Before You Buy

Implements or Machines for the Farm CONSIDER THIS:

You want the seeder, the cultivator, the harrow, the harvesting machine, or whatever it is that you are buying, to be of the *best possible value*.

That is, you want to get the most for your money—not most in quantity, but the most in *quality, long service, durability, and freedom from break-downs*.

That's justice to yourself and good common sense.

Well, we claim that in our big factory in Hamilton, Ontario, we have a combination of *experience and facilities* that enables us to offer to the the farmers of Canada a line of implements and machines, of *unusual excellence*. We don't like to use the old phrase, "*the best in the world*," because everybody says that, but thousands of satisfied customers say it for us, and they really ought to be, for we have had experience and we have facilities possessed by no other manufacturer.

We cannot tell you on paper half the good points of the International line. But we try to make it easy for you to see for yourself. In almost every community in all of Canada you will find an International dealer. He has catalogues describing our line. He has samples on the floor. He will be glad to show you.

Isn't it wisdom on your part to call upon him *before you buy*, and see for yourself what he has to offer?

Do it. It won't take much of your time and it pays to be informed on the merits of different lines.

Remember, too, that every machine and every implement sold by every International dealer has back of it the International Harvester Company's reputation for the highest quality and longest life.

Call on the dealer.

The International lines are represented by different dealers. See them for catalogues of
