

## WATERLOO NEWS RECORD

On Tuesday evening last in Trinity Church, under the auspices of the Princess of Wales Chapter, I.O.D.E., the citizens of Kitchener and Waterloo were privileged in being able to listen to the thrilling story of Lieut. Beverley Robinson nephew of the late honored Lieutenant-Governor of Ontario, Lieut. Robinson enjoys the distinction of being the only Canadian Officer to escape from the German Prison camps. As he unfolded his story every listener became conscious of the fact that among our numberless heroes no others surpassed in courage and endurance the prisoners of War. There was none of the excitement of battle to relieve the monotony of their suffering but they "endured to the end without loss of spirit". Lieut. Robinson is a modest man and while praising "to the skies" the bravery of his comrades, treated his own exploits in a casual way. The evening was one of the most recent and we shall ever hold in highest honor those men who went through the hell of German prison life for our redemption.

Choice musical numbers on the organ were kindly contributed by Prof. George Ziegler, and a vocal duet by Mrs. A. F. Follmer and Miss Chas. Ruby, which were greatly appreciated by the large audience present.

## Costs Less in the End

THE cost of a motor car is not its price alone. It's the price plus the running cost plus repairs divided by the miles of service.

And on this basis the Gray-Dort costs less in the end—less even than cars lower priced. Year after year this fine light car does go farther on a set of tires or a gallon of gasoline—does stay out of the repair shop.

You will enjoy owning a Gray-Dort—enjoy the comfort of its roomy, luxurious body; easy to control in traffic; quick to pick up, speedy on open stretches and powerful on hills; and you'll be proud of its real beauty.

The touring car is \$1245; the Gray-Dort Special—the car with added radiating and extra equipment, is \$1385 extra; there are also a coupe and a sedan. All prices are f.o.b. Chatham and are subject to change without notice.

by them to purchase the vast supplies of iron, steel, clothing, boots and shoes and other products of our manufacturers and in this way the money would all be spent in Canada and mean prosperity to the people.

In order that Canada might give European countries credit in would be necessary for the population of this country to practice thrift and invest their savings in war stamps.

Great Britain started the thrift movement by selling war stamps and was followed later by United States. The latter country made a great success of selling war stamps, the sale for January amounting to \$30,000,000 and at this rate would average about \$1,000,000,000 per year. Canada should be prepared to do as well in proportion as the United States.

Mr. Ford said he proposed to get the schools, colleges, manufacturers, merchants, professions and various societies throughout the County of Waterloo interested in this movement and wanted the cooperation of all classes of citizens.

**Endorsed Movement.**  
After some further discussion by those present a resolution moved by Mr. J.H. Ross and seconded by Mr. Allan Beyzel of the Board of Trade, the buying of these war saving stamps.

**Committee Appointed**  
The committee was appointed with Mr. George Diebel as Chairman and Dr. C. Wells as secretary—Mayors Kutt and Messrs. Bechtel, M.S. Hallman, J.H. Ross, L.F. Dietrich, N. Stroch, A.C. Meyer, C. Huehnergard, E. Haber, S.P. Kiesewetter, A.E. Devitt and R.S. Bean. The committee was given power to add to their numbers.

**Invitation Accepted**  
The invitation to be present at a meeting of the Board of Trade of Kitchener next Wednesday evening to hear an address to be given by Col. Foster of the American City Bureau was accepted and President Allan Beyzel of the Board of Trade urged as many members as possible to attend.

Councillor A.C. Meyer enquired if any action had been taken by the Board of Trade to have the proposed electric line to Elora pass through Waterloo. He was informed that the line would be built over the old People's Railway line and that it was unlikely to touch Waterloo but would be built from Bridgeport to Elora.

President Allan Bechtel, president of the Board of Trade presided at the meeting.

An extraordinary contest over a Port Arthur estate, valued at over \$260,000, came before Justice Clute at Osgoode Hall on a motion for the appointment of a receiver. The estate is that of the late Dr. F. Burk. It consists of a large jewellery business and extensive real estate holdings. One of the unique features is the fact that in the will, for which probate has been asked, the executors named were the first and second wives of the testator. Another feature is that to establish her claim under the will she brings forward, the second wife must prove her marriage to have been invalid.

## Well Pleased With Visit to Schools

DEPUTATION RECEIVES INFORMATION ON TECHNICAL SCHOOLS.

"We certainly received a lot of information which will be of assistance to us in considering our problem," Chairman M.S. Hallman of the Collegiate Board said when reviewing the visit of inspection to the London and Windsor technical schools, from which some of the members of the deputation of the Board and the Advisory Industrial Committee have returned.

Mr. Hallman besides speaking highly of the reception by the Boards in the two cities said: "One fact certainly is sure, that is that we need better accommodation here and the London principal has assured us that he will give us every assistance possible in the way of giving advice and information."

The new London technical school is the finest of its kind and is worth while going to see. The arrangement and layout of the buildings and of the rooms, and the equipment, showed that everything was built for a purpose.

Bath boys and girls are being accommodated. Mr. Hallman when asked about the lines of trades taught said that this fact and all other details are being compiled and he himself at present did not have this information. "I would be given later."

In Windsor the Collegiate Institute includes a fine new wing, in which is the new Technical School. The problem in that city had been similar to the Twin City. This school also is a fine institution he stated.

## One British General to Canadian Soldiers

**COL. PECK TELLS OF WHAT HE SAID IN FRENCH TOWN IN 1917: ATTACKS BRITISH GENERAL WHO HE SAYS, INSULTED CANADIANS AND WAS UNSYMPATHETIC TO CANUCKS.**

Ottawa, March 14.—In his address in the House today, Mr. Peck, Col. Peck, of Skeena, B.C., caused somewhat of a sensation by his criticisms of Sir Charles Ferguson, British military governor of Cologne. From the first moment Col. Peck declared Canadians found the British authorities unsympathetic. Canadians were put out of bounds in Cologne by a message which Col. Peck characterized as most insulting. It contained the words:

"Owing to the continued misbehavior of the Canadian troops, they will have to be put out of bounds." Col. Peck was proud to say however that there were Canadian officers who resented that order. Sir Arthur Currie replied that the order in the way in which it was couched, could only be considered as an insult and the commander of the First Canadian division, Gen. MacDonald, challenged production of proof that the Canadians had been unduly obstreperous.

Charges Exaggerated.  
Sir Charles Ferguson made certain charges. Gen. MacDonald made investigation and found that the number of Canadians charged in Cologne was not more than a very small number. Col. Peck declared that when the first Division war worn returned, it had the insults of Sir Charles Ferguson ringing in its ears.

"Sir Charles Ferguson," declared he, "was married to a woman of Cologne and that may account for some of his strange sympathies for the inhabitants." He commended the 17th British Corps at Arras when it went out of the town when we had to be rushed down there on that account."

Sir Charles Ferguson gave up Mon. city. Who took Monday?—The Canadian corps.

Col. Peck declared that when 25 miles east of Cologne he had told his men that the British were known to be the character of the Canadian troops. Col. Peck then informed the House that he would make the name of Sir Charles Ferguson, sink in the nostrils of all patriotic and honest men.

There were lots of things which happened in the British army about which nothing was known he said. In 1917 he went into a town in which 40,000 British troops were in open in surrender. Four thousand Canadian troops were taken to guard the railways and bridges.

## Still Another Big Audience Present

To Hear Dr. Neighbour's Address.

Every available seat in the Benton St. Church was called into service to accommodate the crowds who came to hear Dr. Neighbour, speak on "The Signs of the Times." The address was preceded by a half-hour singing, mostly by the Booster Choir of more than 70 boys and girls who were thoroughly drilled by Prof. Ralph W. Carr. Their work reflected great credit upon their director. Master Lealand Schweizer also sang and greatly delighted the large audience.

Dr. Neighbour in speaking on the signs of the times called attention to the age of progress in which we are living which according to the prophet Nahum is immediately preceded the return of the Lord Jesus. Man, the speaker said, is now reaching the very apex of his accomplishments, and it would seem that soon the end must come. Five years ago it was thought there could be no more wars of any moment. That was thought by those who did not accept the prophecy of the bible. The most terrible war has come and passed and the league of nations is now being called into existence, but the end of wars has not yet come, for scripture speaks yet of another, the war of Armageddon. We cannot tell how quickly things will shape to bring it on. This is true. It is the war of Armageddon. General Allenby's march into Jerusalem made the premillennial almost shout for joy, that event foretells the return of the Jew to his own land in fulfillment of the prophetic scriptures. This forecasts the early return of Christ according to scripture. Again there is the great accumulation of wealth in the hands of a few.

"Ye have heaped together riches," is the cry of James who warns the saints not take part in this because the coming of the Lord is nigh. The apostasy of the present day is alarming, the truth of the scripture is being denied. There is a grand march of missions, there are many splendid Christians and more than ever have been seen. Yet it is true that the very fundamental truths of scripture are being denied as never before. John says: For many deceivers have gone out into the world who confess not that Jesus Christ is come into the flesh. This is the deceiver and the antichrist. And every spirit that confesseth Jesus not is not from God. And this is that spirit of antichrist. Hand in hand with this go the moral conditions. The world is not becoming better. The unregenerate heart will ever be the same. And as it was in the days of Noah, so it will be in the days of the Son of man. It is impossible to see how according to scripture or observation the world will become gradually better and better until the day of the Lord.

The speaker held the audience for an hour and ten minutes. The interest was unabated. Dr. Neighbour said that every where Christians in large numbers were believing these statements of the bible and are coming to hear their interpretation. Sunday afternoon, the pastor of the church announced, Dr. Neighbour will again speak on the same subject with special reference to the optimism in the belief in the premillennial hope.

amount of the credits desired by these nations has not yet been stated. It is believed, however, that Greece will be in a position to pay cash for most of the things she needs and would require but a small credit.

Consideration was promised to the representations.

**For Rough, Wrinkled, Freckled, Purpled Skin**  
As March winds, flying dust and dirt, are apt to injure any complexion, this cream will be of special value right now. If you have any complexion, don't use paint, powder or an ointment to cover it up. Too often this only emphasizes the defect. Decide, then, to remove the disfigurement with ordinary macerated water. Apply freckles, pimples, moles, freckles, red or yellow blotches or any surface eruptions. The affected skin, after a little each day, until the clear, healthy, youthful skin beneath is brought wholly to the surface. Remove in morning with soap and water. Many who use this simple, harmless treatment report astonishing results.

If bothered with wrinkles or freckles, a wash lotion made by dissolving an ounce of white hazel in a half pint of water will prove wonderfully effective.

Ottawa, March 14.—To validate the war measure for prohibition to make it effective one year after the official declaration of peace, is the policy of the Dominion Government as announced by Sir Thomas White, acting premier to a deputation which presented a memorial from the Dominion prohibition committee. The Government is also considering question of submitting a plan, and the deputation was frankly that there had been a "centenary" on the other side, "of rat" a moderate character, the "or" men for instance, desiring "b'te" in their beer.
