NOTE AND NEWS. GEN BRAL.

At Vienna considerable excitement has peen created among those interested in the affairs of the Exposition by the refusal of an English firm to accept a medal of merit awarded by the judges. It appears, after all, from a paper read efore the Portland scientists, that instead of 4,000 years it will be 10,000 years before the Falls of Niagara will recede a single mile. So, tourists can be sure of seeing all the sights if sure of seeing all the sights they hurry up, and fee the hackmen

After trying abstinence from corpor unishment in her schools for a year Chicago concludes that it is a success except in a few instances, and for these the Superintendent proposes the estab-lishment of a separate school, to which boys and girls, from whom badness is to be eradicated, may be sent, and there kept until they mend their ways. An Indian judge has decided that the

ersonal property of a man who goes to urope is not taxable while he is gone Which leads a profane person to remark that the property of people who go to Heaven gets taxed all the same in their absence. To the narrow-minded capitalist this would indicate that Europe is a better place than Heaven to go to. But we don't believe a word of it. There is a man at large who, finding an umbrella on the Plymouth Rock, com-

ing from Long Branch, advertises for the owner. We are glad to hear that he has been interviewed, and appears to be perfectly harmless, for if he were a man likely to do murder he certainly would not be held responsible. We say this not because we believe honesty on the subject of umbrellas to be a sure sign of insanity, but when a man is so eccentric as sanity, but when a man is so eccentric as to do a thing utterly without precedent, the world is sure to decide that he is
