

	PAGE
Statement of operations for the months of October and November, 1912.....	159
Costs and selling prices.....	159
Capitalization.....	160
Remarks.....	160
Langwith By-Product Recovery Company, Ltd.....	162

CHAPTER V.

Peat burning steam power plant on the Wiesmoor in Ostfriesland, Germany.....	163
Description of power house.....	164
Boiler house.....	165
Method of purifying the feed water.....	165
Power plant.....	167
Peat as fuel.....	168
Manufacture of the peat fuel.....	169
Transportation of peat from storage bins to boiler grates.....	176
Disposition of peat in boiler house.....	177
Second large peat fuel reserve.....	178
Design of boiler furnaces.....	180
The average results of several tests.....	182
The cultivation of the Wiesmoor.....	184
Canals.....	185
Construction of roads.....	187
Cultivation.....	188

CHAPTER VI.

Feasibility of erecting by-product recovery peat producer gas power plants in Canada.....	193
The first factor.....	193
Second—cost of labour and labour conditions.....	195
Third—plant costs.....	196
Fourth factor.....	196
Fifth factor.....	197
Capital, and operating costs.....	198
Plant costs.....	198
Labour costs.....	199
Producer and sulphate plant.....	199
Power plant.....	199
Interest and amortization.....	199
