

## Disks 50 Times More Work

Washing 42 disks, and other bowl parts, from a disk filled "bucket bowl" machine. Other "bucket bowls" are about as bad.

The disks in the full pan belong inside a "bucket bowl." The little piece in the other pan is all there is inside Sharples Dairy Tubular bowls.

ARE YOU willing to wash and dry 50 to 100 times more tinware surface than you need to? If not, why not let "bucket bowl" cream separators alone and get a Sharples Tubular? Is thoroughly washing and carefully drying tinware so easy that you don't care how much you wash? Had you not rather wash a single piece, that has no more surface than the palm of a man's hand, than to wash 40 to 60 pieces that, together, have as much surface as a piece of carpet two yards long and a yard wide?

That's a pretty big contrast, for sure.

But it shows truly the difference in the work of washing a common disk filled "bucket bowl" cream separator as compared to washing the light, sanitary, wear forever modern bowl used in Sharples Dairy Tubular Cream Separators. Look at the two dish pans and you'll see the point.

Other "bucket bowl" separators are about as bad.

Considering the complication and weight of "bucket bowl" cream separators (and all cream separators except the Tubular are the "bucket bowl" kind) don't you think you'll save a lot of work, wear and expense by letting the "bucket bowl" sort entirely alone and getting a Tubular?

It is not surprising that Tubular sales exceed those of most, if not all, other separators combined. "Bucket bowl" sales are so reduced, by Tubular popularity, that several makers of cheap machines can no longer sell their product through responsible dealers and depend largely on peddlers to get rid of their machines.

Any farmer or dairyman who is looking for an expensive bit of experience, instead of cream separator satisfaction, can get it of a peddler.

The manufacture of Tubulars is one of Canada's leading industries. It is the world's greatest cream separator. It will give you greatest satisfaction—greatest profits—greatest wear. Get catalog No. 193.

All there is to the Dairy Tubular bowl. Washed easily in three minutes. A few thrusts of the brush does it.

The Sharples Separator Co.  
Toronto, Ont. - Winnipeg, Man.

## AMERICAN FENCE

MADE BY  
**THE Canadian Steel & Wire Co. LIMITED**

A sound, substantial, enduring fence, built on elastic, hinged-joint principle—the most scientific, practical and perfect fence principle known. It yields to great and sudden pressure but returns again to the original shape.
