

With butter at the present high price every ounce of cream counts

Cream is more than ever a very valuable commodity these days, and it is doubly important that not a drop be wasted or lost.

If you are still using the "gravity" setting method you are losing a pound of butter-fat in the skim-milk for every four or five pounds you get.

The advantages of the DE LAVAL over inferior cream separators at all times are greatest at the season when milk is often cool and cows are old in lactation.

A DE LAVAL

Will Save Its Cost by Spring

Then why put off any longer the purchase of this great money saving machine? Put it in now and let it save its own cost during the Fall and Winter and by next Spring you will be just so much ahead.

Even if you have only a few cows in milk you can buy a DE LAVAL now and save its cost by Spring, and you can buy a DE LAVAL machine for cash or on such liberal terms that it will actually pay for itself.

There are times when you want a strong fire quickly without heating your oven: Well—just slide the "Controller Damper" and the heat will not envelop the oven, but escape directly into the smoke-pipe.

These are *only a few* of our *special* improvements covered by *Canadian Patent No. 118,960*.

Here you see the "Front Draft" on all our ranges—with right hand reservoir. The damper drops open readily so that ashes and clinkers can be removed with an ordinary poker without stooping. The "Front Check Damper" is adjustable and stays exactly as you want it.

Note how the "Front Top Section" can be raised to any height, from one to seven inches. This makes broiling and toasting easy and convenient and puts the "Corona" into a class by itself.

You owe it to yourself to see this *splendid* and *durable* steel range before buying. If it isn't on your dealer's floor, write us for handsomely illustrated catalogues.

The Barn of To-day is Sanitary

It is clean, airy and comfortable. Under modern conditions cows give more milk and are more profitable. The best barns are equipped with Louden Stalls, Stanchions, Litter and Feed Carriers, which cost no more than poorer makes. Prices within reach of everyone.

LOUDEN Cow Stalls and Stanchions

are made of light, strong tubular steel with malleable iron fittings. The stalls, bull pens, and calf pens allow the animals plenty of air and light, and promote cleanly conditions.

The stanchion is the simplest, strongest and most comfortable cow stanchion possible. Has positive latch, easily and quickly operated but perfectly secure.

Our Barn Architect will prepare **FREE** Plans. Write for New Catalogue.
