neither of stone nor wood. They were neatly plastered together by the Pygmy workmen, pretty much like bird's-nests, out of straw, feathers, eggshells, and other small bits of stuff, with stiff clay instead of mortar; and when the hot sun had dried them, they were just as snug and comfortable as a Pygmy could desire.

The country round about was conveniently laid out in fields, the largest of which was nearly of the same extent as one of Sweet Fern's flower-beds. Here the Pygmies used to plant wheat and other kinds of grain, which, when it grew up and ripened, overshadowed these tiny people, as the pines, and the oaks, and the walnut and chestnut-trees overshadow you and me, when we walk in our own tracts of woodland. harvest-time, they were forced to go with their little axes and cut down the grain, exactly as a wood-cutter makes a clearing in the forest; and when a stalk of wheat, with its overburdened top, chanced to come crashing down upon an unfortunate Pygmy, it was apt to be a very sad affair. If it did not smash him all to pieces, at least, I am sure, it must have made the poor little fellow's head ache. And oh, my stars! if the fathers and mothers were so small, what must the children and babies have been? A whole family of them might have been put to bed in a shoe, or have crept into an old glove, and played at hide-and-seek in its thumb and fingers. You might have hidden a year-old baby under a thimble.

Now these funny Pygmies, as I told you before, had a Giant for their neighbor and brother, who was bigger, if possible, than they were little. He was so very tall that he carried a pine-tree, which was eight feet through the but, for a walking-stick. It took a far-
