you.

One ingredient is pepsin. Another multiplies the starch digestant in the saliva to digest starch deposits that cling. The alkalinity of the saliva is multiplied at once. This is to neutralize the acids which cause tooth decay.

Two factors directly attack the film. One of them keeps teeth so highly polished that film cannot easily adhere.

Every application brings the Pepsodent effects. Together they mean tooth protection like you never had before.

Watch these effects. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coat disappears.

Compare your teeth now with your teeth in ten days. Then judge this new-day method by what you see and feel and know.

## Men who smoke

will see a quick, conspicuous change

Tobacco stains the film-coat on the teeth. So men who smoke will see a great change quickly. But millions of teeth have that same film-coat with a lesser stain.

Children's teeth are most affected by the film. Young teeth seem most subject to decay. Dentists advise that Pepsodent be daily applied from the time the first tooth appears. Other wise, decay is almost certain.

Pepsodent brings to women whiter, prettier teeth. But that means cleaner teeth and safer. The faster comes from constant film removal and the high polish given to the teeth.
