

**OUR FARMERS' CLUB**  
 Correspondence Invited  
 REGULAR MEETINGS

**ONTARIO**

**WATERLOO CO., ONT.**

**KINGWOOD, Nov. 6.**—We are having a wet fall. It was wet all summer. Crops were good. Hay was very good and will well cured. Fall wheat is set up. The average: oats and barley a bumper crop, but owing to the wet weather, it was hard to get it in good shape. It was put into the barns. Corn was a very good crop but not well matured. Mostly all silage. Fall apples are up. Malaga is not grown much. The writer has a piece from which we cut three good crops this season. We seeded nine acres in the spring, which is a very good thing. Potatoes are a good crop, but in places 50 per cent are rotten. Mangels and turnips are very good. There is a lot of fall wheat to do yet on account of the wet weather. Apples are a good crop.—A. B. Z.

**WELLINGTON CO., ONT.**

**PERGUS, Nov. 1.**—Threshing is the order of the day. Grain is turning out well. Wet weather still continues. Potatoes are up in most places and are badly rotted. Some have scarcely enough for their own use. Turnips are up and are up and are an extra good crop in some places, while others are very poor. Prices are still high, especially cattle and hogs.—W. A. M.

**BRUCE CO., ONT.**

**HEPWORTH, Nov. 3.**—On the Bruce Peninsula, potato growers are particularly favored. But is almost unknown. From Hepworth at least 75 per cent of the potatoes are rotting.—C. B.

**MIDDLESEX CO., ONT.**

**ODELL, Nov. 7.**—This place being quite near London, market gardening naturally predominates. And at this late date splendid crops of cabbages, turnips, carrots, celery, etc., are being raised. The soil is black, rich looking loam and entirely given over to celery, and the crop looks fine. The writer works for rich partners who have an acre was often more than a good crop of celery, while the market is inexhaustible. The onion crop was also good, as was the cauliflower. A new bean thrasher was purchased at the Western Fair, and will be used to thresh the bean crop south of London. It is of the latest model.—J. E. O.

**APPIN, Nov. 7.**—Labor is scarce, and with wet weather. The crops of grain, apples, sugar beets and corn to harvest, farmers are hard pressed. Fall plowing is under way on some farms; on others not begun. Some clay farms are so soft on account of wet season that plowing is almost impossible. Plastering have been good.—C. M.

**ESSEX CO., ONT.**

**HARROW, Nov. 2.**—Corn husking is general in this district, with good yields prevailing. In fact the corn crop is a larger one than in any other year. Hogs are not plentiful at \$8.25. Fall wheat fields present a thick, even stand. The average yield is mainly out of the potatoes are nearly all harvested, and there are few reports of loss from rotting in this vicinity. Prices do not rule high, and the demand has been good. The bush. Oats are \$3. Horse buyers are picking up dry hoes with good figures.—W. A. M.

**BRITISH COLUMBIA.**

**NEW WESTMINSTER CO., B. C.**

**OCHILWACK, Oct. 28.**—We are having lovely weather, fine days and frosty nights. The pleasant shooting season opened on Oct. 25. The wild geese and ducks are sojourning southwards in large flocks. Domestic ducks sell at \$10 a doz.; young roasters, \$5 a doz.; butter, 55c; pork, 16c a lb.; live weight; apple, \$1.50 a box of 40 lbs.—J. O. C.

**GOSSIP.**

**HOLSTEIN TESTS FOR OCTOBER**

Only two official seven-day tests were reported during the month of October. The best of these has been the creditable senior four-year-old record of Ayrlett De Mott Kurke—15.45 lbs. of fat.

1. Jeannette Arda, 15.66, at 6y. 6m. 14d.; milk, 664 lbs.; fat, 15.61 lbs.; equal to 19.51 lbs. of fat. Owned by J. M. Joyce, Little Creek, Ont.

**Senior Four-Year-Old Class**  
 1. Ayrlett De Mott Kurke, 10.75%, at 6y. 6m.; milk, 485 lbs.; fat, 19.42 lbs.; equal to 24.20 lbs. butter. Owned by J. M. Joyce, Little Creek, Ont.  
**Yearly Record of Performance Tests**

**Mature Class**  
 1. Hoop De Kol, 678, at 6y. 356d.; milk, 15,333 lbs.; fat, 482.79 lbs.; equal to 610.99 lbs. butter. Owned by John C. Brown, Stamford, Ont.

**Year-Old Class**  
 1. May Echo Sylvia, 11,386, at 1y. 367d.; milk, 17,756.15 lbs.; fat, 524.24 lbs.; equal to 642.80 lbs. butter. Owned by A. C. Hardy, Brockville, Ont.

2. Tenson Calamity Posh, 12,694, at 2y. 20d.; milk, 7,993 lbs.; fat, 311.5 lbs.; equal to 393.18 lbs. butter. Owned by Richard Honey, Briskley, Ont.

3. Korndyke Beauty, 14,069, at 1y. 200d.; milk, 8,956.18 lbs.; fat, 210.69 lbs.; equal to 264.68 lbs. butter. Owned by W. A. Durant, Chesterville, Ont.

G. W. CLEMONS, Secretary.

**A RICHLY-BRED WORKING HERD OF HOLSTEINS**

Some eight or ten years ago, Mr. S. G. Kitchin, of St. George, Ontario, purchased the foundation for a richly-bred herd of Holstein cattle. He bought from Brown Bros. of Lyn, Ontario, and others breeders down that way, in partnership with Mr. Kitchin at that time was Mr. S. J. McLean, who had entire charge of the dairy cows. Three or four years after Mr. McLean arrived, the purchased herd of Holsteins, which they had jointly had at St. George. Since then Mr. McLean has been quietly at work building up his Holstein herd and making good money from them through selling milk and cream to the city trade. Mr. McLean has worked two years on his farm with his cattle, and of late has found himself improving in health and forced to give up farming and part with his pure-bred cattle.

As yet Mr. McLean is undecided whether to call a public auction sale and sell his Holsteins early in December or to keep them over for time being, and perhaps sell them as a herd privately. Recently while one of the editors of Farm and Dairy was in town on business at his home near St. George, he went over to see Mr. McLean and to inspect his cattle. We were most agreeably surprised at the excellent way in which the superior quality, size and every indication of dairy production possessed by the Holsteins in this herd. Mr. McLean has never advertised and has never gone in for official test work. This will militate against his prospects of realizing high what his cattle are really worth in case he calls a public sale. Good judges of Holsteins and dairy cattle in general, however, will have an unusual opportunity to buy good stuff at a right price at Mr. McLean's sale, should he decide to arrange for a public auction.

There are some 49 individuals all told in Mr. McLean's herd of pure-breds. Twelve of these are ten-year-olds, several are three-year-olds, eight are two-year-olds and 30 are yearlings. Five are suckers under four months. Some of the older stock is sired by Sir Mutual Butler Boy. The younger stock is mainly out of a valuable bull of "Korndyke" breeding. Some of the older cows which particularly caught our attention were Inla Sylvia, Dan, Veruca De Kol, Corinda Int. Lady, Rosa Sylvia, Pauline Abbecker De Kol, Maid of Orleans and Camilla Korndyke, this latter being a five-year-old, and a cow of most pleasing conformation and Holstein type.

Should Mr. McLean decide to sell by auction, his sale will probably be held during the last week of the Guelph Winter Fair, and the sale will be well and extensively advertised in Farm and Dairy.

**NOTES ON THE WINTER FAIR**

While preparations are being made for a larger exhibit than ever in all departments of the Winter Fair, the seed section is especially attractive and encouraging. The Canadian Seed Growers' Association having added \$500 to the section for their members and the amount offered in the standing field or old crop competition has been doubled. Seed entries close November 16th.

The poultry men are planning for a bigger show than ever. Over \$4,000 in cash prizes is being offered in the regular premium list. In addition, a large list of specials will be offered. Poultry entries close November 25th.

**NEWERMIFUGE**

The best and most effective remedy for the bots and other worms in horses (Quarantine) is bottled by the Remedy Co. under the Pure Food and Drugs Act, June 30, 1906. Ref No. 13071. It is guaranteed to kill the worms and the body dead in from 18 to 24 hours all pin worms and bots.  
 It is absolutely harmless and can be given to mares in foal before the eighth month. Practically no dose is written up Newermifuge has removed between and from the stomach of the single horse. An animal whose stomach is full of worms cannot get fat or begin to thrive until the worms are out. Beware of imitations.  
 Each capsule \$1.00. 100 capsules \$12.00.  
 Farmers Horse Remedies, Dept. A.A., 592 - 7th St., Milwaukee, Wisconsin.

**SYNOPSIS OF DOMINION LAND REGULATIONS**

Any person who is the sole head of a family or any male over 18 years old, may homestead 80 acres of any available Dominion land in Manitoba, Saskatchewan or Alberta. The grant must appear in person at the Dominion Lands Agency or Sub-Agency for the district to be settled by, and if not at any agency, on certain conditions by father, mother, son, daughter, brother, or sister of intestate. The settler must reside—six months residence upon and cultivation of the land in each of three years. A homesteader must live within nine miles of his homestead on a farm of at least 5 acres, or on a full charge of property by him or by his father, mother, son, daughter, brother, or sister. In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price, \$3.00 per acre.  
 Duties—Must reside upon the homestead pre-emption for 3 months each of six years from date of homesteaded entry (including the time required to enter Dominion lands) and cultivate fifty acres extra.  
 A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead on certain conditions. Price, \$5.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres extra, and pay 10c per acre.

W. W. COEY,  
 Deputy of the Minister of the Interior.

**BLOCK MARKS.** Metal ear tags for cattle, sheep, and hogs. A splendid new method of marking. Simple and easy to use. Rowman and Circular Co., Erie, Pa.

**PROTECTION OR FREE**

Why are all the great farmers' organizations of Canada and the United States opposed to the system of protection? Why do they claim that protection imposes millions of dollars of unjust taxation on farmers? Which do you believe in, Protection or Free Trade? What do you know about this great subject anyway? Have you relied for your information on what you have read in the party press, either Liberal or Conservative, or what you have heard in the mouths of the politicians any? If that is all you know about it then you need a great deal more. Here is your chance to learn all about it from a non-political, unbiased source. "Protection or Free Trade," by the great Henry George, a book written some 30 years ago, but which is still true today as it was when it was written. This is because it deals with the great principle of justice. It asks the question, "Is it fair?" and the great arguments in favor of Protection. It gives you the answers for them. When you have read it you will know practically all you need to know on this question and you will be able to hold your own with politicians or anybody in its discussion.

This great pamphlet form, contains 117 pages, and may be purchased through the Guelph Winter Fair for only 5c. Send the money in stamps and we will forward it to you. Amount of stamps you enclose encourages for revenue. "The Home Market and the Home Trade." Dr. H. H. Hedges' Necessary Protection of the Home Market and the Home Trade. "Protection and Wages." "The Old Country and the New." "The Rent Strength of Protection." "The Rent Strength of Protection." "The Rent Strength of Protection." No further doubt about the rights of this far-reaching question after you read this book. Apply Kook Department, Farm and Dairy, Peterboro, Ont.

**You Can Absolutely Rely Upon Toronto Steel Tanks**

The material is the best Apollo galvanized steel. The galvanizing is perfect. It won't rust. The gauges are heavy enough for intended use. Solder is guaranteed to keep tanks tight under any rust and leak.

We employ good mechanics—our men know their trade—consequently, you turn out tanks that last a lifetime. You probably need another tank, so send for an interesting descriptive pamphlet and request our estimates on your requirements. Address the office nearest to you.

**IT IS SIMPLY UNVALUABLE**

That is Mr. Stewart's Opinion of Douglas' Egyptian Liniment

Mr. Stewart, of Desmond, Ont., has given Douglas' Egyptian Liniment a try through test, and this is what he has to say:

After using and making some remarkable and speedy cures with Douglas' Egyptian Liniment, I must confess that I believe it to be the most wonderful remedy for man and beast I have ever used. We had a horse severely injured in the pasture field where we were aware of it the wound was in a very bad condition, but Egyptian Liniment soon dislodged everything nasty and a rapid cure was made. In the house it is simply invaluable in all cases of rheumatism, sciatica, neuralgia, horse sprains or bruises. It is a boon to humanity.

You owe it to your family, and your stock, to keep a bottle of Douglas' Egyptian Liniment always on hand, ready for instant use.

It stops bleeding at once. It heals lacerations and wounds without inflammation or foul smell. It quickly takes the pain out of swelling out of sprains and bruises of all kinds. In fact it is simply splendid for every trouble of man or beast which a moment can cure.

Get at all dealers. Free sample on request. Douglas & Co., Napanee, Ont.

**STALLION INSPECTION**

Under the Ontario Stallion Act

Inspection Points and Dates now arranged

Persons wishing Stallions inspected should apply for particulars to
